Want No Revolution.

there is any sign of a feromany the United States. He reports now, in the American Spectator, that there is not. Out of his various observations Mr. Anderson has evolved a "rather profound truth about the American people. They are not thinking politically because they are still imbued with the "log cabin to White House" idea. They still like to think of the United States as the land of unlimited opportunity, and herefore they are unwilling to countenance restriction of that opportunity,—Calgary Albertan.
