

THE REMARKABLE ROMANCE OF AN INDUSTRIAL DICTATOR

Velvet and Steel

By PEARL BELLAIRS

She looked at him with a smile that was not altogether sincere. "You are a very nice man," she said, "but I don't think I should like to marry you."

"You can count on ROYAL YEAST CAKES for these light, tasty breads, buns and coffee cakes"

The thing to do was to evade the question if she could. "It might be uncertain about you, how to take you never know quite where you are when you are earnest," she explained. "It is reasonable to me as possible, but she little knew how disarming her quiet voice was."

"Do I believe that?" he asked, smilingly. "I was silent, and Joan, fancying that he was a little disappointed, looked about her. They were very high up and the mountain tops were outlined faintly against the blue sky; with their deep valley below filling with water. It was very quiet, and the great windmill was wearing its leather coat as she was thinking. What would she think of her believing that she had gone off willingly in the middle of his proposal? Oh, but she would be with this captor of hers as soon as she was safely out of his hands!

"I can smell darkness," she said, "and I am sure that you are a man of my type being able to recognize that I have a piece on my frock," she said.

"I like it, I'll have it," he said. "I have it," he said. "I have it," he said. "I have it," he said.

There's never any question about perfectly leavened bread when you bake with Royal Yeast Cakes. You can be sure of full leavening power no matter how long they have been on your pantry shelf. Individually wrapped, they reach you in perfect condition and keep fresh for months. Royal Yeast Cakes have been the standard of quality for over 50 years.

An Orderly Dog

Edmonton Journal - Occasionally, the Edmonton Journal, there came from our courts, announcements that are out of the ordinary but that immediately command themselves to the good sense of the community.

Some Howlers

Keats is an insect powder. Waterloo was won on the playing fields of Wellington. Socrates was poisoned by an over-dose of "logic."

What We Eat

When times are bad and purse strings are tight, Canadians turn to pork for their meat diet, but when times are better they return to beef, according to the Dominion Bureau of Statistics. During the worst of the depression year, the per capita consumption of pork ran from 88 pounds in 1931 to 74 in 1933 and 80 in 1934.

WHAT DOES YOUR HANDWRITING REVEAL?

(Editor's Note: hundreds of those who have written to me have asked me to express their pleasure in my accuracy. And he has helped many in solving their personal problems. See my invitation to you following this week's article.)

Mr. L. R. writes as follows: "I am a widow with two children, and from the West. He wishes to marry me, and although I am not a fan of his letters, he is so pleasant that I find myself drawn to him. He is a man of some means, and I have a wife for some time who has not lived with me since I got a divorce. I feel that I should not marry, because I am still young, but I naturally don't want to make a mistake. My first marriage was very happy, and my husband left me a substantial sum of money. Any help you care to give me in showing what I like will be welcome."

Would you like to have YOUR handwriting analyzed? And perhaps you would like to know the truth about your friends? Mr. St. Clair can help you. He is a personal character analyst, you must send for a copy of Mr. St. Clair's new chart, the Grapho-chart, which contains over 100 illustrations and shows you how to read character from writing. It is fascinating and very interesting. Send 12 cents for your copy of the Grapho-chart, and an additional 10c coin for each specimen you want analyzed. State birthdate in each case, and send to Geoffrey St. Clair, Room 427, 73 Adelaide St. West, Toronto, Ont. All letters are confidential and will be answered as quickly as possible.

FRIENDS OF THE CROW DENOUNCE EFFORTS FOR HIS EXTERMINATION

(From the Chicago Daily News.) The Illinois Department of Conservation is making war on crows. Its bombers boast of slaughtering 150,000 since the first of the year, and hope to kill 200,000 more by spring. When Mother Nature balances her accounts with these conservationists they may not be so cheerful.
