**A Weekly Review Of National Affairs**

**By "Spectator"**

The Trans-Canada Air Lines August 4th after a meeting of the cabinet of the purchase which the board of directors of the company has decided to purchase the aircraft for the heavy crop year. With the heavy crop of Vancouver has been a March from most grain growing countries of the Northern Hemisphere. The receipt of planes for the autumn and early winter flights across the prairies and the regular service will be extended eastward to Montreal. Opening flights across this section have already been made. The minister of transport, Mr. Howe took part in one of these flights on his way west for an inspection of airports, equipment and personnel. The next step will be putting the final touches on the flying in Eastern Quebec and the Maritimes. It is likely that before the final despatched regularly by air from the Pacific. Mail from Halifax is about 20 hours.

The recent test flight of the Mercury, the first in a series of transatlantic flights, bringing the hour nearer when London and Vancouver will be connected by air. The time is not distant when mails from the mother country will reach our West coast in about two days. In the future this time will probably be considerably shortened. The Trans-Canada air line with its 80 to 90 equipped airports will be an important link in the British Commonwealth and world air routes. It requires no stretch of the imagination to visualize airlines ultimately operating from Vancouver to the Southern Pacific Dominions and other lines through the Canadian continent to the Orient. The Northwest route is a shorter one than the one through Europe to the Orient. It will be recalled that the Hughes world grinding trip followed this route from Siberia to New York.

**RECREATION ROOMS INCREASING IN FAVOR**

There is little danger in Canada of realizing the gloomy prediction that the home is losing its place as the family's social and play centre according to reports reaching the Canadian Institute of Plumbing and Heating. These indicate a wide interest in the creation of recreation rooms. Many home owners, in all parts of the country, are taking up the idea of an improvement plan financing to turn to advantage formerly wasted basement space where the young can dance and play games and have a better time right at home than going out; and where the mother may hold her own social evenings and card parties.

**OLIVER BEAM DIES**  
IN SIMCOE HOSPITAL

Selkirk, Aug. 3. — Oliver Beam passed away in the Simcoe hospital on Monday morning from the effects of a stroke suffered about a week ago. He was in his 71st year and was born in Walpole, one of a family of eleven children. He resided on the same farm where he was born until about twenty-five years ago when he retired and came to this village. In 1888 he married Monica Williams, who predeceased him five years ago. He is survived by four brothers: I. J. of Hagersville, Belleville, James of Parisville, George of Niagara Falls, Ontario, and Warren S. of Selkirk. The funeral was held at Hoover's funeral home, this afternoon, with interment in the Union cemetery.
