CANADA THE EMPIRE

Motor Car Door Handles
A Toronto newspaper recently called attention to the dangerous construction of the door handles with which most motor cars are nowadays equipped.

Solvency English
One serious trouble is that few people regard it as necessary to pay attention to their speech and style of writing.

Cheese vs. Butter
We have desisted the cheese factory, the product of which is in good demand overseas, and thereby increase the price of Canadian butter.

Homicide Rate
Canada's homicide rate in 1935 was 1.4 per 100,000 of population.

Blasphemy
'Swear not at all.' It is easier to forgive the oath uttered in anger or vexation than the unprovoked vulgarity of the careless and the vicious.

A Universal Game
Tennis is today the world's most universal game. It is played in every country and nearly every country.

Nifty Playsuits
All the little moderns are wearing the playsuits with matching frocks these days.

Times Have Changed
The prison populations are now made up of youths in the twenties sometimes younger. It's an unfortunate, and regrettable fact.

Radio Licenses Increase
The marked increase in the number of radio receiving licenses issued by the Canadian Government during the past fiscal year is compared with preceding years.

THE EMPIRE
Local Government in India
What is needed for the present is not thoughtless clamour for further powers but a concerted effort to stir local bodies throughout India to a better sense of the responsibilities which they are already invested with.

Neighborly
'Just what all enthusiastic Americans begin playing air polo, with one-man 'planes and gas-inflated balloons,' chortles 'The Boston Globe.

To Step Out Again Sees Chess as Crime Reducer

WINNIPEG—Teach chess in the schools to reduce the flow of delinquents through Canada's juvenile courts, says James H. Booker, president of the Manitoba Chess Association and leader in a chess-for-children movement here.

Ernie Crosbie of Iltamar, winner of the 50,000 meter walk in 1932 Olympics, will again represent United States in Berlin August. He's shown training in New York.

Praises The Railroads
It is, we think, distinctly to the credit of the railways that, notwithstanding the difficulties under which they have been laboring and which are clearly reflected in their receipts and earnings, they are displaying an increasing determination to show fight to their competitors in the cost of business.

Guilty of Negligence
The breeder of a vicious animal who slacks his recording and testing duties is guilty of wanton negligence and such an attitude should not be tolerated.—Cont't. 'He in R. C.

Passenger Liability
In Alberta, as in Ontario, there is a law which exempts motor drivers from payment of damages when gratuitous passengers are injured.

Footwear Production
Is Lower For May
OTTAWA—Canada's leather footwear production in May totalled 1,775,518 pairs.

The Diagnosis of Cancer

By DR. J. E. HETT
607 Sherbourne St., Toronto. 223 King St. E., Kitchener.

SCIENTIFIC CANCER causes the death of one out of every ten persons over the age of 25 years. It is a terrible disease, and it is so terrible that it is often called 'the great imitator'.

There has been a great deal written about cancer, but very little has been said about the diagnosis of cancer.
