The SNAPSHOT GUILD

A "candid camera" snapshot, replete with the troublous atmosphere of an unhappy

moment. It tells the whole story.

Some magazines and newspapers the sort of thing you'll never find in an ordinary posed photograph.

camera" pictures, so called because they portray the great and near-great in unguarded moments and fleeting opportunity. Some day,

oses.

Many "candid camera" shots have when you have your camera out for some shots around the house, your been made at banquets, receptions, pipe smoker is quite likely to come conferences and other such affairs. out on the porch to watch you. Ma-

They show notables being thor-oughly human, unaware of the pres-light, focus your camera for the dis-

Naturally such pictures have a lot of appeal. For they show people as they really are eating, talking,

These candid snapshots are usu- And you will have a "candid cam-

ally made with very small cameras, equipped with exceptionally fast lenses and film. Such cameras do not need brilliant light, and they can be handled so casually that they do not become conspicuous.

A whole section of your album may be very well devoted to such pictures. Certainly they are interesting; more than likely they'll be amusing, too.

But you don't need any such camera to make your own "candid camera" snapshots. Of course, you will not be able to shoot under ordinary room lighting, under ordinary

room lighting—unless your camera has an f.3.5 lens, or faster—but you will find ample opportunity in places where the light in better that the stuff; you should know it, anyway.

Fast film, a clean lens working at places where the light in better that the stuff is a watchful eye

Places where the light is better.

For example, do you have a picture of Dad, or Uncle, or Brother lighting his pipe? Nothing could be more characteristic — and yet it's

Fast nim, a clean lens work it is widest opening, a watchful eye and quiet, unobtrusive camera work—these are the only essentials for many "candid" snapshots.

JOHN VAN GUILDER.
