Canada's Fishery Wealth

Sixty different kinds of food fish and shell fish are taken in Canada's ocean and inland waters, ranging all the way from squid and alewives to sturgeon, and such mammals as seals and whale. Recently a sturgeon weighing 850 pounds was caught in the Fraser River, from which 75 lbs. of caviar was obtained, while a 25-lb. lobster was trapped off Digby.

and listen to the music of nature, and rustling of the leaves, the sighing of the wind, and the humming of the insects. His dreamy moods increased as he reached margicod, and his greatest pleasure was to walk in the fields and woods. He arose at daybreak and worked till two o'clock, and then, after his dinner, he made the circuit of the town several times, no matter what the weather was. His figure was familiar everywhere. With long unkempt hair, careless attire, and hurried gait, he went striding along, constantly humming to himself, and, when he became excited by some new idea, waving his arms about in apparently a frantic manner. He always carried a notebook with him.
