The Moose River Example
Human nature was seen at its best
during the days that followed the
Moose River mine cave-in. We would
This is during the days that followed the Moose River mine cave-in. We would have a much better world, a grand world, indeed, were the qualities that animated the Canadian people in that period to be projected into the international realm by all the peoples of the world. Civilization may be said to be caving-in and all humanity to be in danger of being overwhelmed and from that fate the world cannot be saved unless people of goodwill stand together loyally and courageously and bring into Will have a report section, provided by the caving-in and all humanity to be in danger of being overwhelmed and from that fate the world cannot be saved unless people of goodwill stand together loyally and courageously and bring into Will have a report section, provided by the peoples of the world cannot be saved unless people of goodwill stand together loyally and courageously and bring into Will have a report section, provided by the peoples of the world cannot be saved unless people of goodwill stand together loyally and courageously and bring into Will have a report section, provided by the peoples of the world cannot be saved unless people of goodwill stand together loyally and courageously and bring into Will have from one to children."

Children should have products, and other adults about one-half pint.

Adults require milk especially for the sake of its calcium and animal protein.

Edinburgh Scotsman.

The Shirt Complex

Signor Mussolini cannot be blamed

Years ago the Ontario Government made a standing offer of \$25,0000 for the discovery of radium minerals in

munity has the second lowest death rate from this cause in the world. So now comes the announcement that the Anti-tuberculosis league there has arranged to cover the cost of tuberculin tests which the medical praction ers may desire to make. Two further suggestions spurred on by the news from the T.B. front are that cancer can be attacked in the same way, and secondly, that the maternal death rate should be studied. Dr. F. H. Coppock, of Rosthern, in this connection, is adocating state obstetrics. - Winnipeg

What's In A Name?" According to the Canadian National Exhibition, this is Canada's Recovery Year. We hope this makes it official, though we cannot help recalling that, according to the same authority, 1914 was Peace Year. - Toronto Mail and Empire.

Clipping Old Files
You know the files of the Recorder
Printing Company, as well as those of the Times, have great value, and they have not been so carefully guarded and the print shop as they should habe been. As a consequence, the Recorder and Times has constructed a vault, fireproof and sneak-proof, in be placed it is hor the marauder or the intruder.

It is hardly believable that people who are allowed through kindness to inspect these files for different pur-poses would stoop to mutilating items that are no place else to be found in the history of Canada. Items have been scissored out of these columns by unscrupulous cusses, who were too lazy to copy what they wanted, although they were getting it for no-

These files are worth many thou sands of dollars, but their value and usefulness have been somewhat im paired, merely because people have been given a chance to peek at them, who were sufficiently dishonorable to take advantage of the courtesy t multilate the paper and steal the items. A strong word to use about every day people, but it is true. - Brock-

The Hapsburg Ghost A ghost haunts Central Europe, the ghost of the Hapsburgs. This ghost was when in the flesh, a great power er. If ever it were to suffer reincarnation, which is not at all likely. It would be but the puny and harmiess simulacrum of what it was once. And yet it still frightens neighbouring States, above all, the Yugo-Slav Herr von Papen's true mission is, of course, to promote the "Anschluss," the union of Germany and Austria. But he ingeniously magnifies the ghost so as ti make the union appear the less dangerous. - Manchester

Milk, the Memorandum states, is the only food which in itself nearly ulfills all the conditions of complete les of milk, it is able sources of information and the most up-to-date facts and figures upon which the possibility of profitable transactions and wider markets can be based.

The properties of milk, it is stated, also makes for easy digestion. As the result of much experimental evidence, the Memorandum states, "it has been shown that cows' milk is the most valuable food known for the properties of milk, it is

modern world, where it has proved the most infectious of diseases. Germany has come out in brown, ireland in blue, Sir Oswald Mosley (lacking briginality) in black, Egypt in green paying quantities, and all that Algoma prospectors have to do to win the prize is to find the vein of coracite which was noted in the 1863 report on tis taxes up to the time it becomes prize is to find the vein of coracite which was noted in the 1863 report on the Geology of Canada, page 504. It is there stated that the vein, about two inches wide, occurs at Mamainse Point, Lake Superior, which is about 65 miles from the Sault. The new Trans-Canada road has been built close to the place. — Sault Ste Marie Star.

Maternal Deaths

A comparatively short time ago Soskatchewan tackled the problem of tuberculosis deaths and so successfully has it done so that now the community has the second lowest death. needed among Egypt's youth. They are hard lessons to learn, and it will be interesting to see what the "Blue Shirts" make of them. - The Sphinx,

The Origins of Kingship The ancient British love of a lead-ership which had a spark of the divine in it, a hint of the absolute, owing its creation to no man or group of men, was too deeply rooted to be the creation to no man or group of men, was too deeply rooted to be the creation to no man or group of men, was too deeply rooted to be the creation to no man or group of men, was too deeply rooted to be the creation of the c ing its creation to no man or group of men, was too deeply rooted to be cradicated. A king there must be, not clothed with "the right divine of the kings to govern wrong," yet endowed with a majesty not derived from election by the governed. British genius has evolved such a monarchy. Historians of the future, seeing events in proper perspective, will probably find that it attained its supreme development in George V. — The Australasian.

Norway's Birth

Rate Declines

Are embraced in a scheme of several large scheme of several large street specialists and psychologists. Lord Dawson of Penn, the King's physician and Lord Horder are among the supporters.

An appeal has been issued for \$100-000, the amount required for a clinic on the outskirts of London. The plan, formulated by the institute for the Scientific Treatment of Deliquency—at present limited in scope — provides for mind treatment.

Thought He Was Dead

"My father is dead! Where can I get a doctor?" shouted a small boy as he rushed

into a store in St. Catharines. Alex Junkin, Bell Telephone Installer, was in the store and suggested that Dr. E. D. Coutts be called. Trained by the First Aid courses provided by the telephone company for just such an emergency, Mr. Junkin followed the boy to his home. He found the father lying on a couch where he had been placed by his wife who had discovered him, lying in the bathroom,

Mr. Junkin at once applied artificial respiration, at the same time asking that hot coffee be made and plenty of blankets be supplied. In a very few minutes the heart action could be felt and in a short time he was sufficiently conscious to swallow a little hot coffee.

When Doctor Coutts arrived he assured the Bell Telephone man that his intelligent and overcome with gas fumes. speedy action had undoubtedly saved the man's life.
