To all points in Canada, $1.50 per year in advance. To the United States 50c additional for postage.

Papers are sent to all subscribers until definite instructions are received to discontinue and all arrears of same are paid. The date to which subscription is paid is indicated on address label.

A. L. MILLER, Editor

A DANGEROUS PRACTICE

The coating of ice on the street this week has given the children their first opportunity to don their skates and get out their hockey sticks. On Tuesday night a large number of children took possession of a portion of Main treet, thus creating a very dangerous hazard for the motorist. Imbibed with a spirit of good times, children are naturally less conscious of danger, and motorists, especially when driving on icy streets are more or less at the mercy of providence. Therefore it is a serious problem when children seek the highway for their game of hockey. At first thought it appears selfish to take away from them such a minor privilege, but it seems to us the possibility of a fatality is too great to allow the practice to continue.

The Alternative

Probably the best way to prevent a fatality from occurring on the streets is to take some action toward opening the Arena for the coming season. Last year the ice surface at the rink, was never flooded. It can be said that the weather last year was not suitable for the making of ice, yet that will not be the case year after year. Now is the time to get operations at the rink underway. It would be money well spent for the Town to make some arrangement with the Arena Company, and hire someone to operate the rink throughout the winter. It cannot be expected to be made a profitable venture for any individual, unless under unusual circumstances, and it necessarily follows some public spirited attitude must be put forward to assure the children of a place to realize their pleasure in safety. We realize the difficulty of finding some responsible person to assume the task of operating the rink, but someone can be found if the spirit is willing, but that seems to be something lacking entirely too much so far as community enterprises are concerned.

SPEEDING DOWN -:- THE -:- SPORTS TRAIL

by A.B.P.

This season rugby will have a new Canadian championship team as the Sarnia Imperials, last year's champions were dethroned by the Toronto Argonauts on Saturday. "Bring on those Blue Bombers" is the Argos present battle cry. After watching the Argos—Sarnia brawl the Winnipeg boys are still confident that they will take the Toronto blues.

—:—

Big Bob Isbister once more paved the way for the win with his lofty punts. It's just a question who is the better hooter between Isbister and Stirling. True Isbister made a far better showing on Saturday than his rival but he also had much better support and plenty of time to get those kicks away. There isn't a difference in having plenty of time to boot that pigskin and having to hurry your kick. The Toronto backfielder was well protected for his kicks but the Argos broke through the Oiler's defense zone several times and Sterling was forced to hurry his blows continually.

—:—

Isbister and Teddy Morris made the best showing for the Argos while Stirling and Orm Beach were the Imperial's big threats. This coming Saturday brings together Toronto and Winnipeg for the Canadian championship and this should prove to be a great game.

—:—

Lester Patrick is at it again. He's still putting players out of a hat. Each year he brings three or more youngsters up from his school and moulds them into great stars. Last year he produced such stars as the Colville brothers, Alex. Shibicky, Joe Cooper, Babe Pratt, Phil Watson and Lyn Patrick. This season his juvenile aggregation is again in the form of a line with Clint Smith, Bobby Kirk and Bryan Hextall form the attacking wave. Still Lester is not satisfied. Out of forty odd players he selected seventeen to fill vacancies in the New York Rovers. Two of these, according to Patrick, are sure-fire Rangers in a season or two.

—:—

In a recent game in the Forum in Montreal, a boisterous fan heaved a pop bottle on the ice. League president Frank Calder offered to bet Gorman one hundred to one the culprit couldn't be located. About ten minutes later the bottle thrower was under arrest. Now Gorman is in hot pursuit of Calder in order to collect his hundred bucks. Here's hoping you luck Tommy.

—:—

Once more we might try our luck in picking the week-end winners in the National Hockey League. Saturday, Rangers to take the Leafs, Canadians to take Americans. Sunday, Chicago to defeat Maroons. Americans to down Canadiens. Detroit to trim Rangers.

—:—

Gentlemen:— We your Finance Committee beg leave to report as follows:

1. That the Treasurer and Warden sign a note at the Canadian Bank of Commerce for $5,000.

That the following accounts be paid:

Children's Aid Society, St. Catharines, re Elmer and Edgar Lambert $46.50; Children's Aid Society, Hamilton, re David Bauer $28.97; Children's Aid Society, Wentworth, re Frank and Jean Pollock $184.50; Children's Aid Society, Haldimand $837.10; Goodram Bros., payment of stoker $175.00; Audrey Bicknell, clerical asst. Col. Massie $12.50; Jessie Nelles, Court Stenographer $8.00; A. Gillis, care Minnie Makey $10.00; Ora Dickson, care Mr. Robbins $42.25; Canadian National Railways, water service $37.50; R. N. All of which is respectfully submitted.

