"The Record"

Ganadian Medical Associa

ance of the body to the In general we think of germs as causing certain definite diseases, such as diphtheria or typhoid fever. There are, however, other germs the such are almost always present on which shows itself as welling, and which is or in the skin. These seldom cause swelling, and which is trouble if the skin is unbroken and This inflamation may

trouble if the skin is unbroken and lef the individual's general health is maintained.

The unbroken healthy skin has several functions, among which is that of serving as a covering for the body, in which capacity it acts as a barrier to keep out germs which would cause trouble if they succeeded in penetrating the barsucceeded in penetrating the bar- strict cleanliness is nec rier and reaching the structures siderable harm nay

ways, as, for example, when it is spread the infection. The cut or scratched. Many small breaks occur which are not visible to the naked eye, but which nevertheless are large as compared with the germs which may gair anterest to a spread the infection. The spread the infection. The carbuncle is really a large and the spread to the carbuncle is really a large and the spread to the spread to the carbuncle is really a large and the spread to the carbuncle is really a large and the spread to the carbuncle is really a large and the spread to the carbunches. germs which may gain entrance to ary boil.

The prevention of bo

The skin, as one organ of the body, reflects the general condition of the body. The skin cannot be heatthy unless the whole body is healthy. Some diseases, such as diabetes, particularly influence the health of the skin, and when these diseases occur, the power of the skin to resist germs is lesened. Unleadings, and overclothing which is and treatment of the bound of the skin who and treatment of the bound of the skin who are attention to get and treatment of the bound of the skin who may also use leanliness, and over-clothing which auses excessive perspiration and so raise the resistance of

causes excessive perspiration and so irritates the skin, also lower its resistance.

A faulty diet, the use of greasy foods, upsets of the digestive tract and constipation are favorable to the germs. It would appear that these conditions and others, such as worry, over-fatigue and lack of will be answered person.

Cruises Around World After First Season

Tired, like any debutante after the hectic gaieties of her first season, the young lady who, immediately after her presentation at the Court of King Neptune last May, became a leader of society, leaves the shortly for a leisurely cruise around the world.

The young lady in question, the 42,500 ton Canadan Pacific liner "Empress of Britain" has just concluded her first Atlantic season during which her parties, amongst the most brilliant ever held on the Western Ocean, have been attended by more Allister dreamed of.

Princes, Ambassadors, Earls, Viscounts, Baronets, anglists of many of the highest orders of chivalry at their ladies have yield for her favour; and the lighest aristocracy of North America, the noble floquois Indians, pad their homage when they construct the first of the Canadian Pacific fleet:

Regaining the Blue Ribband of the Atlantic for British Empire on her second voyage by making

WHAT CAR SALES MEAN TO CANADA

ated in a dramatic way by recent deliveries from the plant of General Motors of Canada at Oshawa, Ont means more to Canada than appear on the surface. The Chevrolets, Pontiacs, Oldsmobiles, McLaughlin-Buicks and Cadillacs turned out at Oshawa represent the made-in-Can-ada ideal which is set up by General Motors of Canada, and there is no province and scarcely a large city in the Dominion, which does not contribute material or services for the cars which go to the consumer from the production lines at the Ontario plant. Sales activity in these cars, greater in this particular year because consumers are demanding Canadian made goods, means millions spent throughout the Dominion. The expenditures of General Motors of Canada in the
