Yet Peter did not want to go to Professor Gambion's house for dinner. He wanted to do nothing but think—even though thinking had become a single reiterated circle. His thoughts padded on, round and round and round again, wearing ever deeper a track that led nowhere save back to its own beginning.

He believed Barbara. He believed Ellsworth. He believed Mrs. Kane. He believed Orme. Not one of those four had killed Sheila O'Shay. They were simply not the right people for it. It did not hitch en to them.

INTRODUCTION—The first twelve chapter of John's Gospel tell how Jesus worked the works of him that sent him, while it was day. He tried to make himself known to the world, but the world rejected him. 1: 11. Chapter 12 marks the point at which he turned to "his own," 13: 1. No longer are we in the atmosphere of controversy. All is now tenderness and intimacy. We are in the "Holy of Holies" of the Gospel. These wonderful chapters preserve for us the last discourses of our Lord.

To Peter's objections, Jesus replies that this is a symbolic act, the meaning of which will be made clear to him later on. v. 12ff. Peter, disciplined by life, purified, enlightened, some day will be able to exclain, "I understand now what my Master meant."

The insistence on the washing (v. 8), is John's way of saying that only through baptism can one enter the Christian fellowship.
