Lightening the Load

Birmingham Weekly Post (Cons.):

If trade and industry are to take full advantage of the benefits offered by the Government's new tariff policy, income tax must be reduced, and for tunately we have in Mr. Chamberlain man so well acquainted with the economic problems with which industry of Great Britain is struggling as to give substantial grounds for the belief that he will do everything in his power to help it to start the new financial year with some lightening of the load of taxation.

meet it.

"Then Orme unexpectedly met it for me. The threat of railroading him to the asylum set him wild. It was her contempt more than her ruthlessness that made him see red. She was standing up, looking at me, presenting her ultimatum. Suddenly Orme seized the metal elephant from the desk and struck her with all his force on the point of her chin—a perfect uppercut. She fell backwards, striking her head against the corner of the desk. He stood looking at her for a moment.

The doctor paused and lighted a cigar. The match in his hand was trembling.

"You see?" He shrugged his massive shoulders. "But that's not your story. That, if you please, is the part you will leave out when you write it. It begins with the day I found Orme on the doorstep. That part is quite true.

wasn't what she wanted. She knew that if Ellsworth were subjected to the publicity of a divorce, her hold on him would be loosened. He would never re-marry her. And she wanted his millions. She was approaching forty, you know. She was through with adventure, and wanted security. She told me that I would have to get Orne out of her way—if necessary, by having him committed to an asylum.

"Yes, and teet, I will make I clear."

"You remember that I have never denied my previous acquaintance with Sheila O'Shay, in the days when she was on the stage. That was a number of years ago—before I had learned that the world cannot bear to face honesty, that its pretty words must be taken with mock seriousness.

"Sheila had a roommate then—ad dancer just rising to fame. Her name was quickly forgotten—you would not remember it. I have never pretended that my passing attachment to her was more than—what it was. I certainly could not afford to have my name linked with her; a doctor must avoid scandal.

"When she lost her job because she spoing to have a baby and could no longer dance, it was strictly her own business. But she left a letter behind her for Sheila, telling the whole story.

"Of course Sheila had kept that letter. She would! She was the kind of of fool that keeps everything. But not she with with the remembered when all this has dropped into the Bimbo of the limbo of fool that keeps everything. "T've killed her,' he said. "I bent over her, and when I looked up he was gone.

"She was not dead, only stunned, but there was the answer to my probm. I could finish the job, and renove the danger of Sheila permanhe body. In case Orme were found and connected with the case, he would eve that he was the murderer. He rould either think that he himself ad disposed of the body in a daze or at I had tried to protect him. Either ay, he insured my own safety. If coessary I could get him off on a plea that I had tried to protect him. Either way, he insured my own safety. If necessary I could get him off on a plea of insanity.

"So I put Sheila out of my way. I Tara Birrell captured London aw to it that the rollice should suggest that I search her boudoir, I found at Hollywood. For once in my life I had met a person like mystelf, one who let nothing stand in the way of what he wanted.

"She threatened me with exposure I didn't dispose of Orme. And I new what the silly world would think I that story. My carefully construct dmask would slip with a vengeance. And, once started on the track, it would find other incidents of the past to dig up. No, I couldn't afford to let Sheila O'Shay keep that weapon in I this has dropped into the limbo of have it your way, Barbara."

The newly-appointed pastor of a Negro church faced a packed audience when he rose to deliver his maiden sermon on the burning question: "Is there a hell?" "Bredren," he said, "de Lord made de world round like a ball." "Amen," agreed the congregation. "And de Lord made two axles for de world to go round on, and He put one axle at de North Pole and de udder axle at de South Pole." "Amen," cried the congregation. "And de Lord put a lot of oil and grease in de centre of de world to keep de axles well greased and oiled." "Amen," said the congregation. "And then a lot of sinners dig wells in America, in Mexico, in Russia, and in Persia, and steal de Lord's oil and grease. And some day dey will have all de Lord's oil and grease, and dem axles is gonna git hot. And den, dat will be hell, bredren. dat will be hell!"

The talkative old man was deliverng quite a lecture on speedy travel to he young man with whom he shared a compartment. "Yes, we travel fast these days," he said. "But have you ever thought of the flight of time-of the fleeting hours of youth, the golden days that swiftly pass away? conflict, such is the Christians Letting. What difference does religious make in a man's life? For one thing, it can keep him cool and brave when others are faltering, enable him to live through life's hazards and confusions with a bigness and a courage which are the wonder of those who have not the serret. "Fear not," he says te all, "I am with you."

The essential thing about the Resurrection is the continued life and presence of Jesus Christ. Had there not been something more than a bodily appearance, nothing much would have happened. It is the "something more" that has made all the difference. The thing that matters is not "how" the still living Lord made himself known to a few people nineteen hundred the still living that that ince his death on to a few people nineteen hundred years ago, but that, since his death on Calvary, he has been touching mea with the same quickening and renewing power that he always had. --- -- reitad bi
