Photographing Home Made Hollywood Miniature 'Sets'

This was not photographed in the wilderness but on a table top in the home of an amateur photographer.

AS ALMOST every motion picture studio is continually feeling its days with scenes photographed in miniature, such as a village street, a castle in Spain, a rural winter snow scene, a ship at sea, an airplane wreck and what not else.

Constructing one of these sets requires, of course, a certain amount of time and patience, with the expense depending upon the materials you put into it.
