CANADA

The Empire at Ottawa A party of Jews and Arabs went yesterday from Jerusalem. They are on their way to Ottawa. They are orange growers, from that strip of tyranny and the servitude of the Pharach. They are coming to Ottawa, to

preparations for the Ottawa Conference, this latest pilgrimage out of the from the scope of her import duties. Holy Land! Jews, and Arabs are com-ing, those ancient and modern ere-nothing ut good-will, and good-will mies, reconciled in this imaginative project of a larger trade and communication between the diverse peoples who, in greater or lesser degree, pro-

who, in greater or lesser degree, profess a common interest in the destiny
of the British Commonwealth.

President de Valera, fresh from his
alarums and excursions about the
Oath of Allegiance, is seriously considering whether he had better not
come to Ottawa himself. Merchants
of spices and cotton are coming from of spices and cotton are coming from she will be the "wall-flower" of the of spices and cotton are common for spices are common for spices and cotton are common for spices a the official delegates of Australia and New Zealand and South Africa. All roads of the Empire, all trade routes of the seven seas, lead these days to the capital of Canada, where the Ottawa runs down to the mother of Canadian waters.—Vancouver Province.

Each For All and All For Each After Lord Beaconsfield, there is one name that stands above all others.

Joseph Chamberlain. Because of his work for the Empire, we stand on the threshold of the Ottawa Conference—and because of the movement he founded wa have to-day the first practical forms. the official delegates of Australia and

He Failed in Mathematics

Much has been said by way of exposing the unsatisfactory character of written examinations as a test of scholarship and fitness for academic degrees and positions of trust. Educationists recognize that while some students have the faculty for expressing what they know on paper, others have not. It often happens that a foundary at a contact of the first practical instalment of his great policy, imperial Reciprocity. He crystallized that policy in an undyink phrase: current.—The Spectator (London).
