News of the Countryside

From The Record's Correspondents

PORT DOVER

A coroner's jury was held in Simcoe on Friday night to decide regarding the death of Robert Leaney of Port Dover. It was decided that two hitch-hikers from Brantford, namely George Lambert and Norman Loube were partly to blame for the accident. Peter Goodale the driver of the car which struck Robert Leaney swerved his car to the left to avoid hitting the hitch-hikers who stepped off the curb four or five feet and held out a sign board. In avoiding the hitch-hikers the car struck Mr. Leaney incurring fatal injuries. The accident happened Monday night and death came at 2 A. M. in Norfolk General Hospital on Tuesday, July 2nd.

Mrs. Roy Barker Lake Shore entertained the members of the Lake Shore Women's Institute.

Roll Call was answered by naming a beauty spot in Canada. Mrs. L. Law was in charge. Mrs. E. Chanda gave a report. Miss Norine Fletcher gave a piano solo; Miss Olive Bannister gave a reading; Miss E. Schuyler gave a vocal solo accompanied by Mrs. Powell; Jack Cunningham gave two vocal selections and Doris Kitchen and Bessie Snyder played a piano duet.

A contest, flower romance was given and Mrs. O. Fletcher won the prize. It was decided to hold the W.I. picnic on July 17th. The singing of the National Anthem closed the business of the meeting and Mrs Barker served a delightful and much appreciated tea.

The SNAPSHOT GUILD

DON'T BE EMBARRASSED

Don't let crowds Interfere with your picture taking for there are too many picture possibilities to overlook.

EVERY day we learn more about amateur photographers and, surprising as it may seem, find that many feel somewhat embarrassed taking pictures in view of the public eye. They shrink from the attention they erroneously believe they attract. To feel that way is really absurd.

That type of self-consciousness will be the cause of your missing many interesting pictures. You can rest assured there is no thought of ridicule on the part of those who may be apparently watching you snap a picture. Nine chances out of ten the spectator is envious and wishes he owned a camera or had one with him.

There are times, however, when you may want to conceal your camera—and your actions—as much as possible; not because of embarrassment but for the sake of an unusual, human interest picture.

Everywhere you go in a city, whether it is in the park where babies are perambulated by their nursemaids, or in the gloomy slums where some immigrant mother hangs out the family wash while ragged little urchins play perilously on upper balconies, you can find dramatic, story-telling pictures. As you walk through the streets and parks there are countless opportunities for snapshots that are really unusual, and such pictures breathe new life into your snapshot album.

When you come upon a good picture possibility in the form of a person or persons in action, that is the time you want to conceal your camera and intentions as much as possible, for to get the best results, your subject should not be conscious of your presence. On approaching such subjects, it is best to set your focusing scale at a distance from which you believe you will get the best results. Judge your light and properly set the diaphragm and shutter speed. When you are "all set," approach your prey quite nonchalantly and when you reach the proper distance to take the picture you are after, shoot without further delay and your unsuspecting victim will have unknowingly furnished you with good snapshot material.

This kind of amateur photography can be employed in so many places. This is especially true in the summer, for if there is any place to get informal, candid camera pictures, it is on picnics, at your local swimming pool, or the favorite old swimmin' hole, at the seashore or summer resort.

And, speaking of summer resorts, have you noticed the number of nationally known people — stage and screen stars, members of socially prominent families, and even great business leaders—who are pictured in newspapers and magazines with their cameras in action. It has really become the smart thing to own and use a camera.

So sally forth with your camera with all the abandon of a sailor strolling with one of his many sweethearts and get the kind of pictures your friends will talk about and praise.

THE CANADA YEAR BOOK 1934-1935

The publication of the 1934—35 edition of the Canada Year Book is announced by the General Statistics Branch of the Dominion Bureau of Statistics. The Canada Year Book is the official statistical annual of the country and contains a thoroughly up-to-date account of the natural resources of the Dominion and their development, the history of the country, its institutions, its demography the different branches of production, trade transportation, finance, education, etc. — in brief, a comprehensive study within the limits of a single volume of the social and economic condition of the Dominion. This new edition has been thoroughly revised throughout and includes in all its chapters the latest information available up to the date of going to press.

The 1924 — 25 Canada Year Book extends to over 1,250 pages, dealing with every phase of the national life and more especially with those susceptible of statistical measurement. Attention may be specially directed to the statistical summary of the Progress of Canada included in the introductory matter and giving a picture in figures of the remarkable progress which the country has made since the first census of the Dominion was taken in 1871, sixty-four years ago.

