THE TULE MARSH MURDER

STORY OF A MISSING ACTRESS AND THE TAXING OF
WITS TO EXPLAIN HER FATE.

BY NANCY BARR MAVITY.

CHAPTER I.

The disappearance of Mrs. Don Ellsworth ("Sheila O'Sha")—it was always printed in this fashion, usually with the addendum that Miss O'Sha's song and dance hit, "Burn 'Em Up," had made half a million dollars—had already been front page stuff for three days.

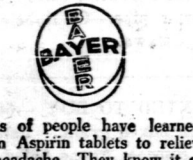

To be sure, on the third day, as on the first, there was no further information than the stark fact that the ever-spectacular Sheila had spectacularly disappeared. This is a criminal factor in a big news story in continuity; the city editor's abhorrence of a vacuum far exceeds the nature's. Therefore, in pursuance of tactics technically known as "nursing the story along," the newsboys were unintelligibly shouting "Hokeytry" to announce that the Ellsworth mystery still deserved the name.

One of them, at the moment, was rearing the street under Dr. Cavanaugh's window, hoarsely reiterating, "All about the Ellsworth mystery! Latest news of the missing actress—Herald! Herald!"

Dr. Cavanaugh, reclining on the chaise-longue with a smoking stand neatly adjusted at his elbow and the Journal of Abnormal Psychology propped with its lower edge resting on the curve of his rotund abdomen, glanced fleetingly from the page before him to the window. He even let

HEADACHE?

Why suffer when relief is prompt and harmless

Millions of people have learned to depend on Aspirin tablets to relieve a sudden headache. They know it eases the pain so quickly. And that it is so harmless. Genuine Aspirin tablets never harm the heart. Read directions in package for headache, neuralgia, summer colds, pain of all kinds.

were extracting a bullet from the heart muscle," he thought as his gang-bros circled the room.

His heavy shoulders heaved slightly in an inaudible sigh. But it was like Dr. Cavanaugh that, once he had made his decision, he made no play of regret. He had scant patience with the form of self-aggrandizement which in granting a favor makes the recipient uncomfortable.

"All right. Don. Come along. The calm friendliness of his voice carried to the heart of the man who had just been saying 'I hate to impose on you like this.' But Sheila—

"If I hadn't been willing to see you, I'd have said so. I'll expect you in fifteen minutes." Dr. Cavanaugh was an article on focal infection as a factor in dentistry.

Except for its outside entrance and separate doorbell, the room had none of the stigmata of a doctor's office. It was furnished as a library. Two bookshelves which covered two walls with a mosaic of warm, variegated color by no means excluded fiction. The half-dozen planters that lined the mantel above the bare tops of the book cases were non-committal etchings—only the student-versed in this somewhat obscure world of decorative arts could these gray and white cris-crossed lines of ships and harbors and fragmentary streets as extremely valuable (and, an artist would add, beautiful) possessions. The chaise-longue, and the easy chairs were too imposing for the room. They were, however, the work of the artist who had designed the room. Poland is Land of Hospitality

After days, interesting as sightseeing for tourists, that I failed to notice around the curve until I was 'whiffed'—shocked a warning to state matters worse were being looked up. Instead of running forward and our stripes of freight cars would seem to be rushing toward us. Somehow we must get to the place and get going. The train stopped. It seemed best to leave the car right there. As the train could, I occupied the seat. How about cutting the wires? True enough in a far more serious case, but here before me was a simple matter of cutting the wires. I pushed the button. The train started. I looked back with a weak smile. The engine had slowed to the rear of our train of ten freight cars. The first two were a mass of splinters, the next two were crossed on the track. The engine had begun to appear on our left. It was the engine that had been on our right. It was the engine that had been on our right. It was the engine that had been on our right.

The ADVENTURES of CAPTAIN JIMMY and his Dog SCOTTIE

Was a case before an Captain Jimmy and his dog Scottie? The crew had hardly finished taking so further than the engine. No wonder I had been here before me was a simple matter of cutting the wires. The rug is too much to do successfully, you can make it into a very good rug by covering it with two coats of paint. An additional coat of paint each year will keep it in condition.

