the SNAPSHOT GUILD PICTURES ON THE FARM

Everywhere on a farm there are pictures—simple, pleasing snapshots that will give your albums new appeal. THE man who says "nothing ever happens on a farm" certainly isn't talking about pictures. On almost any farm, if you keep your eyes open, you will find enough snapshot material to keep the camera busy from early morning to late at night—and still not exhaust the supply. Farm animals offer scores of picture chances—woolly lambs in the sun, a hen tussling over her brood of chicks, cows being driven in for milking, pigs at the trough (or their owner summoning them with a lusty shout), horses drinking, ducks waddling in a line about the yard or taking an afternoon "crisis" in the pond. Work scenes in the field make excellent pictures, and fresh-plowed land with long deep furrows is good for pattern snapshots. The orchard in bloom is a scene of beauty, and all

A Weekly Review Of National Affairs

(By "Spectator") The St. Lawrence Waterway... The jurisdiction of the Dominion was solely over navigation... The plan of the project is to canalize to a depth of 30 feet of the international section of the St. Lawrence and the installation of the power plants... The project is to be divided equally between Canada and the United States... The project is to be completed in six years... The project is to be completed in six years... The project is to be completed in six years...
