Proves Girls Can Take Cold Weather

Science Again Says the "Weak-er Sex" Has Been Mis-named

Men, when you see a pretty girl hurrying briskly down the windy, winter street in today's draughty attire don't feel sorry.

The girl can take it-much better than you can.

This is the conclusion of a group at Yale University school of medicine, where science found a bio-logical explanation for the forti-tude of the so-called "weaker sex". Are Better Insulated

The report was presented to the convention of the society of heating and ventilating engineers, disclosing that the thickness of the "thermal insulating tissues" — or cold weather protection—of women is nearly double that of men. WHY GROW OLD-LOOKING? The dread of "looking old" is a ery real one to women, as my eaders probably know from peronal experience. And the desire o look youthful is equally vivid. Fortunately, there is not one of us but can take years off our appearance, by devoting a little more care to certain vital factors. Here are some points to study in relation to your own appearance.

MOUTH. Lines around the mouth often come from distorted facial habits. Avoid pouting. Apply a touch of rich tissue cream often. Close lips, fill your mouth with air and blow hard. A simple but remarkably effective method to keep mouth lines at bay. EYES. Bright sparkling eyes

Knitting First Was Denounced

portation — First Became Popular In Reign of Good Queen Bess.

The origin of knitting has ofte been disputed. In mediaeval days all hose was made of cloth or skins of animals, and it is generally be lieved that knitting was invented in Scotland during the fifteenth century. Certain it is that knitted stockings found their way to France from Scotland about that time, and became so popular with the knitted by the scotland about that time, and became so popular with the fashionable French ladies that in 1504 a Guild of Stocking Knitters was established in Paris, who chose for their patron the saint Fiacre of Scotland.

Knitted Hose, Curiously Wrought In England knitting was viewed with disfavor, probably on account of its Scottish origin, and it was not until the reign of Queen Elizabeth that it became popular. The Virgin Queen was presented one Christmas with a pair of handknitted black silk stockings, the handiwork of her wardrobe won an, who had learned the art from a Scottish friend. Her royal mistress was so pleased with these nove stockings that from that time she wore no other kind, and her Court ladies followed suit.

The fashion must have sprea rapidly through all classes, for less than iwenty years later, when a foreigner was visiting London dur-ing the reign of James the Second. he was amazed at the craze for knitted stockings, "so curiously wrought, with open seams down the legs, and clocks about the ankles.
