eighborliness Revived.

Educational Economies. In 35 States of the U.S.A. the teaching staffs have been reduced to the point where classes are too large to be taught properly. Econo-mies are essential these days, but those thus cited are radical to the point of unsoundness. The debts created by this generation will have to be carried by the boys and girls to be carried by the boys and girls of today when they attain years of responsibility. It would be wrong to deprive them of the training es-to the tasks thus imposed The Ass to deprive them of the training es-sential to the tasks thus imposed upon them.—Toronto Mail and Em-

Gardens For the Unemployed. It is reported that the city has al-ready placed two thousand lots at the disposal of families who have the disposal of families who have the disposal of satury this is isked for them. As a start, this is a great success, and there is good.

Mary Andeson, director of the work men's Bureau of the Department of Labor at Washington, regarding wo men and their work outside the home. The total number of women workers in the United States today is in excess of eleven millions, which shows an increase of twenty-six per cent. in ten years. Miss Anderson explains this as due mainly to the transplanting of industries from the and standards of living, the neces-sity that has arisen for women to augment the family income, and the development of labor-saving devices for the home. **British Shipbuilding British Shipbuilding** The conditions of British shipyards now contrast favorably with those of the other shipbuilding countries. Depression in foreign shipbuilding has lagged behind British, but at the end of last month the tonnage under tonstruction abroad had shrunk to a point at which it was smaller for a century, and during last quarter of a century, and during last quarter of a century, and during last quarter of a century and during last quarter into was almost complete; not a

Cornwall .- Re-opening of world mar-Cornwall.—Re-opening of world mar-kets to Canadian wheat this year was predicted by Hon H. H. Stevens, Minis-ter of Trade and Commerce, in an ad-ter of Trade and Commerce, in an ad-ter of Trade and Commerce, in an ad-broadcasting in Canada, which been approved by the Cahinet. rade at their annual banquet. Mr. Stevens gave his listeners a Mr. Stevens gave his instead world mprehensive review of the world heat situation, and showed that Can-heat situation, and showed that Can-hot go into effect at once will do a

Mr. Stevens gave his inscription of a will command the export field in the united States, one-third of the trop has been destroyed or abandoned and the remaining two-thirds will be a short erop. For this reason it is doubt ful if the United States would enter the export field this autumn. The Argentine, which has had an abnormal carry-over in the past few years, had a fair crop during the past Winter, but only one-third was good wheat. The carry-over in the Argent ine will be normal but the quality inferior. Australia has opened up new mark kets for her wheat in the Orient, he said, and in the past two years at least two-thirds of her export surplus had been sold in the East. Mr. Stevens felt it was doubtful if Russia would enter the world wheat market this year. "Summing up the situation in the exporting countries, we find that con-ditions are practically back tor mor-mad," Mr. Stevens declared. "The bulk of the wheat surplus is in Can-da, and we will hare virtual com-mand of the wheat market this year. There is certainly a brightening on the horizon for this country." The speaker deplored the fact that so many Canadian business men stin for that they should do their import-ing and exporting business through New York. He pointed out that, by ealing through Canadian houses, ther might increase employment and, in
