It's always full strength

Each cake of Royal Yeast is sealed in an airtight wrapper - safe from all contamination

YEAST plays an important part in making really appetizing bread. It must be full strength and absolutely pure, to avoid any "off-taste" in the finished loaf.

Royal Yeast is always depend-able. Every cake is sealed in able. Every cake is scaled in air-tight wrappers—safe from im-purities. It keeps its full leaven-ing power. And Royal is the only dry yeast that has this special

For 50 years, Royal has stood for high-est quality. Today, 7 out of 8 Canadian housewives ask for Royal when they buy a dry yeast! They know it's reliable. Don't risk baking failure with uncer-ain yeasts. Always ask for Royal.

Aberhart Admits Failure Of Plan In Time Pledged

CALGARY.—The fate of the Aberhart Government was entrusted Sunday to the men and women of Alberta who elected it, the first Social Credit Administration in the world, in 1935.

John Tranum, an Englishman, fell 17,500 feet before pulling the ripcord of his parachute. One would probably think a jump like this would mistaken, as I was. Gene Austin, vetmistakes, as I was. Gene Austin, veteran jumper, stepped off a plane at 20,000 feet, falling 16,600 feet before doing anything about it and received \$50 as per contract.

Austin says he travelled 120 miles an hour in this jump. He says after

signing unless the people desired change, either in leadership or party

"At the time of the Provincial election in Alberta, previous to August, 1935," Mr. Aberhart said: "I made you a definite promise. I made it not for the purpose of gaining your support, but for the reason that I wanted to give you definite assurance that you would be making no mistake in honoring us with your confidence. That you did splendidly.

"Now, I believe that a promise is a contract that should be fulfilled if at all possible, and it is my intention

efforts further or resign.

The Bells of Hope Street

What happened at Number 13 Hope Street, Edinburgh, Scotland, on March 3rd, 1847. should have set that thoroughfare amongst the immortals, but most of us know little about it. The Bell family lived at that address when Alexander Graham Bell (who was to invent the telephone 27 years later at Brantford, Ontario) was born.

Bell's grandfather, his father, and his uncle were all specialists in the art of speech production-of vocal physiology. The inventor's own interest in that subject began at an early age. To his early training Bell attributes his later ability to discover the principle of telephony and to translate that principle into a practical mechanism which has profoundly influenced human history.
