## Jarvis W. I.

(Dunnville Chronicle)

Jarvis branch of the Women's Institute met at the home of Miss A. on Wednesday afternoon, 9th.

Very interesting papers were presented by Mrs. Gowan and 'Our Unity into the Community' by Mrs. Butler. Mrs. Selbeck demonstrated the 'Separation of an Invalids' Truss' drawing on the main points to be served.

'I wish to inform you that the present shattered condition of my bank account makes it impossible for me to send you a cheque in response to your request. My present financial condition is due to the effects of Federal laws, State laws, County laws, Corporation laws, By-laws, Brother-in-laws, Mother-in-laws and Outlaws, which have been foisted upon an unfeeling public. Through an unfeeling law I have been held down, held up, walked on, sat on, flattened and squeezed, until I do not know where I am, what I am or why I am.'

The poet says 'One touch of kindness makes the whole world kin expressing what so many of us are realizing in these times of readjustment. Notice I don't say depression for we shouldn't feel depressed when we are having such a lovely winter.'

It is true prices are low, but we haven't the unemployment or very needy in our midst, as they have in some towns and cities. The Institutes in some districts are very busy sewing and caring for ch. families.

Mrs. G. H. Hunter of Brooklin compares the community activities to a wheel, the community centre to the hub, the Institute to the spokes, every locality on a community wheel with the Institute the hub means a better community in which to live. We must bind the many spokes of this community centre wheel together with a tire of unity, co-operation and natural good will.

Let us look back, say, fifty or sixty years. Our parents tell us of the apple paring bees, husking bees, quilting and sewing bees, singing societies, etc. We can just picture the good times they used to have. We can have just as good good times if we have just as good good will.

With the coming of the auto we are apt to find our amusement too far from home. Far away fields look green. We should stir up something to take our attention in our own neighborhood. I know of one community supper every winter. It draws all the neighbors together for a social evening. Some of those neighbors seldom get out to any other social event all winter. This supper is held in one of the homes. Usually a different one every winter. There isn't near the visiting or neighborly calls in the afternoon or evening that there used to be. We have the phone and do our visiting that way, but there isn't the same pleasure for either party as a real heart to heart talk, and it makes an outing for the little ones.

In this great wide-spreading country of ours it is inevitable that there should be many lonely homes where the sight of a fresh face is like manna in the wilderness. Even where there are many in the family we cannot get away from the desire to see something of our fellows. Men can often gratify this desire by going to the store or mill, and then wonder why their wives pine at home because no one comes to see them. Where age or babies prevent them from going out well themselves how gladly they do welcome any one who will break the spell of loneliness that seems to shut them out from the world. If we are always at home we are apt to be taken as much for granted as the chairs or wallpaper.

There are plenty of mothers who should be attending the Institute. There may be some who have never been asked to come. Let us look them up and make it possible for them to attend sometimes.

If we read the reports of the different Institute activities we find quite a number of very active ones. Several have built and others assisted in building new community halls for their social functions. Every community needs such a place. Young and old must have amusement now-a-days.

It is splendid amusement and a certain amount of education to get up plays and the young people enjoy it and it should be encouraged more than going to the movies and talking and the money stays at home for relief or improvements. There has been a considerable loss of a new hall by E. Rayner, that H. B. Bencht and J. C. Walker, be appointed delegates.

## Laws and Taxes

(Dunnville Chronicle)

Tax burdens are borne by others than the owners of office buildings, as may be seen from the letter below which was received by one of the members of the Building Owners' and Managers' Association of Oshawa, Ont., in response to a regular monthly rent statement sent to a tenant:

'I wish to inform you that the present shattered condition of my bank account makes it impossible for me to send you a cheque in response to your request. My present financial condition is due to the effects of Federal laws, State laws, County laws, Corporation laws, By-laws, Brother-in-laws, Mother-in-laws and Outlaws, which have been foisted upon an unfeeling public. Through an unfeeling law I have been held down, held up, walked on, sat on, flattened and squeezed, until I do not know where I am, what I am or why I am.'

