The Aztec Mystery

BY MURRAY LEINSTER

the over wagons with their subcleams from his negers.

(To be continued.)

(To be cont

There was a narrow, knifelike crack in the rocky wall before them, the entrance way into the circular sink that was Garcia's stronghold. From this, n.w, came twin puffs of smoke. A bullet whined over Sonny's head an another zipped through his blanket roll according to the smooth of and another zipped through his blauket roll across the back of his saddle.

"Another bad caic," said Sonny
quietly. "I was hopin' maybe to surthere. Garcia's men were taking adthere. Garcia's men were taking adthere. Garcia's men were taking adthere. Garcia's men were taking adprise his guards at that gate. Now I vartage of the boulders and were

nice. Those Mex's built them a kinda breastwork outer boulders. Yuh have to look close to see it ain't natural. But there's chinks in it to shoot out of, an' there ain't a chance even to make a bullet bounce on 'em."

Yells made him wriggle back to look. Janet was gazing white faced at the sight at the lead of the canyon, or Garcia's gang, fully twenty-five stong, was swinging into the canyon, and intent upon helping to annihilate another party. Each man seized upon the slightest exposure of an adversary as a chance for a shot. And

wormed his way to this new spot to get a clear shot upon the unsen marksman from the rear. He saw the man — Gleason — watching a spot across the canyon with his rifle trained, his whole pose that of a cat, w. tching a mouse hole, ready to fire on the instant of the other's appearance. The Mexican, grinning savagely, drew a bead.

And a bullet came ripping out of Lowhere, from Sonny's gun, and the Mexican did not fire. He lay instead in a sagging heap, his weapon trailing more concentrated amounts it may have a supplied to the constituent of coal smoke that menaces health and corrodes buildings. Even in diluted quantities, sulphur dioxide in the air will corrode steel and other metal and eat away marble, brick and mortar. In more concentrated amounts it may
