

Local News

The Walpole Township Council will meet on Saturday of this week for the dispatch of business.

Mr. and Mrs. Ed. Rodgers, and son Walter, of Chippawa, spent Sunday last with friends in the Village.

Mr. George Leedham, Game Warden of Port Rowan, was in the Village on Sunday last.

Dr. and Mrs. O. J. Newell, of Hamilton, were in the Village on Sunday last.

Mr. J. J. Parsons, Township Clerk of Walpole, spent Friday last in Toronto.

Mr. Russell More, of the Record staff, spent the latter part of last week in Toronto.

Master James Newell, of Hamilton spent over the week-end with his grandmother, Mrs. E. F. Jones.

We are pleased to report Mr. Edward Jones who is at present staying with his daughter, Mrs. Dr. Newell of Hamilton, is improving nicely.

A number from here are leaving this week for the deer hunting ground along the French River, in the Parry Sound District.

Mr. and Mrs. A. L. Belbeck spent Sunday with the former's brother, Mr. and Mrs. Alvin Belbeck, at Port Dover.

Mr. James Pollock, of St. Thomas, is at present residing at the C.N.R. depot, while N. J. Rider is enjoying his usual hunt.

Mr. R. E. Hobson, K. C. and Miss Horan, R.N., of Hamilton, were Sunday visitors with Mr. and Mrs. S. R. Leatherdale.

Messrs. La Marshall, E. T. Carter and Laird Miller, left Sunday morning for a week deer hunting in the wilds of Hastings County.

Mr. J. S. Burwash, Mr. H. Penick, Mr. F. Ross and Mrs. Orvil Dell, attended the Niagara Biscuits and Confectionery meeting on Thursday of last week at York.

Mr. and Mrs. Cliff Leatherdale, of Renfrew, were Sunday visitors at the home of Mr. and Mrs. S. R. Leatherdale.

It has been reported that numerous hunters from the City of Hamilton and adjacent towns, have been taking advantage of the excellent hunting in the game reserves south of the Village. Should any of these be caught with out-of-season game, it will be just too bad. Kindly take warning.

Youthful Strength

Dr. Magna, Hirschfeld, the world-known authority on Sexology and Director of the Institute for Sexual Science of Berlin, Germany, created

TITUS-PEARLS

to help the millions of men and women who have lost or are losing their vital physical power. In his 25 years of practice and research, however, he realized that the weakening of man's glands was responsible for other troubles: High blood pressure, hardening of the arteries, physical exhaustion after work or exercise, dizziness, depression, neurasthenia, etc.

All these troubles can be removed with Titus-Pearls. Numerous cases were treated by Dr. Hirschfeld in his Berlin Institute. L. S. (State Official; 60 years old, married) complained of physical exhaustion, dizziness and tremors. Was easily tired. Mental powers dull and slow moving. Physical powers had been incomplete for previous 5 years. Blood pressure too high. Given 2 Titus-Pearls 3 times a day 2 weeks later the medical report on this man was: General health better, more vigorous, more active, and turning of power. Treatment continued and 2 weeks later L. S. reported again, this time to say that all weariness, and exhaustion had gone; he felt fresh and buoyant. His blood pressure had fallen and at 60 years of age he had gained the physical power and virility that he had known in the prime of his life! In 2 weeks time you will be aware of the new, virile force within you. Send \$5.00 (cash, registered or money order) for 2 weeks' treatment. Write for booklet. C.O.D. Orders accepted.

To avoid mistakes please fill out the following coupon:

TUTONIA IMPORT & EXPORT SERVICE CO., DPT. 211 Fourth Avenue, New York City, N.Y.

My name is.....

My address is.....City.....

Mr. and Mrs. Fred Clinebaugh and Mr. and Mrs. Peter Storm of Oriskany Beach, spent Monday with Mr. and Mrs. W. Duxbury.

Miss Willa McMurphy, of Hamilton spent over Sunday at the home of her parents, Mr. and Mrs. William McMurphy in the Village.

Miss Dorothy Hudson, Mr. Hector Wilson, Miss Mabel Ecker, and Mr. Earl Thompson, of Niagara Falls visited with Mr. and Mrs. L. M. Porter over the week-end.

Messrs. Clarence and Robert Smith, Harold A. Miller and Robert Lynch, left last week on the annual hunting trip. In another year or two they should be able to find the hunting grounds.

Mrs. Doc. Parkinson, District Secretary, and Mrs. Hannah Lumley, of the Varsity Women's Institute, and Miss Mabel Whitwell, of the Jarvis Branch, are this week attending the annual Convention of the Hamilton Area, which is being held in the Royal Connaught Hotel, Hamilton.

Friday Nov. 11th, has been set apart by the Government of Canada as Remembrance Day and a legal holiday. This is a day in which every citizen may fittingly observe the cessation of hostilities and the signing of the Armistice, bringing to a close that four long years of bloody combat between the nations of the world.

