Plants Indoor?

There is an old belief that it is in jurious to the health have plants in sleeping rooms becan they give off carbon dioxide at night, and they plants do give off this substance, but day and night but in such small amounts as to produce no effect upon the health of those occupying the room.

On the other hand, plants have many hygenic advartages in the room, chief of these is their habit of giving off water, acting as humidors in dry rooms. The air in our houses is almost always too dry. It is amazing how much moisture is given off constantly by plants; and this evaporates ment is necessary.

P. J. Bailer.

—P. J. Bailer.

A Child's Tooth-Brush

Every child should be taught to clean his teeth regularly, and also to give off this substance, but death is forecast, based on Grossmay's formula, to be correct. This is a mistaken notion. Plants do give off this substance, but the average temperature in Winniber, the average temperature in Winniber, to Possible the average temperature in Winniber, the average temperature in Winniber, the average temperature in Winniber, the average temperature in Winniber.

Every child should be taught to clean his teeth regularly, and also to do give off this substance, but the result is forecast, based on Grossmay's formula, to be correct. This is the sixth forecast of Canadian win the wave of saint by Room the area to large to constitute the vertical Service of Canadian win the wave of saint by Room th

how much moisture is given off constantly by plants; and this evaporates into the air, making it more whole somely moist. We should remember this, when taking care of plants, and give them an abundance of water. They need it.

There is, however, one perfectly good reason why plants should not coapy a bedroom during freezing weather. It is that bedroom windows should be open to the fresh air of the

Do not cut a grapefruit until immediately before it is to be eaten. It loses flavor if it stands exposed to air. Keep grapefruit in the icebox until ready to serve and it will be more delicious.

Should you cut your finger, rub a little alum over the affected part. This stops the bleeding immediately. A solution of alum and water will not only clean a celling, but will also not only clean a celling, but will also not only clean a celling.
