**SEASONAL FEED COST OF MILK PRODUCTION**  
The feed cost of producing milk during the different seasons of the year has received considerable study at the Dominion Experimental Farm, Nappan, N.S. In this article the cost alone under average conditions is equal to approximately sixty per cent of the total cost.

During the seven year period, 1924 to 1930 inclusive, the average cost per 100 pounds of milk from the Guelph herd was \$1.80 during the winter season. November to May, and \$1.25 from June to October, the pasturing season. In 1929 the costs were \$1.00 and 97 cents respectively from November 1933 to May 1931, the cost was \$1.41, while in June it was 52 cents. The reduction in cost the past two years has been due to increased production, together with lower feed costs.

With the increase during the past few years, in the ice cream trade, and also in cold storage facilities, the spread between summer and winter prices received has been reduced to a narrow margin; for this reason, the profit on summer milk is much greater than it was a few years ago.

It is important to keep in mind the fact that good pasturage is necessary in order to obtain the maximum production during the summer months. This can be obtained thru the proper use of fertilizers and careful grazing, in order to develop a heavy growth of short fine grasses and clover.

The Nappan Farm invites inspection of their Guelph and Jersey herds and also of the experimental pasture areas.

**MARRIED**—In St. Paul's Anglican Church, Jarvis, on Wednesday, Aug. 28th, by the Rev. J. Hirst Ross, Edith Emily Jarvis of Walpole, to Frank R. Titshall, of Richmond Hill, Ontario.

**OBITUARY**  
**DANIEL MCCARTHY**  
His home in the City of Detroit, Michigan, on Thursday, September 3rd, Daniel McCarthy passed away very suddenly at his 75th year. He was the late Mr. McCarthy was the son of the late Charles and Mary McCarthy, who were pioneer settlers of the Township of Walpole and had lived here until a few years ago when he took up residence in the United States, where he had resided. He was a carpenter and made many fine barns in the Township of Walpole stand as monuments of his handiwork. He was survived by three sons and two daughters who are in Detroit. The funeral will be held on Friday evening, September 11th, at 7:30 p.m. at St. Paul's Anglican Church, Jarvis, where he spent three years in business during the early part of the war. The location of this village is somewhat unique, being at the junction of two highways, No. 3 and No. 6, and the motor traffic which consists largely of American tourists, is very extensive. The inhabitants of the village are wide awake and progressive and are noted for their hospitality. They are members of a Board of Trade and it is perhaps the only small village in the Province that has availed itself of the advantages of radio in broadcasting its attractive features. After luncheon and calling on other special friends and relatives, we proceeded to our old home at Fairground by way of Street, Delhi and Courtland. We found this a most delightful drive over the splendid highways, lined on either side by huge tobacco waving in the breeze, and we were almost led to regret our non-smoking predilections as we thought of all the broad comfort wrap up in those broad acres. By the way, this industry has proven a great boon to the farmers of Norfolk County, where much of the soil is particularly adapted to the growing of this weed, and owing to the large amount of labor required it furnishes employment to a great number of men and women.

Arriving at Fairground, over a newly gravelled road, at about forty miles an hour, we could not help thinking of the hundreds of times we travelled this road in our youth at about four miles an hour with the dobbie hitched to the light wagon and the wheels half buried in the sand and bumping over a stretch of corduroy. After spending the night here we proceeded ten miles west to Port Burwell, where about ten years of our business career had also been situated on the banks of Lake Erie and was at one time, before railroads became so numerous, a very important shipping point. Many large vessels were owned and operated from this port and most of the inhabitants were either carpenters or masons. By the way, it was here that the old sailor lived who so often remarked that an east wind was good for only one thing—to drive a vessel up the lake.

Like most villages, Port Burwell can boast of having one "grand old man" and this is in the person of Squire Burwell, who at the age of ninety two and a half years retains all his faculties and walks erect with all the vigor of a much younger man. He has spent his whole life in the village and occupied many positions of trust. A man of broad views and high standards of living, he is much esteemed by all his acquaintances. We very much enjoyed a chat with him at his beautiful home. The fishing industry which has been carried on so extensively there during recent years is almost a thing of the past. By however, notwithstanding the many disastrous fires that have occurred of late, the village is by no means dead. As a summer resort it is widely known and patronized and the car ferry, Ashabula still makes her regular trips across the lake, unloading large quantities of coal at her well equipped docks. This boat carries thirty-two cars of coal and makes the round trip in about eight hours. The personnel of the village has greatly changed since our time there, however there are many old timers left with whom we had the pleasure of shaking hands. "There's no place like home."

