VARENCY LITERARY SOCIETY MEETING

"In the Beginning God" In the Twentieth Century Gold. The old era of time has brought many changes; by adding an "I" to God, we produce the word "gold"; by taking away "an" from golden, we no longer have the much predicted golden age of the Twentieth Century but the golden age that today is managed by the worshippers of gold.

"DUCK SOUP"

This time the action takes place in a mythical kingdom. The wealthiest woman of the town likes Groucho and she insists that Groucho and she should be married, otherwise she threatens them all to resign. Louis Calhern, an ambassador from a neighboring country, is out to marry the wealthy woman, and thus take over her fortune and her country.

Thanks to the unprecedented winter conditions this year, skiing in the Laurentians, Mecca of sports-lovers, led to the north of Montreal.

great national crusade to train and enlighten rural people to their responsibilities, can we hope to effect permanent betterment.

"Canadian youth which represents over 60% of our people is facing a disorderly, disorganized world. A world where people are suffering in the midst of abundance. A world preparing to add the blood of its young men on the altar of greed and glory"

The speaker, said the New Canada Movement offers an unbiased opportunity for study. Its growth has been phenomenal. In less than four months more than one half of Ontario's rural communities have been stormed and over nine thousand have joined. Plans have been laid to storm Quebec and the Western Provinces in the early fall.

"We the sponsors, look on the Movement as more than a mere study of economic problems. It is the symbol of a new spirit of youth, a craving for wider, broader, richer and finer life economically, morally, mentally and physically."

Miss Ida Parkison, Donald Kin-dree and Bruce Miller, were elected a unit of the movement.