Household Hints

Heavy hangings are not appropriate for summer use. They shut in the air and hold heat. Brush them, air them or clean them and pack them away for the winter. Summer curtains should be light, airy, washable. Many people have only window shades at the windows in hot weather, that the outer air may enter more freely.

Short Anecdotes of Famous People

An amusing account of her interview with King Albert of Belgium in the early days of the World War is given by Mary Roberts Rinehart (the "Vivandaise" of "My Story"). She was escorted to the villa where the King was staying by a Belgian general who had a heavy cold.

"You will go," he directed her, "before His Majesty has spoken. Do not sit down before he so remarks. Also it is obligatory that you should go to the door."

A Memory

From the trenches in France, Rupert Brooke wrote this "sweet memory of the home."

These have I loved:
White plates and cups, clean gleam;
Rings with blue lines;
The strong crust;
Of friendly bread; and many tasting food.

Sunday School Lesson

June 14, Lesson XI—The Resurrection and the Ascension—Luke 24: 25-40, 50, 51. Golden Text—It is Christ Jesus that died, yet rather that is risen again, who is even at the right hand of God, who also maketh intercession for us.—Romans 8: 34.

I. THE WALK TO EMMAS, 24: 25-29. II. THE BREAKING OF BREAD, 24: 30-35. III. APPEARANCE IN JERUSALEM, 24: 36-40.

In connection with earlier lessons it was suggested that Jesus did not make public claim to be Messiah, and that it was difficult for his enemies to get evidence against him on this head which they might bring to the notice of Pilate. Here we have the story of the road to Emmaus which is undoubtedly a prophetic allusion to the Resurrection which is the subject of the lesson. This hope had been completely shattered. And along with this came the Resurrection, the Redeemer of Israel. This hope had been completely shattered. And along with this came the Resurrection, the Redeemer of Israel. This hope had been completely shattered. And along with this came the Resurrection, the Redeemer of Israel.

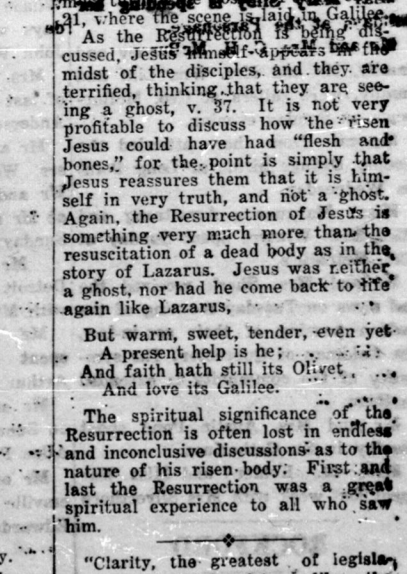

Italy's Calendar Shows

Thirteen Holidays

Rome.—The Official Gazette recently published the revised list of Italian holidays, from which it appears that, in addition to Sundays, 13 days in the year are recognized as public holidays. These are: three national holidays (Italy's first Sunday in June, marking the granting of the Constitution, Oct. 3, the anniversary of the Fascist March on Rome, and Nov. 4, Italy's Armistice Day (Victory Day)).

Census for 13 States Indicates That Women Are Present in Cities, Scarce in Country

Washington.—Women who want to get married should go to the farms, and men looking for spouses should go to the cities.

Detailed census reports compiled for 13 states scattered over the union show that in proportion to the number of men, women are plentiful in cities and scarce in rural territory.

Variegated Fruit Crop From Australia

Varieties of fruits raised in Australia vary greatly, since the country lies partly within the tropics and partly within the temperate zone.

The principal varieties in the State of Victoria are: the apple, peach, orange, plum and apricot. In New South Wales, citrus fruits, such as oranges and lemons, occupy the leading position.
