What's Wrong Puzzle

There are from fifteen to twenty mistakes in each of the cartoons which will appear weekly on this page. See if you can find them and then compare with the which will be published next week.

Figure on sign has button missing from coat. Boy has no right hand. Boy has collar and the backward. Policeman has monkey wrench. Pollock from chimney going in two directions. Bird eating candy. Posting of signs prohibited. Boy has 50 lb. weight in hand.

Carbon Monoxide Toll in Ontario 24 Deaths Toronto.—Carbon monoxide gas took a toll of 24 lives in Ontario during 1932 and caused 29 serious illnesses, the Ontario Safety League revealed in its annual report. In 1931, no deaths or serious illnesses resulted from inhalation of the gas. Total accidental deaths in 1932 in Ontario were 1,665. In 1931, 1,757.

Fair Year For Print Nineteen hundred thirty-two took a lighter toll in the publishing world than in most other fields. Forty-seven daily newspapers disappeared out of a total of 2,415 in the United States and Canada, almost exactly 2 per cent.

Smelt Catch Gained On Atlantic Coast Atlantic coast smelt fisheries did well in 1932, so far as size of catch was concerned. All told, the sea fishermen's smelt landings amounted nearly to 32,900 hundred weights—nearly a 20 per cent increase over the figures of 1931 and 57,600 hundred weights in 1930. In each year there were also substantial catches from the inland fisheries of Quebec.

Acid Finishes Electroplating The latest of electroplating methods being used in France which injects hydrofluoric acid into the electrolyte solution, has been reported by the French Ministry of Commerce. The process is said to be a considerable improvement on the ordinary method of electroplating.

Prince Michael to Study With "Best" Students Bucharest.—Little Crown Prince Michael, Roumania's former and future King, no longer will have to study all by himself. He is to be with schoolmates of his own age. The best pupils in the fifth grade of each of the principal Bucharest primary schools will study with the Crown Prince.

For COLDS I always use BABY'S OWN TABLETS to break up my baby's colds." writes Mrs. Wilbert Colquhoun, Sturbridge, Mass. "I have used them many times and they are just what I need when my baby has a cold. They are so gentle and so effective that I can give them to my baby with the greatest confidence. They are the only cold remedy I know of that is so safe and so effective."

ASPIRIN TRADE-MARK REG. IN CANADA

ON HIS BACK FOR 12 WEEKS Then Active for 10 Years

Rheumatism Beaten Again "Time and time again we have seen it proved beyond doubt that rheumatism simply cannot resist the regular 'little daily dose' of Kruschen. This is a case that has just come to our notice. "Some years ago now, I was taken ill with muscular rheumatism, and was confined to my bed for 12 weeks. My daughter brought a bottle of Kruschen Salts, and I took a dose every morning. I found relief and finally recovered by persevering. From that day, which is 10 years and 8 months ago, I have never missed one dose. I now take one dose every day. I feel like a new man. I can do all the work I wish to do. I have never felt any signs of rheumatism since, recommending Kruschen whenever people speak about stiffness or pains in the joints." J. N. "Oh, just the Old Man," replied the pilot. "Nobody ever calls him by any other name. Nobody knows anything about him."

FREE TRIAL OFFER OF KRUSCHEN Try Kruschen now at our expense. We have distributed a great many special "GIANT" packages which make it easy for you to prove our claims for yourself. Ask your dealer for a trial package, or write to us for one. This consists of one regular bottle, together with a special 2-ounce bottle for a one-week trial. Open the trial bottle, put it upon the lips. . . Pressing her red mouth kissed him twice. Charley was surprised. He had never seen her so close. He had never seen her so close. He had never seen her so close. He had never seen her so close.

Off Colour? How is your Liver? Wake up your Liver Without Calomel. Your liver is a very small organ, but it is one of the most important in your body. It is the only organ that is constantly at work. It is the only organ that is constantly at work. It is the only organ that is constantly at work.

Racking Coughs in Old Age. Checked by SCOTT'S EMULSION of Norwegian Cod Liver Oil. Builds Resistance Easy to Digest.

Nervous Women. Take Lydia E. Pinkham's Vegetable Compound. "I am so nervous it seems as though I should faint. My nerves are all so shaky. I can't sleep. I can't eat. I can't do anything. I have tried everything. I have tried everything. I have tried everything. I have tried everything."

Russia Charts Course Across Top of World. Moscow.—A regular ocean route across the top of the world from the White Sea to the Pacific is planned by the Soviet Government. The project sprang from the success of the ice breaker Sibirsk in negotiating this passage through the Arctic last Summer. Professor Otto Schmidt, who commanded the Sibirsk and who, with his crew, was decorated with the Order of the Red Banner, has been named head of a special agency to chart the route and plan safeguards for navigators. This commission will supervise erection of weather and radio stations on the coast and on some of the islands en route to keep ships informed of ice and storm conditions. The new route roughly would skirt Nova Zemba, Ohang, Taimyr Peninsula, Cape Cheluskina, the Likhov Islands and the East Siberian Sea.
