THE PROPER CARE OF YOUR AUTOMOBILE Two Methods of Polishing

IT has been told how the color and, ened and wrung "dry." The wax

IT has been told how the color and lustre of your automobile can be restored by the use of a properly formulated poilsh. There are two accepted methods of polishing, the one by using a combination cleaner and polish of the liquid type, and the other by using a cleaner and wax.

While the use of the liquid polish is less work, and will restore the lustre to your car in one operation, it doesn't last long and won't prevent further weathering.
The second method involves two operations, and while harder work, will preserve the finish for months. The traffic film must first be cleaned off with a mild abrasive polish or cleaner. When the finish is thoroughly dry and clean, the polishing wax is applied with a ball of soft cloth which has been damploss the control of t
