the transom, knocked, and went She only knew that the eyes of the man on the table clung to hers Miss Armstrong. her cap slightfor reassurance, and that under her hand the quivering in his arm ly askew, was brooding over a sheaf of reports. At this time of year Miss Armstrong often brooded well into the morning lessened, the tense muscles relaxed. . . . And for the first time in life, Tran felt power. over the reports of her students. It was something entirely apart "Hm!" grunted Dr. Sargent. "And so on-far into the night, I suppose. And this is the hard-

from the quickness of mind that made it so easy for her to learn from books, or the deftness that made play of manual tasks .It was the sense of power that comes from having strength to lend to nother in need of strength. She did not know how long she stood so without looking up-feeling quivering muscles relax under

fingers and the calm assurance of her voice-before a whiteclad nurse came with an orderly and wheeled the patient away. It was only then that Dr. Benchley said with the irony of a patience too long strained, "If it is not too much to ask, it might be interesting to get some idea just what that was all about."

Tran lifted her head and answered absently out of the uplift of that newly discovered sense of power, "He thought he was dying. I told him it was going to be all

"As simple as that, eh?" commented Dr. Benchley dryly. Tran did not answer. Instead

skims it and makes butter from the creams. The skim milk is used in casein; the lactose, or milk sugar, is used as a supplement in baby foods; the albumen is separated out and being rich in protein and Vitamin C, is used as an anima concentrate. In fact all that is left when this firm is done with milk is water.

NTARIO UTDOORS By VIC BAKER

BAITCASTER VS. GOLFER Maybe it's the heat, but this seems to be the time of the year for all screwball bets and screwy contests. The latest of these cur-rent cut-ups, which should be of interest to anglers and golfers, consisting of a contest in which Dave Reddick, Ontario all-round try with the rod and reel against the prowess of Stanley Smith, The occasion for the unique ex-

periment was the Montreal Electrotypers and Engravers annual golf field day at the St. Johns, Quebec, golf course. The plans called for a contest between Reddick and the winner of the low gross in the tourney in a five-hole match under the rules and condi-tions outlined below.

At first it looked like a very in-

teresting contest. Stanley Smith, who won the low gross honours, is a pretty fair golfer while Reddick has cast over 280 feet in competi tion and, when there is no wind prevailing, usually can average 240 feet per cast. Unfortunately, rain which swept the Montre district forced a halt to the odd match after only two holes had been played, each man winning Reddick used a baitcasting outf and a % ounce plug. His casts on the fairways were measured to

the point where the plug stopped moving and on the greens where the plug struck the green. It was decided that if he hit within one carry on without noticeable ef-