(agd.) JAS. N. ALLAN, Chairman

Moved by Councillor Bate, seconded by Councillor Huber, that the report of the Finance Committee be adopted as read. Carried.

Moved by Councillor McKay, seconded by Councillor Chalmers, that a by-law be introduced and read a first time extending the County Road System by assuming the following road: "Commencing at the intersection of the allowance for road between concessions 1 and 2 in the Township of Sherbrooke with the Lake Shore Road; Thence Easterly and Northerly on the Lake Shore Road to the intersection of the said Lake Shore Road with the side road between lots 3 and 4 in the first concession North of Lake Erie in the Township of Moulton subject to the Townships of Moulton and Sherbrooke providing a right of way 66 feet in width satisfactory to this Council. Carried.

Moved by Councillor Marshall, seconded by Councillor Coverdale, that the by-law extending the County road system be read a second time. Carried.

Moved by Councillor Miller, seconded by Councillor Coverdale, that the by-law extending the County Road System be read a third time, signed, sealed and numbered and enacted a by-law as in the original motion. Carried.

Moved by Councillor Huber, seconded by Councillor Allan, that the report of the Road Committee be received and read. Carried.

GOOD ROADS COMMITTEE REPORT

To the Warden and Members of the County Council:

1. We have examined the payists and accounts audited by the Superintendent, amounting to $13,2772.23 and recommend that they be paid, making a total from December 15th 1936 to October 30th, 1937, of $115,814.21.

2. That the shouldering in progress on the Moulton Station Road (No. 6) together with the stoning of this portion of the road is now completed.

3. That the shouldering and the stoning of the York to Empire Road (No. 16) from Seneca Station to Empire is also practically completed.

4. That, except for the pouring of three wingwalls, the concrete work of the Peart Bridge is now completed and the removal of the center ing and the clearing of the site is now in progress.

5. That the second hand timbers and new bridge plank used by the Township of Oneida in constructing the temporary bridge which has been in use during the construction of the Peart Bridge be purchased from the Township at the actual cost to them and that the temporary bridge be removed as a part of the construction cost of the new Peart Bridge.

6. That tenders having been received and considered by your committee the contract for the supply and operation of a truck and driver to be used with the County snow plow during the coming winter be allotted to Mr. Alfred Best at a price of $2.75 per hour of actual operation with a minimum payment of $30. per month during the months of December, January, February and March.

7. That the preliminary survey of the lakeshore road from Lowbanks to County Road No. 14 has been completed showing the adjustment in the alignment necessary and the right of way required to provide for a satisfactory county road so that this matter can now be negotiated with the Townships of Moulton and Sherbrooke.

8. That for the scattered patching of surfaces treated roads the payment for which cannot be properly computed at the rates shown in their current contract, the Municipal Road Spraying and Oiling Co., be paid at the rate of $2. per hour of actual work on the roads.

9. That the final preparation of the road for the winter including the opening of culverts and drainage outlets, the cutting of shoulders, and the shaping of the roads is now in progress.

All of which is respectfully submitted.

(sgd.) M. COVERDALE, Chairman

Moved by Councillor Miller, seconded by Councillor Wilkinson, that the report of the Good Roads Committee be adopted as read. Carried.

Moved by Councillor Sundy, seconded by Councillor Coverdale WHEREAS the traffic on the Walpole Road from Highway No. 3 at Canboro to the Lincoln County Line at Attercliffe (County Road No. 1) is a heavily travelled road carrying far more traffic than any other macadam or gravel road in the County

AND WHEREAS the further improvement of this road during the current year was deferred in expectation of this being designated as a King's Highway.

AND WHEREAS the special committee which recently waited on the Minister of Highways were definitely informed that this road would not be assumed as a King's Highway for a year or more at least.

Therefore this Council strongly recommends to the incoming Council that this road be further improved early in 1938 by the application of a bituminous top or other equivalent surface.

Moved by Councillor Allan, seconded by Councillor Emerson, that we do now adjourn to meet December 9th, at 10 o'clock. Carried.

HARRISON ARRELL, Clerk.
A. T. LANG, Warden.