**FORMER NORFOLK WARDEN IS NERVOUSLY INJURED**  
Simcoe, Sept. 1—Roy Mieser, former warden of the county of Norfolk was the victim of a painful accident today when he was planned to a forward seat for the reverse. His vehicle ploughed over the curb, pinning Mieser against a store front. The injured man was extricated and taken inside the store and medical attention was summoned.

On Saturday last Mr. and Mrs. Roy Steel of Buffalo called on the former's parents, Mr. and Mrs. Dan Steel, from here Mr. and Mrs. Dan Steel accompanied them to Essex to visit Mr. Steel's brother, Mr. Joseph Steel, who has been ill for some time but who they are glad to return to his home. On their return trip they called on Mr. and Mrs. Alva Steel at London and on Mr. and Mrs. Galbraith and family at Appin.

**A Trip Back Home**  
(By D. F. Williams) . . . . . Can you imagine anything more thrilling than a trip back to the home where every foot of soil is linked with some memory of boyhood days? Even some of the trees that were left appear unchanged after 50 years of battle and strife. And some are chestnut trees with their heads high in the air and their branches spread wide, where we used to climb and vie with the black squirrels as to who should reap the rich harvest of nuts.

Leaving Markham by automobile on Tuesday morning of last week, together with other members of the family, a few hours by way of Toronto, Hamilton and Caledonia brought us to the thriving village of Jarvis, where we spent three years in business during the early part of the war. The location of this village is somewhat unique, being at the junction of two highways, No. 3 and No. 6, and the motor traffic which consists largely of American tourists, is very extensive. The inhabitants of the village are wide awake and progressive and are noted for their hospitality. They are members of a Board of Trade and it is perhaps the only small village in the Province that has availed itself of the advantages of radio in broadcasting its attractive features.

After luncheon and calling on other special friends and relatives, we proceeded to our old home at Fairground by way of Street, Delhi and Courtland. We found this a most delightful drive over the splendid highways, lined on either side by huge tobacco waving in the breeze, and we were almost led to regret our non-smoking predilections as we thought of all the broad comfort wrap up in those broad acres.

By the way, this industry has proven a great boon to the farmers of Norfolk County, where much of the soil is particularly adapted to the growing of this weed, and owing to the large amount of labor required it furnishes employment to a great number of men and women.

Arriving at Fairground, over a newly gravelled road, at about forty miles an hour, we could not help thinking of the hundreds of times we travelled this road in our youth at about four miles an hour with the dobbie hitched to the light wagon and the wheels half buried in the sand and bumping over a stretch of corduroy.

After spending the night here we proceeded ten miles west to Port Burwell, where about ten years of our business career had also been situated on the banks of Lake Erie and was at one time, before railroads became so numerous, a very important shipping point. Many large vessels were owned and operated from this port and most of the inhabitants were either carpenters or masons. The personnel of the village has greatly changed since our time there, however there are many old timers left with whom we had the pleasure of shaking hands. "There's no place like home."

**MONUMENTS, BOARD ERECTS EARLY INDUSTRY AT NORMANDALE**  
DALE-WILL BE UNVEILED ON SEPTEMBER 18TH.  
No. 1111 Cumy will again be recognized by the Historic Sites and Monuments Board of Canada when on Friday September 18th, a plaque will be unveiled on the Fish Hatchery building, Normandale, to commemorate the old Van Norman Foundry or Normandale Furnace, as this industry was variously known.

More than one hundred years ago the Van Normans and the Tilsons were manufacturing all kinds of household and farm implements from the bog iron ore at Port Normandale. It was a hive of activity and scores of men found employment there, casting its iron returned handsome profits to its owners.

As the first industry of its kind in Upper Canada, it is now recognized as a landmark of the history of the Normandale Furnace.

Following is the inscription on the plaque erected at Normandale: Historic Sites and Monuments Board of Canada  
The Normandale Furnace  
Founded in 1813 by Samuel Mason, Enlarged and conducted with success by Joseph VanNorman, Hiram Capron and Henry Tilson, from 1822 until 1829, when they were joined by Elijah Leonard. Employing at times over two hundred men in the manufacture of agricultural implements, utensils and stoves, it was operated here until the local supply of bog ore was exhausted about 1853 and was an important factor in the early economic and industrial development of the country.

