silk stockings, has directly been responsible for a long-drawn out legal battle over a patent for making hoselery free from rings or bands, all of which is traced back to woman's desire to make herself attractive.

The battle has just ended with a decision by the Exchequer Court of Canada that an inventor could not justify his claim to royalties for the use of a machine system which eliminates the objectionable rings or bands in silk hose.

Wood made another statisfied with heavier weight silk stockings. Then came shorter skirks when women demanded more sheer with the stockings.
