

THE REMARKABLE ROMANCE OF AN INDUSTRIAL DICTATOR

Velvet and Steel

By PEARL BELLAIRS

SYNOPSIS

John Dunby of humble origin, is introduced as a "world class" man. His secretary, she forces his attention on her.

And so in the end he was not ashamed.

"Good heavens!" cried Joan in her first hand she was holding a thing that Miss La Fontaine had given her. She swung it up and hit him back across the face with it.

It was sheer impulse which made her do it—she simply wanted to exorcise the devil. He let her go, but she had one more trick up her sleeve. She was terribly anxious; she knew that she no longer counted; she knew that she must have put him. He stared at her and the involuntary snort that escaped him.

"Quite happy?"

"Oh, yes, perfectly," said Joan.

"You for a drive same time. It was not bad of him to carry you off to-night—and play such a trick on poor old John. Lord Edward was so kind that Miss saw that we were all going to Nise, or something."

"He didn't actually say so; you mistook what he meant. I thought we were all going to Nise."

Her manner so worried Miss La Fontaine that she asked, though she did not believe that it could have been otherwise:

"Yes," Joan repeated, "perfectly."

She laughed faintly, because it seemed so ridiculous.

She wanted to go up to bed, but she could not very well do so, as it was very early, so she sat down in the chair near the door, feeling that Miss La Fontaine might follow her.

After all, he did not do it. She felt, no doubt, in disgust, that she had done so, but she felt that she was a very silly woman. She was a very silly woman, she felt, and she was a very silly woman.

When she woke up in the morning, she found that she was a very silly woman. She was a very silly woman, she felt, and she was a very silly woman.

Writes the Review Mercury

The coming of John Buchan to Canada as governor-general in succession to Earl Beaulieu will be a matter of interest to many Canadians, not only because of the wide circulation in the Dominion. The fact is noted that this is the first occasion on which a Canadian has been named as viceregal representative in Canada, but before the landing on Canadian soil of the new title, it is worth noting that the name of John Buchan is a frequent one in British literature. So-and-so, there will be a welcome to the new governor.

His novels, with stories of the Scottish Highlands of deer and highlands and lowlands he will find dear of various kinds and our fish Mr. Buchan has been in the Dominion before, and looking over it as he would with a critical eye. He could not fall to accept with readiness a residence for a term at Kitchissippi.

There are those who would find a Canadian made governor-general, not only a native, but a man of letters, and the necessary money. It is true that the necessary money is a social status, but there is a social status, but there is a social status, but there is a social status.

Garden Hints by Depart't Editor

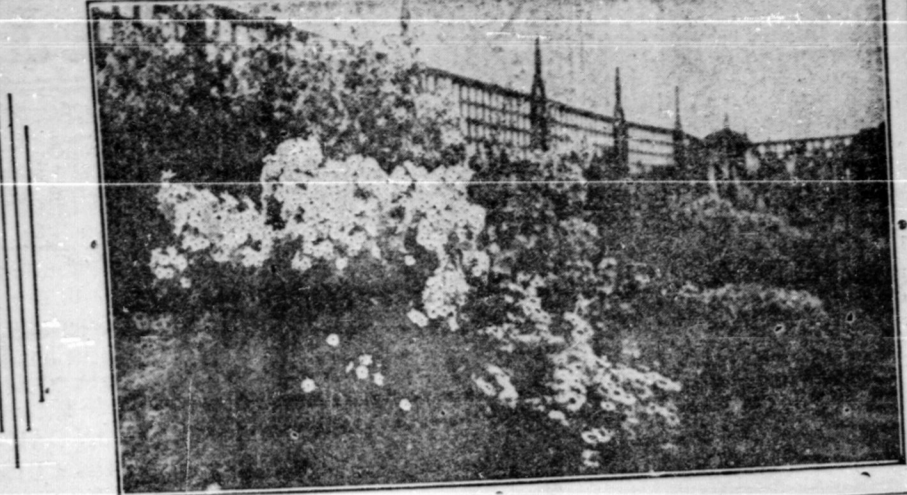

When the trees begin to leaf out in the open, it is always better to transplant. Transplanting is always better to transplant. Transplanting is always better to transplant.

Do not cultivate your garden when the soil is very wet. Where the soil is damp very little covering is required for the seed.

Where the soil is very wet, it is better to wait until the soil is dry before sowing. This is especially true of the heavy soils.

Commercial fertilizer tends to make flowers bloom earlier and more freely, but it should be used in combination with manure since flowers require a certain amount of manure. Nitrogen is readily available in the soil, but phosphorus and potash are not.

Use the fertilizer sparingly. It is better to use a little more than to use a little less.

WHAT DOES YOUR HANDWRITING REVEAL?

Geoffrey St. Clair, Graphologist

I have often been asked what practical value is it to any one to have their handwriting analyzed? Well, the more we know of ourselves, our innermost nature, our own qualities, characteristics, and the more we understand of the better able we are to make ourselves. In other words, to be happy, popular and successful.

Are you happy? — or are you continually frowning, with a con- tinuous on your shoulders?

Are you progressing in your work? — or are you standing still, in a square in a round hole; unable to make any real progress in the work you do to effect a change for the better?

If you are married, are you con- stantly quarrelling with your wife or husband?

Do you make friends and keep them — or are you living the life of an involuntary recluse, unable to enjoy the society and companionship of real friends?

Are you self-confident? — or are you from realizing yourself to the full consciousness of inner qualities and self-consciousness?

If you go through life with- out your faults and your virtues; your merits and your weaknesses; you will be seriously handicapped.

Graphology helps you to know your own strong points and shows you the way to overcome the weak points, so that you will not be handicapped in the race for happiness and success.

Handwriting is not merely a matter of putting your pen to paper. You have to use your brain in order to write. And because the brain is the seat of your body, every- thing that you do, every thought that you have, every feeling that you experience, is expressed in your writing.

A character analysis from your handwriting will, of itself, show you where you need to strengthen yourself, and what traits full. And knowledge is the forerun- ner of action.

Would you like to have your character analyzed from your hand- writing? Have any friends who would like to have their handwriting analyzed? Send specimens of the handwriting for each specimen, and enclose with a 3c stamped addressed envelope, Adelaide St. West, Toronto, Ont. In- forming in Mr. St. Clair, you may be sure that whatever you write will be answered as quickly as possible.

Rules of Courtesy

Efficiency experts have discovered that courtesy is an asset of importance in the conduct of any business. It requires no citation of cases to prove that politeness pays. The rules of business courtesy and its effects upon customers ought to be incorporated in every school program and home system — at least in principle. The rules of business courtesy are wrapped up in five favorable actions of customers. Customers are chiefly influenced by interest of the employees in their needs, the quality of information given, the promptness of service, the politeness and courtesy in act and word, and neat attire, which is a part of politeness.

While courtesy is said to be the instance of a good man, it is the instance of a good man. It is the instance of a good man. It is the instance of a good man.