Attention may be called to some of the special features of the present volume. There is included in Chapter I a brief description of Standard Time and Time Zones in Canada which is of special interest to those who travel either in person, or by radio. There will be found in Chapter III a discussion of the Representation Act of 1933 and a special table showing the population as in 1931 of each of the new electoral districts which will return representatives to Parliament at the approaching general election. Probably the most extended presentation of the results of the Census of 1931 that will appear in the Year Book is to be found in Chapter IV where Religions are cross-analysed by racial origin for the first time, and several new classifications are added to the section dealing with birthplaces; the chapter closes with statistics of the areas and populations of countries of the British Empire for the years 1911, 1921, and 1931 and of the countries of the world for 1931. The Mines and Minerals Chapter, together with the details of the enormous discoveries of economic geology in Chapter I will be of interest to those who are concerned with this rapidly growing branch of our economic life. Again attention may be directed to the im provement of the introduction to the External Trade Chapter as well as to the final statistics of the Census of Distribution and Services of 1930 to which has been added a more summary treatment of retail trade based upon a 65 to 70 p.c. samples of all retail trade and covering the years 1931 to 1933. In the Labour and Wages Chapter may be noted the inclusion of tables showing both the occupational and the industrial distribution of the gainfully occupied population of the Dominion as in 1931. In the Public Finance Chapter appears for the first time, a comparative analysis of provincial revenues, expenditures, assets and liabilities on the basis agreed upon at the Dominion-Provincial Conference of 1933; additional material regarding national income is also included in this chapter. The Currency and Banking Chapter includes a description of the new Bank of Canada and a classification of bank loans by industries and of deposits by amounts. In the Miscellaneous Administration Chapter there appears a study of liquor control, liquor sales and revenues arising therefrom, and the concluding chapter lists the honours and awards made by His Majesty the King to Canadian subjects from the resumption of the granting of titles in Canada (in January, 1934 to June 1935.

The volume is illustrated by many maps and diagrams and the latest available data are everywhere included. Immigration and trade statistics for the fiscal year 1934-35 and dairying statistics, which it was not possible to include in Chapter VIII when this was being printed, will be found in the Appendices.

Owing to the urgent need for economy in the distribution of Government publications, it has become necessary to make a charge to all issuing the Year Book. Persons requiring the Year Book may obtain it from the King's Printer, Otawa, as long as the supply lasts at the price of $1.50 which covers merely the cost of paper, printing, and binding. By a special concession, ministers of religion bonafide students and school teachers may obtain copies at the nominal price of 50c each.

What a man does when he has nothing to do shows what he is.

REAL COVERAGE

The most unmitigated bragging was recently brazenly indulged in by a Kansas Newspaper, The Rooks County Record:

"Many papers brag of their coverage. We cover the County like a blanket with the Record and that's not all! The Record also covers numerous pantry shelves, hither and thither and yon. It covers pans of bread dough and milk. It covers the cracks in the window panes and the Brooder house floor. It covers the bed springs to keep the cold from creeping through the thin mattress. It covers the hen house walls and broken places in the plaster. And sometimes it covers a multitude of sins by not mentioning them."

WEED CUTTING WEEK

Week of July 8th Set Apart By Acclamation. Co-operation of All Needed in Weed Control.

According to a proclamation which has just been issued by Mr. Robin S. Kerr, Warden of the County of Haldimand, the week of July 8 has been set apart as a special Weed Cutting Week in which all citizens of the county are urged to co-operate and make every effort to destroy all weeds.

Weed control is one of the most vital agricultural problems which we have, a problem in which every person who owns a square foot of land should be intensely interested. If weeds are neglected they will soon take possession. In every municipality we have places where people are careless and weeds have been neglected. Fortunately, the percentage of such is very low. One neglected patch may polute acres the following year. There is no thing so discouraging for a person who is making an effort to control weeds as to be living near someone who does not make an attempt to do so. The careful ratepayer demands protection and is entitled to it.

Every country in the world that has developed a worthwhile agricultural practice has weeds and the majority have adopted legislation to control them. It has been found necessary to do likewise in this province. However, legislation in itself will not control a single weed. Any work done must be the result of definite human action. Co-operation, united effort and immediate action are necessary in preventing weeds from going to seed. New weeds are continually appearing and must not be permitted to increase. If your municipality is clean this is a good time to keep it clean.

Weed Inspectors have been appointed in every municipality in the province and the 1935 war on weeds is under way. Every weed that is destroyed means thousands of weed seeds destroyed. Enlist now and help destroy the enemy. Cooperate by pulling, hoeing, spraying, cutting, spudding out, plowing and cultivating to destroy weeds and by persuading someone else to do likewise.

