WHEN THE EASIEST WAY

IS THE BEST WAY THERE are no two ways about it! Certainly
The easiest way to get the most for every dollar
you spend is to buy products that you know about
through the advertisements in your local paper. You
don't have to go out and look for buying opportunities. The advertisements bring them to you. And
all you need do is consider the facts, compare values
and decide on the soap or the sedan that best fits
your judgment and your pocketbook.

Certainly the best way of making your money go
farthest is to buy merchandise of proved value.
Advertised merchandise. Merchandise that is bought
and used by many people. Merchandise that must
be superlatively good enough for its maker and your
local retailer to keep calling it to the attention of
people week after week and year after year.

This is the service—of convenience and profit—
that the advertisements offer you. It will pay you
to read them regularly and take advantage of everything they can do for you.