LAURENTIAN SKI TRAILS

While practically all Canadian territory offers the winter visitor a large variety of outdoor and indoor sports from December till March, there is no district where skiing is more enjoyable and indulged in more enthusiastically than the Laurentian Mountains district in the province of Quebec.

A little more than an hour's run from Montreal, often by "Ski Specials," situated over the ski-runners and ski-jumpers as well as for those who desire less strenuous exercise. Ski-jumpers of international repute who have had the delectable experience of skiing in different parts of the Laurentians declare it one of the greatest fields for the skier in Canada and comparable in scenic grandeur and attractiveness to those of the Swiss Alps. Then too, the day and overnight accommodation which is available in practically all towns and villages in the Laurentians is an added attraction for visitors to these regions.

There are good wholesome meals and warm comfortable rooms at moderate rates at hotels, clubs and lodges. At some of the skiing centres visitors may rent or purchase skis and all wearing apparel necessary for outdoor winter sports.

While at times throughout the winter it may be possible and convenient to tour the territory over motor car, they are often owing to excessive snow falls, difficult to pass for automobiles. Frequent train service from Montreal and other parts of the province to the Laurentians is the quickest and safest method of travel during the ski season.

MINERAL MATTER FOR FALL PIGS

(Experimental Farm Note)

If properly fed a young pig will increase its weight one hundred times in six months, or from about two pounds at birth to about two hundred pounds at six months old.

To produce this very rapid growth all the necessary elements, including minerals, must be provided. If minerals are lacking in the ration, the pigs become unthrifty in condition, and growth is much slower.

Spring pigs secure the necessary minerals largely from pastures and from eating the freshly rooted soil. Minerals from these sources are not available for all litters, which are fed mainly in dry lots and pens, and where a mineral ration should be provided.

The minerals found in the ordinary home-grown hog feeds (oats and barley) are not sufficient to meet the needs of the rapidly growing hog and when these elements are lacking growth is immediately retarded. The mineral deficiency in a ration can be remedied, however, by feeding supplementary mineral mixtures.

A simple mineral mixture which has been used successfully for a number of years at the Dominion Experimental Station, Lacombe, Alberta, consists of 75 pounds of slack coal, 20 pounds of salt, 8 pounds of activated lime or ground limestone, and one pound of sulphur. The mixture is fed in boxes, or in separate compartments of the self-feeder to which the pigs have free access.

Feeding test, conducted at Lacombe, indicate clearly that when pigs get no dairy by-products, tankage, fish meal, or green feed, a mineral supplement should be fed furnishing lime and salt.

An experiment has been conducted over a period of two years to compare the rate and economy of gain of fall pigs receiving a ration of oats and barley only, with fall pigs allowed free access to the mineral mixture above referred to, in addition to this grain. Both lots were self-fed the mineral mixture was available to the one lot from a separate compartment of the self-feeder. The use of the mineral mixture increased the gain, on the average, by 22 per cent, and reduced the cost of gains by 34 per cent. In these experiments the pigs fed grain alone made, on the average, a daily gain of only 0.83 of a pound while those fed the mineral mixture in addition, made a daily gain of 0.96 of a pound. The cost of putting on 100 pounds live weight was reduced from \$4.50 to \$3.01.

Feeding minerals to fall litter is not expensive and frequently makes the difference between profit and loss.

A VISIT TO PARADISE

There is no necessity to await the ferry of the grim reaper over the river Elys to visit paradise, for the province of Nova Scotia, Canada, amongst its many attractions for the tourist, has the beautiful old Acadian village of Paradise Terrestrial, "an earthly paradise," at the junction of the Paradise river and the Annapolis river. During the period of the Acadian settlement, the village was maintained through the miles of intervening forests by canoe. The route followed the Annapolis river to its head on the Aylesford plains, thence a carry of four miles across a level country to the upper reaches of the Cornwallis river, flowing into the Minas basin. Paradise may now be reached by train or motor car, for this beautiful village is on Highway Route 1 from Yarmouth to Halifax, being about midway of these two points.

Eight miles due south of the railway station is Paradise lake at an elevation of 700 feet above mean sea level. From this height the river drops down to pass through the village and join the Annapolis. The pools of the Paradise are of interest to the angler, for there salmon live.

It is impossible for anyone to do this for himself. Too often the cancer case comes to his doctor only after he has wasted valuable time treating himself for what he thought was "indigestion." The advanced case of tuberculosis frequently tells of treating himself for months for the "cold" he could not "shake off."

It is of course true that many people treat themselves and apparently suffer no ill effects. The point is that if they required treatment—which many of them did not—they were taking a serious risk. That these individuals escaped ill effects does not alter the fact that they have allowed disease to go on to an advanced or incurable stage while they have frittered their time and their money away trying to treat themselves.

Treatment has the most to offer when disease is in its earliest stages. It is then that it is most difficult to make a diagnosis, and, unfortunately, it is the time when self-treatment is indulged in. Early adequate treatment should be secured to prevent the occurrence of the serious conditions which grow out of self-treatment.

Questions concerning Health, addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered personally by letter.
