exactly fits your picture-taking needs:

If you want to be able to take pictures outdoors under all daylight conditions, bright or dull, early morning or late afternoon, choose a camera with a fast lens—an f.6.3, f.4.5 or faster. For night snapshots by ordinary electric light, without "flood" lamps, get a camera with f.2 lens. If "flood" lamps are used, a slower lens will do.

If you want to take pictures of moving subjects—or those likely to move—choose a camera which

exactly fits your picture-taking color transparency pictures, for needs:

Lothbouse, of Hamilton, spent the week the Hards.

CHOOSING THE NEW CAMERA

For sharp pictures of fast-moving vacation-time games, you'll need a camera with high\_shutter speeds. A fast lens is heipful, too, when light conditions are adverse.

A BOUT this time of year—and especially with vacations in the offing—many of us feel the need of a finer camera, with greater picture-taking ability.

A fine camera is about as easy to operate as any other, once you are familiar with it. But there is a difference in usefulness between the finerence in usefulness and the second is needed for sports and fast action shots; 1/200 for moderate action; and 1/100 for snaps of allow action or subjects such as a precision shutter with high speeds. A shutter speed of 1/400 or 1/500 second is needed for sports and fast action; and 1/100 for snaps of allow action or subjects such as a speed of 1/400 or 1/500 second is needed for sports and fast action; and 1/100 for snaps of allow action or subjects such as a speed of 1/400 or 1/500 second is needed for sports and fast action; and 1/100 for snaps of allow action or subjects such as a speed of 1/400 or 1/500 second is needed for sports and fast action; and 1/100 for snaps of allow action or subjects such as a speed of 1/400 or 1/500 second is needed for sports and fast action; and 1/100 for snaps of allow action or subjects such as a speed of 1/400 or 1/500 second is needed for sports and fast action; and 1/100 for snaps of allow action or subjects such as a speed of 1/400 or 1/500 second is needed for sports and fast action; and 1/100 for snaps of allow action or subjects such as a speed of 1/400 or 1/500 second is needed for sports and fast action should be action or subjects such as a speed of 1/400 or 1/500 second is needed for sports and 1/100 for snaps of allow action or subjects such as a spee
