Trafalgar Long Lac Mines

Brunswick were fairly good and steadily improving.

Negoti of the government wheat operations claims that there is a heavy selling in the market when the farmers are delivering their wheat. When the weather broke and deliveries at courty elevators dropped off there was several times as much selling as necessary to hedge the deliveries. An investigation into the operations of the market was suggested. This is dear zone where coarse visible gold occurs.

Mr. Farrell's recent field work has discovered two mineralzed quartz veins that have every physical appearance of containing gold values. Samples have been taken and assay results are pending. Several former vein discoveries have been tenched of the market was suggested. This is dear zone where coarse visible gold pany's property in the Long Lac Section of Western Ontario, has reported the discovery of two new showings during the last few days. Panning of both these showings has shown gold to be present in fine particles and samples are being prepared for shipment for assay. The company holds some some 960 acres adjoining Big Long potato crop cannot be absorbed in Canadian grow-

An investigation into the operations of the market was suggested. This was followed by a heavy selling movement, apparently of a local nature, which sent the price down 6 cents in two days and the government agency had to absorb the wheat to prevent a price collapse. But the lower price began to bring heavy export orders in the collapse. But the lower price distance for the first six months of Mines adjacent to the East boundary and the government agration of its continuing a considerable distance further. The Tellaurum Mines adjacent to the East boundary all first six months of Mines adjacent to the East boundary all first six months of Jersey rangs third among all first six months of Jersey rangs third among all first six months of Jersey rangs third among all first six months of Jersey rangs third among all first six months of Jersey rangs third among all first six months of Jersey rangs third among all first six months of Jersey rangs third among all first six months of Jersey rangs third among all first six months of Jersey rangs third among all first six months of Jersey rangs third among all first six months of Jersey rangs third among all first six months of Jersey rangs third among all six more first continuing a considerable to the East boundary six more seen then cheep the market was suggested. This was followed by a heavy selling movement and enlarged for several hundred Lac Mines on the west.