In Haldimand County chicory is the one weed which is receiving special emphasis during 1935, and an effort should be made to control this weed. However, that does not mean that all weeds should not receive attention and while the week of July 8th is a special weed Cutting Week, every week should be a weed cutting week.

Weeds have no place in a progressive community; prevent them from going to seed. Do your share and help protect the most important industry in the province — "Agriculture."

The following is a list of Weed Inspectors in Haldimand County:

Canboro, Eugene Warren, R.R. 1, Canboro.
Cayuga, North, Lorne Mino, R.R. 4, Cayuga.
Cayuga, South, Nicholas Hoffman, R.R. 2, South Cayuga.
Dunn, Wesley Branston, R.R. 7, Dunnville.
Moulton, J. Wesley Neff, R.R. 1, Lowbanks.
Oneida, A. T. Harper, R.R. 3, Caledonia.
Rainham, John Otterman, Jr., R.R. 1, Fisherville.
Seneca, Jos. H. Martindale, York.
Sherbrooke, Elmer Pyle, Lowbanks
Walpole, Edgar Shoup, R.R. 1, Nanticoke.
Matthew Leng, R.R. 5, Hagersville
Towns:—
Caledonia, Wilber Jerome.
Cayuga, Franzel McDonald
Hagersville, Ernest Buckley.
Jarvis, Wm. Hoskins
Dunnville, John Barry.

TWO GOOD FIELD MEETINGS IN HALDIMAND

Haldimand county farmers gathered Thursday and Friday evenings to the number of twenty-five on the farms of Mr. A. J. Cowie, Caledonia, and Mr. John Bilton, Hagersville at the call of the Agricultural Representative, A. Gordon Skinner. The purpose of the meeting was to examine two of the twenty-two farm demonstration experiments that have been laid down in this county by the Ontario Agricultural College during the past five years.

In these tests co-operating farmers have had a chance to test out various fertilizers side by side, on their own farms and under their own conditions. Some of the results have been exceedingly interesting.

On ten farms different fertilizers have been tested on alfalfa, and an average gain of over 2700 lbs. per acre of alfalfa hay has been obtained. Likewise, 12 bushels per acre gain on barley and 14 bushels and hay has been greatly improved and the effect on following crops has been distinctly favorable.

First cuttings have just been taken on rates of fertilizing on alfalfa on two farm tests on the farms of Mr. Geo. Wharton of Cayuga and Mr. H. Harrop, Hagersville. A phosphate-potash fertilizer, 0-12-10, was used since extensive experiments have established the fact that nitrogen rarely pays on alfalfa. The results for first cuttings are as follows.

Yields on farm of George Wharton

Rate per acre of 0-12-10, -0- — 14,080 lbs.; 250 lbs. 15,520 lbs. gain per acre 1,440; 875 lbs. 16,480 lbs gain per acre, 2,400; 500 lbs. 17,120 lbs gain per acre 3,040.

Yields on farm of H. Harrop

Rate per acre of 0-12-10 -0- — 18,880 lbs.; 250 lbs. 19,040 lbs. gain per acre 160 lbs; 375 lbs. 20,-220 lbs. gain per acre 1,440 lbs.; 500 lbs. 21,600 lbs. gain per acre 2,720 lbs.

There will be a second cutting which immediately after the said 3rd day of August, 1935, the Executor will proceed to distribute the assets of the said deceased among the parties entitled thereto having regard only to the claim or claims of which notice shall have been then received and the said Executor will not be liable for the said assets or any part thereof to any person or persons of whose claim or claims he shall not have had notice at the time of such distribution.

Dated at Caledonia this 29th day of June, A.D., 1935.

POLICE INJURED AT SIMCOE BOUT

Called In to Quell Mild Riot at Wrestling Show

Simcoe, July 8 (Special).—A broken bone in the left hand of Provincial Constable L. L. Shipley and a badly bitten finger on the hand of County Constable William Gauld, were today revealed by the officers as having been the result of a mild riot at a professional wrestling show staged in the Mason Arena Saturday night. The fracas occurred when John Korrie, Port Colborne, issued a challenge to any one in the crowd after being disqualified in his match for a foul. A burly Belgian spectator entered the ring fully clothed and when an attempt was made to stop the impromptu bout, other spectators invaded the ring. Finally police were called and in the rumpus the two officers were injured. No charges have been laid yet.

Adlets

Adlets in this column 25 words and under 25c per insertion, 1c for each additional word.

WANTED

Shoats from 60 to 100 lbs. Also corn on the ear or shelled, apply to Kindree & Allen, Phone 51, Jarvis. 43—TF