Erected 1931  
Nearly one hundred years ago one of our old pioneers worked at the anvil in the Van Norman Foundry, in the person of John McMillen, father of our present townsman, J. R. McMillen, and after leaving them in the early 60's, he established a blacksmith shop here which he sold out to his son in 1874, and was afterwards engaged in farming until retiring in 1893.

**Silver Wedding Anniversary**  
Lucretia Col. D. D. Gunton and Mrs. Gunton entertained about twenty-five guests at their residence on Union St., Simcoe, on Friday evening September 4th, on the occasion of the twenty-fifth wedding anniversary. The Hostess received the guests and a becoming gown of green crepe sage bouquet of Brivariff roses. A delicious supper was served in a marquee on the lawn, where Mr. and Mrs. Gunton presided and Mrs. Gunton served the coffee urns. Bridge and dancing were enjoyed during the evening.

Among the many lovely gifts that were received was a beautiful Sheffield Tray, presented by the officers of the Norfolk Regiment of the serjeants of the regiment. Telegrams and letters of congratulation were received during the day from those unable to attend. Among those present from out of town were: Mr. and Mrs. E. S. Miller, Toronto; Mr. and Mrs. T. W. Leighton, Hamilton; Mr. and Mrs. Albert Hoople, St. Catharines; Mr. and Mrs. W. H. Flaherty, London; Mr. and Mrs. J. B. Morrison, Pergus; Mr. and Mrs. O. J. Joffe, Mr. Arthur Joffe and Miss Mary Powell, all of St. Thomas; Mrs. John Church, Mr. and Mrs. J. F. Laplant, and Mr. and Mrs. Melvin Church of Jarvis.

**DOVER LAD WON MEDAL FOR "TRUE MANLINESS"**  
(Port Dover Maple Leaf)  
In the September issue of the Canadian Homes and Gardens Magazine the picture of a group of prize winners of Lake Lodge School, at Grimsby, appears, among them being Alton Hoover, Port Dover, son of Mr. and Mrs. A. H. Hoover, First Avenue winner of the medal for "True Manliness," one of the four medals given for outstanding leadership and character.

**Jarvis Fall Fair**  
The coming in of the month of September, brings along the Fall Fair and the annual collecting to-regether of the entire community for the day of visitation. This year the Jarvis annual Fall Fair on Tuesday and Wednesday, Sept. 29 and 30th.

The officers and directors are making a special effort to entertain the crowds that are sure to attend. The prize offerings in the list are generous and the many special prizes offered should tax the Agricultural Hall with exhibits.

The school children's parade and drill will no doubt be well filled and with the special prize awarded for public speaking should furnish a large part of the afternoon's attractions.

The old time fiddler's contest should draw together many of the old time musicians and with the libel contest and the major attraction for the afternoon of the second day.

The Fair deserves the support of the entire community, having been started in the year 1853, and held for a number of years at Walpole Centre, where in the good old days a number of arguments were settled and a thing from a pound of butter to the latest baby arrival. Join with us on the 29th of the month and do your part to make this the 78th annual Fall Fair, a record breaker.

Prize lists may be had by writing the Secretary, Geo. L. Miller, Jarvis and please make your entries early, which eliminates much confusion on the days of the Fair.

On Saturday last Mr. and Mrs. Roy Steel of Buffalo called on the former's parents, Mr. and Mrs. Dan Steel, from here Mr. and Mrs. Dan Steel accompanied them to Essex to visit Mr. Steel's brother, Mr. Joseph Steel, who has been ill for some time but who they are glad to return to his home. On their return trip they called on Mr. and Mrs. Alva Steel at London and on Mr. and Mrs. Galbraith and family at Appin.

On their return trip they called on Mr. and Mrs. Alva Steel at London and on Mr. and Mrs. Galbraith and family at Appin.

**Plowing Match**  
The 1931 Plowing Match will be held on the farm of Joseph Eubank, R. R. 3 Hagersville, on Thursday, October 29th. This was definitely decided at a meeting of the Directors of the Haldimand County Plowing Association held in Cayuga on Monday, September 8th, on which occasion several farms were considered. Mr. Eubank's farm is about midway between Hagersville and Caledonia on Highway No. 6 on the east side of the highway and across the road from where the new Canadian Gypsum Company are organizing their new plant.