The poet says 'One touch of kindness makes the whole world kin expressing what so many of us are realizing in these times of readjustment. Notice I don't say depression for we shouldn't feel depressed when we are having such a lovely winter.'

## Putting Unity Into The Community--Read at W. I.

The following paper was written and read by Mrs. E. W. Gowan at a recent meeting of the Jarvis Women's Institute.

No neighborhood can be a 'pleasant place to live in and raise a family with the people pulling in opposite directions. All localities are not like this, but some are and this question is how to bring unity to this kind. I believe we have the solution to this problem in a good live Institute. But how can the Institute help, you say?

The poet says 'One touch of kindness makes the whole world kin expressing what so many of us are realizing in these times of readjustment. Notice I don't say depression for we shouldn't feel depressed when we are having such a lovely winter.'

It is true prices are low, but we haven't the unemployment or very needy in our midst, as they have in some towns and cities. The Institutes in some districts are very busy sewing and caring for ch. families.

Mrs. G. H. ## Voice of the People

AN ANSWER TO 'DOCTORS' BILLS OF LAST WEEK'

Did you know—Last year it cost \$82.90 for gas to keep the fire apparatus warm. This same fire engine can be kept in a substantial up-to-date fireproof building, right here in the village, where it will be warm at all times, safe, and ready at all hours of the day and night; within easy reach of mechanics for repairs when needed. Big wide doors to be taken in and out, solid cement floor, and solid roof to travel on—and all this can be had for \$5 a month for the cold season. \$4 a month for the warm season—about \$53.00 all told a saving on gas alone of \$9.90.

Now let us see if this fire, and economical opportunity will be taken advantage of. Every citizen is, or should be, deeply interested in this proposition, so don't leave it to a few.

Believe, in your village, without works, is no good. INTERESTED

TRUSTEES & RATEPAYERS

The annual trustees and ratepayers meeting will soon be coming off in Toronto and, from past experience, the T. and R. has about as much to say down there as a snow ball in Hawaii. These meetings cost the taxpayers about sixty thousand dollars a year, according to the attendance. After the meet is over a pamphlet is published and sent to the various school boards telling about what went on. Banquets, some speeches or lectures, on how an average high school pupil handles English and mathematics and that matter. Why all this needless expense? Apparently the high cost of schooling must be kept up to impress the public and show why teachers with no one to keep with themselves, should be paid much more for their labors.

Suppose you had a law case in court and a lawyer to handle it. After the case over and you get a bill from the lawyer, you get a bill from your lawyer, pay it in full and think, well that's all settled. But in a few weeks you get another bill from the lawyer called a 'solicitor and client's account' this generally consists of a lot of items you thought you had already paid for and the client has to go over more shelling out.

Once every twenty years or more the legal profession get a spasmodic heaven-sent by means, that something must be done to protect the client in the matter of costs and with a great flourish of trumpets and pious faces, a meeting is called to right the matter. So far nothing appears to be done as far as costs are concerned.

Once as a school boy, when I was reading a novel and had just come to the death of the heroine, someone in the next room began to sing 'Sweet Alice; Ben Bold—I had never heard it before; It is forever linked in my memory with that deathbed scene.

That is my crying song. What is yours? PIFFLEUSS.

DIED

On Tuesday, March 15th, John Montgomery, beloved husband of Margaret Avery, late of 17 Maynard Avenue, Toronto, in his 78th year.

Funeral service at above address on Wednesday evening at 9 o'clock. Interment in Jarvis on Thursday.

FIRE AT THE HOME OF MR. CHARLES BROWN

About four p.m. on Thursday last fire broke out in the kitchen partition of the Chas. Brown home at about 1-2 mile north of Jarvis. About one hour previous to the outbreak Mr. Brown had been thawing out the water pipes with a torch and it is thought that a spark had ignited in the partition causing the blaze.

The partition was broken in the room above and quite a quantity of water was used before the blaze was extinguished, the water doing really more damage than the fire. The Jarvis Fire Dept. was called, however the blaze was extinguished before their arrival.
