Toronto Gets Airport

OTTAWA. — Toronto will have its airport under the Dominion Government and will assist with a lump sum which is to be fixed.

An agreement to that end between the city and the government was discussed between Hon. C. D. Howe, minister of transport, and Alexander MacIsaac, controller of airways, and E. E. Cosens, engineer of the Harbour Board.

Two sites are proposed, both to be used. One would be alternative to the other. The island would be the port of the city when firing conditions were bad and there might be a risk in landing at the island.

By the terms of an order-in-council passed last fall the government is understood to pay a quarter of the cost of municipal airports.

Salmon Pack Probably Light for Two Years

TORONTO. — A gloomy prediction the Maritime Provinces might see a scarcity of salmon this year and next was made before the Royal Society of Canada in a written report of marine biologist at the University of Toronto. Dr. Huntman told the biological sciences section of the society that the salmon fishing conditions were bad and there might be a risk in landing at the island.

By the terms of an order-in-council passed last fall the government is understood to pay a quarter of the cost of municipal airports.

May Mantle Fruit Trees

In order to combat freezing of the buds on a dressed-up tree, Dr. Halsey explained chemists have devised a special formula which forms a transparent film over the periferations, thus sealing the garment and resulting in a warmer inside than outside. In due time the film disappears and the respiration of the tree is restored to normal.

The garment itself is weather resistant, he said, and added that it will bring over 10 cents in the selling price.

Will Ruin Nations

HAMILTON. — Unless the world changes its state of mind, nations will be beaten down by war, Sir Robert Falconer asserted in a written protest, presented at the 15th annual conference of the League of Nations Society in Canada.

Canadians Talk "Real Funny" Say Girls From Kansas

Basket Ball Team Members Think "We Bite Our Words" But "We're Nice!"

EDMONTON. — Canadians talk "real funny," members of Wichita (Kansas) Thurston women's basketball team said in an interview here before playing a five-game series with the famed Edmonton Grads.

Teacher's Dismissal Protested by Pupils

DELISSIE, Sask. — Angered by the dismissal of their headmaster, 100 school children staged a strike yesterday in this town 25 miles southwest of Saskatoon.

Air-Line Inaugurated

PORT WASHINGTON. — The big Imperial Airways flying boat, Cavalier, completed her first test here from Hamilton Bay, Bermuda, this week.

New Cell Block

TORONTO. — Immediate start on construction of a new cell block at the Ontario Reformatory at Chelmsford in compliance with one of the strongest recommendations in Judge James Maden's report on the riots at the institution was announced this week by Hon. Harry C. Nixon, Provincial Secretary.

Lauder Scorns Radio

HOLLYWOOD. — Sir Harry Lauder turned down a big money offer for a ten-minute radio appearance, yet he agreed almost that long to appear in a play, in which he plays an old friend, whom he captained in Arcadia, California.

Prison Chaplain Declares Ryan Case Betrays Worthy System

INGERSOLL. — Discussing crime before the Kiwanis Club here, Rev. E. Donald Stewart of the staff of the Ontario Reformatory, Guelph, held that the home in many cases was the real breeding place of crime.

This Year's Crop of Graduates

The annual job hunt is on as hundreds of nervous young men and women come rushing out of colleges everywhere in a wild dash to make their impression on the business world. For some years past, the happy hunting grounds of industry have been anything but kind to these would-be hopefuls and there is many a graduate wondering if the price and effort were worth the price.

Lengthen Periods To See Quints

After June 15th Girls Can Be Viewed Two Hours Daily

WALLANDER. — So many thousands are eager to see the famous quint, which they passed their first birthday on May 24th that Dr. Allen Roy Dafso decided to lengthen the hours they appear each day before the public.

Proper Care of The Herd Sire

Some Common Practices That Are Serious Mistakes

It is found on most farms that an open shed with adjoining yard or small pasture where he may exercise is the most satisfactory way of housing the herd sire. Successful breeders state that under no circumstances should he be allowed to run loose with the cow herd in the pasture. Such carelessness will exhaust the vitality of the sire and may cause him to become infertile.

Choosing a Wife

On Saturday afternoon the Editor was in conversation with a local young unmarried man and in the course of same the question of marriage arose. The young man seemed to be badly bitten by the matrimonial bug. He longed to be married but claimed he could not afford it. We encouraged him by stating that if every man waited until he could afford to join the beneficiaries there would be a great decline in marriage rates.

Grain Feeding

In all grain feeding it must be kept in mind that the product being used is an expensive one and can under no circumstances be used in the feeding of low grade or indifferently bred animals. Not only must the animals be of approved types, but experience has clearly shown that certain kinds of farm animals greatly excel others in their ability to give off from her body immense quantities of milk during a long lactation period, would rank third, followed by beef cattle and sheep.

Buckingham FINE CUT

Wheat Fields Of The World Everyone to "See" Next Coronation

What should be said of the television experiment that marked the Coronation? It is reported that fully 50,000 in an area of 7,500 square miles were in London, electrically speaking, at a distance of 40,000 miles from the scene. It was an important, for example, as Morra's first message, "What had God wrought," or Marconi's transmission across the Atlantic of the signal that stood for the letter "S," or Bell's famous "Watson, come here, the first words ever sent over a telephone."

What of the next coronation? Not only will the empire here the progress, the technical chanting, the solemn vows of the King, but it will see in Westminster Abbey the moving splendor of an ancient rite. Elizabeth II, or Queen Mary, will transport Hindu, New Zealanders, South Africans, Canadians to far-away London. What are the coronation ceremonies? The coronation is a solemn religious and political ceremony which is of incalculable social, political and economic value to the empire. The dominions have achieved independence, but so long as they can hear and see what is going on in London, they must feel a kinship with England that depends on something stronger than sentiment. Perhaps historians would do well to consider the part that electrical communication has played in connecting together colonies and home country, and the even greater part that it is destined to play when the King's majesty becomes a living presence wherever the British flag flutters in the breeze.
