Canada, The Empire and The World at Large

wan is sound. There is, of course, a similar condition to that which is prevalent throughout the Dominion, but Election of Mr. Malcolm MacBeth trade is improving and prospects growing brighter. It is the farmers tario Educational Association suggests that this sturdy Canadian is worthy of some personal attention. Mr. MacBeth is one of the Bruce County old

boys who may be found all over the country—any country—and, as with the real Scots from the original Scots and the best scots from the original Scots and the best scots from the original Scots from the real Scots from the original Scot-land, generally in the high places. In the rather long ago he held high rank as a boy orator, and many a time the walls of the Walkerton High School resounded to his flery, and usually de-

resounded to his fiery, and usually denunciatory, eloquence. In those days he generally was found in opposition to any proposal; but time has exerted upon him its customary mellowing influence, and now Mr. MacBeth is ready to support worthwhile propositions.

For some years the new President taught school, and his square jaw and ample shoulders ensured peace and order in the classes. As with many teachers, he heard the call of the press; and at once secured control of the Milverton Sun. Milverton became the more and that community has resounded to his fiery, and usually de-

the Milverton Sun. Milverton became ese.—Georgetown (British Gulana)

henored him in many ways. In time he became President of the Canadian Weekly Newspaper Association; and now the Ontario Educational Association accords him similar distinction.

Thus in two of his chosen fields of ways complementary to those of the Thus, in two of his chosen fields of ways complementary to those of the activity Malcolm MacBeth has reached Motherland, they have gradually the top. And through it all the Milverton Sun continues to shine.—Toalso is England free. The Crown Col-

Spades—Q, 6

No score, rubber game. Clubs are trumps and I Z is playing the hand. A opens the king of diamonds and all follow suit. He then leads the trey of spades. How should Z play the hand so that he can make game no matter how the remaining cards are distributed?

Solution: A B:

Hearts—19, 9, 5, 2

Clubs—A, K. Q, 7

Diamonds—9, 6, 3

Spades—Q, 6

No score, rubber game. Clubs are trumps and I Z is playing the hand. A opens the king of diamonds and all follow suit. He then leads the trey of spades. How should Z play the hand so that he can make game no matter how the remaining cards are distributed?

Solution: A B:

No score, rubber game. Clubs are trumps and I Z is playing the hand. A opens the king of diamonds and all follow suit. He then leads the trey of spades. How should Z play the hand so that stream or into the lad. A problem in stripping," that is, taking out all suits except two and then throwing opponents in the lead. When this has been done, one opponent is forced to lead the remaining plain suit to his disadvantage or one of the two missing plain suits and thus allow one hand to trump and the other to discard. At trick No. 2 Z should win the trick in the lead allow club, winning in his own hand with the queen. Z should win the trick in the lead is so clubs. Ye hand with the eace of spades and lead a low club and with the queen. Z should then lead a low club and with the lead allow club and with the queen. Z should then lead allow club and with the lead allow club and with th water which he wished to divert, and she have been used in mining in various has for sixty years, being applied to a but off flooded veins, or to close that the best attacking bid about to flooded veins, or to close that the best attacking bid the abut off flooded veins, or to close that the best attacking bid the abut off flooded veins, or to close that the best attacking bid the abut off flooded veins, or to close that the best attacking bid the same only of the hand and so must be the best bid. The only ofher possible bid with this hand is one diamond an that is doubtful because of the shortness of the suit and its weakness in top incores.

That Dr. Garke proposes much wide the possible to the possible to the shortness of the suit and its weakness in the club suit, it had the weakness in the club suit, it had a breeze of a river during high water, liften weak points along the bares of a river during high water, liften a short notice. Sea dikes and thus and the weakness in the club suit, it had because of a river during high water, liften a short notice. Sea dikes and thus allow one hand to trimp and the other to discard. At trick No. 2 Z should win the trick in trick No. 2 Z should win the trick in trick No. 2 Z should win the trick in trick No. 2 Z should win the trick in trick No. 2 Z should win the trick in trick No. 2 Z should win the trick in trick No. 2 Z should win the trick in trick No. 2 Z should win the trick in trick No. 2 Z should win the trick No. 2 Z should win the trick in trick No. 2 Z should win the trick No. 2 Z should win the trick in trick No. 2 Z should win the trick No. 2 Z should win the

Suppose B wins the trick with the king of spades. He also must lead a heart and, if he originally held four hearts, Z must win two heart tricks. Size 16 requires 3% yards 35-inch gives Z a discard of a heart in one hand and a trump in the other. Therefore, Y Z must make game in clubs for it has been shown that A B can only win one diamond and one spade trick, irrespective of the distribution. mond and one spade stamps or coin (coin preferred; wrap it carefully) for each number, and

Flies and More Flies

Flies breed in places that are favorable to them. The greater the quantity of manure and filth about the premises, the greater the number of flies. Material that will supply heat and moisture for fly egg hatching and food for the young magnetic form the stables and yards as soon as possible and stack if possible at considerable distance from the buildings and pasture field. A few ounces of corax may be scattered through the manure each day, as a preventative to the development of the fly larvae.

The following is recommended as the search of the stables and the stables and the stables are easy to find, and the new crop of Ground-hoge is not yet in sight.

In reach to sleep forever. After the help into a fitter the hole, the upper end is plugged with about it plugged with and soil to keep the gas in, and to do do the worm and soil. All the district supply heat and moisture for fly egg hatching and food for the young magnet from place to place, digging new hole where ever their fancy takes them. Every Groundhog hole in the measure from the buildings and pasture field. A few ounces of corax may be scattered through the manure each day, as a preventation of the fly larvae.

Too many people think themselves when they are merely write at once for our bargain list of find, and the new crop of Ground-hoge is not yet in sight.
