The Blackberrying Season Native Runners Vanishing

Somewhere along in May the extended of the blackberry blossoms began to foam down the back lanes in Waverly. At the same time, lanes in Waverly, At the same time, lanes in Waverly. At the same time, land alraost every day, there fell a will eand beginning again; this was adult attention to our delighted pination of the world and blackberry rain. The country grew a very fair thing, miles of leather-hued fences, a tree together with the drip of the rain, gave the whole weather an unexpected strange loveliness. You felt yourself a new-comer in a separate world. A month or so later, the fruit appear, white, straight as spears. It was as first scaled to the parched, clear sky. We show the first same time, and stranged country, sky overhead, served the whole weather an unexpected a new-comer in a separate world. A month or so later, the fruit appear, white, straight as spears. It was as the same time, to black centers, combine well with blue, lavender, or purple flowers. Gillia capitata has finely cut foliage and feathery flowers of lavender-out planes and strange of 750 miles, writes a correspondent of "The Christian Science Monitor." It is a vast engineering problem to bridge mountains and dales, for the route selected veers purposely from the easier flat and barren desert together with the drip of the rain, and strange country, sky overhead, ground underneath, but of wide spaces, together with the drip of the rain, and strange country, sky overhead, and underneath, but of wide spaces, while, straight as spears it was as the route of the particulars appears to purple flowers. Gillia capitata has finely cut foliage and feathery flowers of lavender-out of the whole of the varied again, we small ones trudging and feathery flowers of lavender-out of the with blue, lavender, or purple flowers. Gillia capitata has finely cut foliage and feathery flowers of lavender-out of the feathery flowers of lavender-out of the with blue, lavender, or purple flowers. Gill actacquality and feathery flowers of lavender-out of the with A month or so later, the fruit appear, white, straight as spears. It was as There is at present no telegraph

first scarlet, then a round, glossy black. The blackberrying season was on.

By what favor of the gods my sister and I were included in the party which set out from the old house some June afternoon, intent on filling sundry kettles and baskets with the ripened fruit, none will ever know. It was always hot. We started off, each carrying a tin kettle, crossed the orchard and the Old York Road, climbed a fence, and let ourselves down in Macdonald's pasture.

A breathless moment. A thick

though we were walking to the ends though we were walking to the ends of the world. Suddenly we came to a hollow, and a huddle of briers, showing patches shining black from top to bottom. Here were our berries. In a minute or two they were falling with a pleasant clop-clop into our kettles, the sound turning into a duller one as the latter began speedily to fill up.

All about was the scent of the berry on a stove, and of the wind in the fence, and the earth under our feet.—
Lizette Woodworth Reese, in "A Victorian Village."

The mative measures to guard the crumbs thrown to her cucklings by kindly passers-by. These crumbs were attracting spar-rows, and the curb of an automobile, has never heard of an automobile, and his method of communication dates back centuries to the Aztec period. Runners are used to carry word from one village to another.

But the runners are preparing, as the water carriers of Mexico City did a few years ago, to retire. No sons are being trained by runner fathers to succeed them. As when the pioneers made their way west in the early days of the United States, native scouts point to the camps of the surveyors as an inevitable sign that their offspring must to take similar action in the same cirfirst scarlet, then a round, glossy though we were walking to the ends and no postal service.
