Carry Aspirin tablets when you travel. Have some at home and keep some at the office. Like an efficient secretary, they will often "save the day" and spare you many uncomfortable, unproductive hours. Intraduction—The book of Genesis opens with stories of the beginnings of markind as a whole, but quickly narrows its interest to the family springing from Noah's son, Shem, of whom Abram was regarded as a lineal descendant. It treats history genealogically. When Abram is reached, the story expands to considerable length because he was regarded not only as the first patriarch of the nation, but as the ideal Israelite. His faith in God, his ready obedience to God's will, his generosity, his love of peace and his noble bearing under trying circumstances—all this fitted him to become a bright and shining light to remote generations. Springtime is embodied in this delightful sketch and is particularly appropriate and will have special appeal now when Canadian fields are again feeling the touch of the sun's warmth.