Other items considered at the Directors' meeting were adjustments in the prize list, rules regulations, etc. It was announced that the A. J. H. Eckart trophy, consisting of a four piece 14 karat gold-lined Silver Tea Service, would be competed for at the Haldimand match this year. This will be awarded to the best plowed ridge on the grounds and is open to members of plowing branches in the Counties of Haldimand, Lincoln, Welland and Wentworth and those who reside in these counties. This will no doubt create considerable interest and it is expected that there will be keen competition.

There will be the usual number of splendid trophies in the various classes.

**PLAN DRIVE AGAINST NOISY RADIO OWNERS**  
Will Penalize Fans Who Disturb Sleep of Neighbors  
Hamilton—Radio sets which chortle into the night rendering sleep impossible for neighbors, will bring swift punishment for their owners in future, Deputy-Chief Goodman announced today.

A drive is being launched by the police against citizens who open their windows wide, turn on their radio sets to full power and proceed to blast the slumbers of all nearby residents. A fine of from \$5 to \$500 may be inflicted upon such persons if they operate their sets noisily between the hours of 10 p.m. and 7 a.m., Mr. Goodman pointed out.

**AFFECTS TORONTO ALSO**  
Regarding Deputy Chief Goodman's announcement Chief Inspector Geo. Star that there was a by-law against unnecessary noises which included radio sets.

"I do not know if there is a penalty for noisy radio sets but I believe could interfere if the noise was annoying sick people," stated the chief inspector.

**STEWART W. BIRD AWARDED SCHOLARSHIP**  
Mr. Stewart W. Bird, a farmer's son living in Sherbrooke Township has been awarded the County Council Massey Fund Scholarship for 1931.

This was announced by the Scholarship Committee following a meeting held last week on which occasion two applications were considered. The Scholarship is awarded to a young man entering his first year at college and who meets all the requirements. Mr. Bird intends entering the Ontario Agricultural College fall and will register on September 18th.

**WHY FIND FAULT?**  
(Port Rowan News)  
There is a lot more fault found with tax bills than should be expressed. The farmers demanded good roads and got them. The County Council had the demands should be quite ready to pay for them. This year there will be more clever seen in South Walsingham than will be required to pay the taxes of the farmers who have it. Without good roads, farmers along this shore would be torn by the ax of the province. Let us be glad that we have something substantial to show for our taxes and pay the bills cheerfully.

**IF THE INDIANS** along the Caribou trail in the Fraser River valley, British Columbia, had not gone to the warpath 69 years ago, Henry G. Walters might not be a Detroit lawyer. It is a thing like that a fate that uproots entire families, drops them down in different places that sometimes decides things. If it hadn't been for those Indians, Mr. Walters might be a prospector a Canadian banker, a tiller of the soil or a Detroit lawyer. But it is one of those things that breeds conjurers.

Mr. Walters, who celebrated his 65th birthday Monday, was just two months old when a rider pulled up to the 106 Mile House bringing news of the uprising.

"When he reached our place," Mr. Walters said, "the Indians were besieging a group of government surveyors just four miles north of our Father and mother took their family which consisted of four boys, the oldest of whom was 10 and the youngest only such absolute carrying, including their gold dust as could be gotten together hurriedly, started south over the Caribou trail for New Westminster."

"We took the typical covered wagon, being the one which had been used on the journey to the mines." At New Westminster the family boarded a custom's blockade runner for San Francisco. Then followed a trip on the Overland of the Erie-Frederic railroad. The rails had been laid only the preceding year. And there were no filters or sleepers. After settling in Hamilton, Ontario, the family moved to Essex County, now Essex, in 1877.

In 1894 Mr. Walters completed his course at the University of Michigan law school. He entered the law office of Col. John Atkins.

"The morning I appeared for work in Colonel Atkinson's office he handed me the last will and testament of a noted Detroit lawyer and asked me to make 10 copies of it in long-handled copy required 44 legal size pages of closely written report. When I had finished this stupendous work, 440 pages of manuscript, I delivered it at his desk.

"Well, Walters," the Colonel said, "I suppose you know pretty well what is in the will now, don't you?" "I told him that I knew everything that was in it.

"All right," he said, "we want to see if we can break that will. Get down the statute of Uses and Trusts and see what can be done."

"The Supreme Court told us later that nothing could be done. Mr. Walters is a member of the arbitration committee of the Board of Commerce. He served as president of the Detroit Bar association for two terms. He has no hobby and is spending the summer at his place at Mackinac.
