Stock invades Hollywood
Speaking of courage, a real old-fashioned stock company has crept into Hollywood. Something of a feat, in view of the fact that not a single other legitimate production graces the downtown theatres. It is a genuine relic from the past, even to the antediluvian heroine with the rural accent.

The instrument used, said Professor Burbidge, consists of two loop acrials which intercept the storm signates them to a special instrument where they are made to focus a beam of light on a screen. The direction of the beam's movement indicates the course, and intensity of the static disturbances.

To a Pessimist

If conditions were as hopeless as the pessimists sometimes paint them, we should still have our honer; and that could not be taken from us. If it were true that the battle is lost, we should have the great consolation of dying with faces toward the focus and with scorn of fear. The pessimist of the proper varieties of trees necessary to ensure proper pollination and consequent fruit production. From the central Experimental Farm at Ottawa that could not be taken from us. Death in the Dark

Electrical News, a trade journal

erving the electrical industry, bas aunched a campaign for better high-

way lighting. Campaigns are not un-usual in these days of business depres-

sion. But in this particular instance

the journal in question advances facts

and figures which are well worthy of

public attention. In presenting an im-

argues that lack of highway lighting

is a chief cause of motor accidents and automobile killings.

"The main outstanding conclusion," says the paper, "is that, although a

smaller percentage of automobiles travel at night, more than 40 per cent. of accidents occur then. For the two-year period ending August, 1932, there

tario. Of that number 10,067 occurred

night. Of these 923 were fatal, 47 pe ent. of which occurred after dark.

Creamery on Cash Basis in Far North

Victoria. - North of the 53rd parallel opportunity does not even have to knock it is sought. Word received here says provincial inter ests are installing creamery machin-ery in a plant with a capacity of 200,000 pounds to operate on a strictly cash basis. Farmers of the area will take the milk and cream to the plant and will be paid in cash for it. A flour mill was installed last year in the Fort St. John district on a co-operative basis to handle the farmers' grain without the long haul out to existing mills and the return journey to the area where the flour is used.

British Trade Figures

London.-The following are the Board of Trade figures for the month of December: Total imports, £60, 630,000; exports of British products £32,440,000; re-exports, £4,130,000; total exports, £36,570,000; excess of imports, £24,060,000.
