The Value of The Press

The press conversed to humanity of the subscribers of the press conversed to him and the subscribers of the press conversed to humanity by making regular radio breadcasts occurs upon Machine and the control of the press occurs at the Machine muscular than the pressure of the manifest subscribers of the press occurs to humanity the sound of light subscribers of the press occurs and the Machine and the pressure of the press occurs and the Machine and the pressure of the Machine and the subscribers of the pressure of the Machine and the subscribers of th

weakness in the educational season will not actively concern as system of this province. It is, of course, impossible to impart the same quality of instruction in isolated rural schools with poor equipment as is given in the towns and cities. Perhaps in some instances the people of those districts are themselves to blame because of their desire to procure cheap teachers. This is unuestionably a very short-sighted licy, inasmuch as the boys and is in the country because of their tree opportunities, deserves to the very best teachers that can venedy for this starting the starting that the same in the starting that the same interest and support. There are upport through the starting the support the same of the starting the starting that the same of the starting the starting that the same in the same of the starting that the same interest and support. There are upport throse won do.

Will Be Remembered

There has been no greater characterization of the Canadian People that the exemplified by the rescue that the same interest that same in the same interest that the same interest that the same interest that can venedy for this starting the starting that the same interest the sam

only a small number of pupils, should be maintained to the detriment of the instruction offered. In these days of good roads and motor buses it would be a simple matter to collect the children and convey tnem to larger schools supplied with the loss teachers and all the necessary equipment. It is not a sufficient answer to say that many of the brightest students in the universities started in these isolated schools. If the advantages were greater, the number would be vastly increased. Some years ago, the Hon. G. Howard Ferguson, when he was Premier of Ontario and Minister of Education, recommended a scheme of township schools but owing to the opposition

ontario and Minister of Education, of commended a scheme of township schools, but owing to the opposition raised against it nothing was done. Dr. MacArthur will prove himself to be a real benefactor if he can successfully carry out a scheme that will provide better facilities for the education of the children in the rural communities at a reasonable cost.—

questionably a very short-sighted policy, inasmuch as the boys and girls in the country because of their meagre opportunities, deserves to have the very best teachers that can be had.

The remedy for this state of affairs is the establishment of consolidated schools. It is not reasonable that these individual schools, with Jerome "Dizzy" Dean professional baseball's most colorful, talkative, and capable pitcher has made a far from impressive start. The Chicago batsmen knocked Dizzy from the mound on the opening day and were not much easier on Paul Dean two days later. The older of the Deans won his first game Monday when the Cards defeated Cincinati Reds eight to his first game Monday when the red of help in the ninth, the Reds leading by four runs Frankie Frish came to his rescue with a smashing double driving three runs home. This was followed by an error and a single by Joe Medwick to give the Cards the game. Although the game goes to Dizzy's credit, it was not a very impressive win.

Lefty Grove on the way to a comeback has turned in the most impressive effort as yet. Grove silenced the big bats of the Yankees, allowing only two hits both by "Larraping Lou" Gehrig. A curious fact has been brought to our attention in the case of George Selkirk. Selkirk is a Canadian boy and he has made good with the New York Yankees. Last year the Canuck hit for an average of 312. This is an excellent average for his first year up.

his first year up. The Washington Senators defeated the Yanks two straight from the start and it was only through Selkirk's efforts that New York were able to defeat the Senators in the third game. Selkirk drove in five runs with a home run, a triple and a one bagger. The following day George was moved down from third place to seventh. How come? We are glad to see however, that he has again been moved back to his former place in the batting order.

In 1934 Selkirk stared with Newark and the Yankee executive planned to bring him up to fill Babe Ruth's shoes in 1935. Although Selkirk is a valuable man, he is not the fence-buster that Ruth was. New York papers ballyhooed him as a second Ruth and the fans expected entirely too much of him. At first this broke Selkirk's spirit and he was not coming through Later in the season, however, he proved to be one of the most valuable men in the lineup. Probably because American fans consider baseball an American game and Selkirk, being a Canadian, he does not receive the support coming to him. Now, even the management appear to be down on him, because of Ruth's reputation. Given a chance Selkirk has proven that he would be an asset to his team not readily found in the minor leagues. In 1934 Selkirk stared with Newark and the Yankee executive planned

Locally, baseball appears to be in the doldrums. Inclement weather conditions has held up the Spring practice and very few Intermediate teams have had any workouts. Manager Creswell is busy rounding out as formidable a team as is possible. It is very gratifying to note that Caledonia will remain in the Haldimand fold. At the last meeting they applied for a release but it has been refused. Haldimand Baseball officials feel that their generosity in releasing Hagersville last year was sufficient.

REPORTS CHICKS ALL AND MORE THAN WE CLAIM

ROM "Way Down East" Prince Edward Island, comes this statement by a sat-lafied buyer of Bray Chicks: "I have been securing my chicks from you for the last 2 years and I find them all

Last week we quoted what a Quebec customer wrote us after receiving a shipment of 700 Bray Chicks: "The best looking lot of chicks I have ever received from any shipper in Ontario." The week before that we told you about an Ontario purchaser who was so pleased with his Bray flock that he said that they were "better birds than you advertised." Isn't it chicks of that stamp that you want under YOUE brooder. n't it chicks of that stamp that you want under YOUR brooder this spring? Get a copy of our 1936 catalogue, look into the breeding and hatchery methods w...ch produce such chicks and check up on the prices. You'll find them very reasonable, quality considered. Don't