OBESITY

Obesity is a polite way of saying "too fat" or "too stout." Some persons have a hereditary tendency to stoutness and in some families a single member may become unusually stout even from childhood. But stoutness is more often the result of excessive eating and not enough exercise. It is a well recognized fact that people who have passed middle life have a tendency to become stout despite the fact that they may eat moderately and play plenty of golf. The fact remains that they are consuming carbohydrates beyond their daily needs and the excess amount is converted into fat and stored in the tissues.

Obesity is undesirable on several counts. In the first place it tends to slow one up and make all exercise burdensome. Fat people suffer more than thin people when a fever hits them and they are poorer risks when they have to take a general anaesthetic. Why is this? Let us explain.

Our foods are divided into three classes, carbohydrates, fats and proteins. All are essential for normal nutrition, but as used for body energy they are all converted into sugar (or carbohydrates). If we are taking into the body more food than is daily required the excess amount is stored in the tissues as fat. But the fat doesn't pick out just those parts of the body one can't see but which to lay down layer upon layer of new weight. All body tissues are used in this storing up business and so the heart and the kidneys and other organs all get their share. This means that an organ like the heart has more bulk to carry during the day than the heart which normally does not carry a lot of extra fatty tissue. More work means more effort and that is why a very fat person gets short of breath and may experience air hunger, and is a poorer risk for an anaesthetic than one who is not overweight in most persons can be controlled. It is largely a matter of eating within reason and having a well balanced diet. If you are overweight consult your doctor. He will prescribe a diet to suit you. Above all avoid food faddists and the kind friend who took some pills which he is sure is exactly what you need. That is dangerous. An outstanding consultant told the writer not long ago, that some of the most serious cases with which he had to deal were persons who followed somebody's cure-all for control of weight.

Eat wisely, exercise properly and remember that it is easier, as a rule to put on weight than it is to take it off.

Questions concerning Health, addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered personally by letter.

RAILROADS FAR AFIELD

Railroad travel in India and other foreign lands has thrills unknown to Canadians declares Gordon Sinclair, globe-trotting reporter, in an article appearing in the current issue of Canadian National Railways Magazine now in the mails. Elephants and tigers are among the hazards which railroad maintenance crews face in some countries, but the problems of travel, while less hazardous are no less interesting for the traveler. Trains which stop for all on board to indulge in the luxury of a bath, and other trains, notably the famous Khyber Pass, where conductors are the only unarmed riders on the train and therefore do not dare to press their demands for "tickets" too strongly among those which Mr Sinclair has ridden and of which he tells.

THEY ARE GOOD SPENDERS

During the past season tourists visiting Canada spent approximately $300,000,000 for goods and services, an increase of 15 per cent. over last year, according to C. K. Howard, Manager of the Tourist and Convention Bureau of the Canadian National Railways.

In 1929, the tourist spending year the amount was $309,000,000.

In an interview here Mr. Howard pointed out that every phase of industry is affected by the influx of tourists. "The tourist dollar is spread over a larger proportion of our population than any other dollar," he said.

Building a Competence

(BY GRENVILLE KLEISER)

It is deplorable that so many men, after a life of hard labor, die and leave their wives and families heavily in debt or in dire poverty. They have lived well, spent all they made, with no thought or provision for future needs. They died — and left nothing.

The sound basis for building a competence for old age is a bank account. Whether your present wage is large or small, save part of it regularly. Make a little sacrifice now for the larger gain later in life.

It is advisable to have a fixed time each week or month for depositing a definite sum in the bank. Keep your money there until you have sufficient to buy a good bond or to make some other conservative investment.

The habit of saving will give you mental discipline as valuable as money itself. Whatever motive compels you to put forth increased energy and perseverance, contributes in an important way to your personal development and ultimate success. The knowledge of having a personal bank account will directly affect your moral character by inculcating habits of thrift and self-control.

The first thousand dollars is the hardest to accumulate, but once you have this sum in the bank and bearing interest, you will be inclined to adjust your expenditures more carefully to your income. The saving habit grows rapidly and brings with it a deep sense of satisfaction.

There is a dignity in the habit of saving money. It develops not only a spirit of independence and self-reliance, but gives a distinct pleasure in the knowledge of provision made for future comfort and security. Every victory over extravagance will give you a distinct moral uplift and raise you in your own estimation.

Keep an accurate account of your personal expenses. This will develop in you a habit of thrift. Carry a small note-book in you pocket for this purpose. Examine it at the end of the week, in order to determine for a certainty whether you are spending your money wisely. This will tend to check needless expenditures. Encourage yourself with the knowledge that large fortunes have been founded on the habit of economy and saving in matters of money.
