Kiwanis Speaker at Windsor Declares Unbreakable Bond Between the English-Speaking People Could be Savior of Civilization

In an address in which he contended that Mussolini is attempting to form a "second Roman Empire similar to that of the time of the Caesars," Rev. M. C. Davies, of Windsor, advanced an unbreakable bond between the Engsh-speaking people as the salvation oil in its history.

BASLE. Switzerland — Four men were killed and 11 injured when an For Closer Understanding Speaking at the weekly meeting of e Windsor Kiwanis Club the rector of St. George's Anglican Church stressed the important part the neople of Canada, can play in the forming of such a bond.

"The Possibility of Closer Relation—"The Possibilit

ship and Understanding Among the Anglo-Saxon People" was the topic of Airlines should be under way i about two weeks, says Philip John "Davies' talk. He explained that he son, Vice-President in charge of opwas referring to the people, of the British Empire and the United States. erations of the airline,

Officials expect to adhere to original plans, beginning operations "The world has never been in such a turmoil as we find it today," remarked Mr. Davies. "We are afraid to from Winnipeg westward, with easmarked Mr. Davies. We are arraid to look at the papers. We do not know what is going to happen in between editions that may plunge the world into a catastrophe. tern lines opening later, Johnson is dicated. He said he believed regula

"This is indeed a sad picture," re narked Mr. Davies after his review of the nations. 'It seems that the older civilization becomes the less stability there is in the lives of the

In advocating the necessity of form ng a stronger bond between the peo-le, of the British Empire and the in the defense of China's national Capital, Nanking, according to the report, and Marshal Vassili Bluechnited States, the speaker pointed out that those two nations have one out look on life, the same heritage, and reasonably the same ancestry. Position of The U.S.

"Although there may be some peo-ple in the United States who still glory in the revolution, the thinking people of that country recognize the ecessity of a binding of themselves with those of the Empire, not with diplomats or signed treaties, for after all blood is thicker than water," said Mr. Davies. "The United States is going through

a period of growing pains," he added. "We Britishers may not like their form of government, and may wonder what their outlook is with their neutrality policy, but we must remember that they are just national growing "The geographical position of ou country results in us representing British idealism to the United States

thsonian Report Places Man's Earliest Ancestor In Dark Mont Forest—Ancient Animals Tiny—But Bones of These Tree-Dwellers Show Human Resemblances, Scientists Say

known members of the order of life to which modern man belongs have been discovered in Central Montana by three scientists who in succession spent nearly thirty years exploring a wooded paradise of 70,000,000 years ago, according to a report issued by the Smithsonian Institution.

Offshoot of Earlier Stock
Only teeth and jaws of these crealey of the National Museum staff and continued after his death in 1931 by. Dr. Simpson. Dr. Simpson's report in based largely on the extensive Smiths sonian collection of the fossils from the Crazy Mountain area.

Although only four or five semicomplete skulls and no complete skeleton exists in the collection, Dr. Simpson states that one of the types discovered seems to combine various fundamental features of the pseudo-monkeys, the lemurs and targiods the

Offshoot of Earlier Stock
Only teeth and jaws of these creatures have been found and only a paleontologist, the report says, could recognize their relationship to the monkeys, apes and humans of today. Tiny creatures, hardly larger than mice, they lived in trees of the ancient forest region just east of the Crazy Mountains, according to Dr. George Gaylord Simpson of the American Museum of Natural History, author of the report.

author of the report. The First Equines
The report discloses the discovery
also of remains of animals related to
bears and to such insectivores of today as shrews and moles, as well as
discovery of probably the earliest be
ginnings of the family now represent
ed by horses, cattle, deer and bison.
In the earliest strata of the Craxy
Mountain formation according to No claim is made that the little ar mals were in the direct ancestral line of present-day primates. It is believed that they were offshoots of an earlier general and still unknown stock from which man also derived.

Crocodile Creatures Ate Them
The branch of life in question apparently became extinct after the Paleocene age, and signs indicate many of the animals were devoured by large crocodile-like reptiles which were the dominant creatures of their period.

The explorations were begun in 1908 by Albert C. Silberling of the United States Geological Survey, and a large collection of all sorts of specimens were made. Investigation was continued by the late James W. Gid-

The collection from this area in culate specimen yet discovered, the report states, skull, jaws and partial skeleton of one of the small rodent like animals.

keys, the lemurs and ta

latter now represented only in the East Indian tarsius.

Some scientists hold the view that the primate branch which eventually produced man budded off from the

main primate stock in the tars

Mountain formation, according to the report, are found fragments of animals at least 50,000,000 years old and en

Canadian Blind May Be Led By

blind was expressed by Captain Ed-ward Baker, Dominion secretary of the Canadian National Institute for the Blind, speaking to the blind people at Ottawa. The gathering had just heard an interesting talk given by Miss Hazel Hurst, of Ogdensburg. N.Y., who spoke of the pleasure and assistance derived from "Babe" her "Seeing Eye" dog.

Captain Baker added negotiations had been going on for some time between the Institute and the "Seeing Eye" Institute at Morristown, N.J., and when a trainer with the exacting qualifications could be secured, the plan would be put into operation. The proposed institution would be similar to the one at Morristown, which , he

believed, was the most efficient one in the world. At present there are three "Seeing Eye" dogs in Canada from the Mormistown institute, two in Toronto and

"Aerocatering" Done By Flying Boats

Passengers making air journeys in

which are in every way the equal of those supplied in first class

restaurants.

Travellers who made flights on the first air-lines operating between London, Eng., and the Continent, com ment in terms of keen appreciatio on the progress in airway comfor which has been achieved in the pas 18 years. Pioneer air passengers after driving out to draughty sheds

Today, modern airports have commodious ticket offices, waiting rooms restaurants, and hotels; while up it the air, seated in spacious luxurious ly-equipped saloons which are scientifically heated, ventilated, and silenced, passengers have only to press a bell at their elbows in order to summon a white-coated steward and have placed at their disposal all the resources of a highly-organized

Jews Shunned as Partners

catering service.

Germans are forbidden to have Jewish business partners.

A court in Hamburg ruled that although there is no law forbidding Jews to engage in business, "a close relationship between a Jew and Gentile is fundamentally wrong."

A partnership, the court decided A partnership, the court decided.
