### The **BOOK SHELF** By ELIZABETH EEDY

UNSOLVED MYSTERIES OF THE ARCTIC By Vilhjalmur Stefanss

"The great romance of the Mid-dle Ages was the first crossing of the Atlantic by Europeans, the unveiling of the New World. The great tragedy of the westward ement was the disappearance of 9,000 Europeans from their first American colony. The great mys-tery is how and why they disap-

On such a fascinating note does Stefansson's newest book open. You are interested at once and atay interested till the last page of "Unsolved Mysteries of the Arctic" has been turned. How was the Franklin Arctic expedition lost, and why? What happened to the Russian fliers? (Mr. Stefansson believes they may still be

The author, world-famous Icelandic explorer, (born in Manitoba), seeks to solve these hitherto unanswered questions. More than any other person living today he is qualified for the task. He has spent long years in the Arctic, mapping, exploring, living with the Eskimos.

# USES BOTH HANDS TO WRITE

Letter From a Man of 90 He asks us to excuse his writing. We do more than that-we congratulate him on being able to write at all at his age, especially as he has been suffering from rheumatism. This is what he says

"Three years ago I was in bed for six weeks with inflammatory rheumatism. Since that time I have been taking Kruschen Salts, and have not had another attack. But the complaint left me with in-flamed feet, and it hurt me to walk. My hands were also some-what stiff. I took Kruschen every morning before breakfast, and shall continue to do so, because I am sure they have kept me in good shape for three years. Excuse this writing as I am ninety years old, and use both hands to write."-

The pain and stiffness of rheumatism are often caused by uric Kruschen helps to dissolve and remove excess uric acid in a gentle way through the natural channels. Renewed health and vigour is the result.

Paul Martin, M.P., For Essex East, Urges a System of Scholarships For Brilliant But Needy Canadians.

The government should investigate the desirability of a system of national scholarships for out standing students who are financial ly unable to continue their educa-tion, according to a resolution, sponsored by Paul Martin, Liberal, Essex East, appearing in the House of Commons votes and proceedings.

The scholarships would enable the students to obtain undergrdau ate or post graduate training in universities, agricultural colleges and technical schools.

"Help Brightest Young People" "The important industrial nations of the world are spending large sums annually in scholarship systems to ensure that the most brilliant of their boys and girls may not be prevented, because of a lack f financial resources, from securing adequate academic training to enable them to take their proper place as thoroughly trained leaders in industrial, professional and pub-lic life of their respective coun-

# Great Wealth Of Copper, Iron, Tin

Is To Be Found In The North West Territories — Province of Alberta Wishes to Extend Northward.

Iron, copper and some tin have been found in commercial quanti-ties in the region of Great Bear Lake, Hon. W. A. Fallow, Alberta Minister of Public Works, announced last week at the Alberta Social Credit League annual convention, Mr. Fallow made the announce nent after a discussion of efforts by Premier Aberhart to have Alberta's northern boundary extended northward to the Arctic ocean. Securing of the area and their minerals would bring Alberta every-

thing necessary for establishment of metal industries, he said. "Extension of Alberta's boundaries to include these new sources of great wealth is reasonable because the outlets from these mining areas lie through Alberta-either by way of Athabaska route to Edmonton, or, eventually, by the Hay river route through Peace River and Grande Prairie.

## Home Scarcity Growing Acute

There's a Housing Shortage In Canada of Between 100,000 to 200,000 Dwellings, Says

With Canada at the bottom of the list in construction in com-parison with six other countries and an acute housing shortage of between 100,000 and 200,900 homes existing, there are unlimited possi-bilities for a return to prosperity hy accelerating construction, C. A. Fowler, prominent architect of Halifax, N.S., declared last week. Referring to Canada's status in construction work in comparison with other countries, he cited figures prepared by the League of

I Peter 4:2, 3. 2. That ye no longer should live the rest of your time in the flesh to the lusts of men, but to the will of God. The more continually we submit to the will of God, the less powerful will be the fascination of the things 3. For the time past may suffice

to have wrought the desire of the Gentiles. He pleads here with the desire of the Gentiles. He the desire of the Gentiles. He pleads here with his readers to recognize the fact that they have wasted enough of their lives in fleshy indulgences. And to have walked in lasciviousness. Lusts, winebibbings. Revellings. And abominable idolatries. 4. Wherein they think it strange

that ye run not with them into the same excess of riot, speaking evil of you. Every Christian who is really striving to live a godly life has experienced the laughter and ridicule and mockery of the ungodly world.
5. Who shall give account to

him that is ready to judge the liv-ing and the dead.

World-wide attention being focussed on Hitler's demand for Germany's "lost" colonies, we take a look at 2 map of the Pacific. Here pre-war Germany held German New Guinea, the Bismarck and Solomon Islands, West Samoa, Nauru and scattered islands of the Marshall, Caroline and Marianne groups. Of these Nauru was the most important. It contains a mine of high-grade phosphate which has been developed under mandate.

#### ligious services in big Quebec bas-ilica. The Ursulines will start Sawfly Threat in the heart of Old Quebec and the Augustinians from Hotel Dieu, which they administer. Is Controlled

There Is Hope of Saving Can-ada's Spruce Forests From The Menace Of Its Destruc-Natives of this ancient city, many of the nuns will view scenes vastly transformed curing their years behind convent walls, where no contact with the outside world is permitted.

A reasonable hope now appears of saving the spruce forests from destruction by the European spruce sawfly, the woodlands section of the Canadian Pulp and Paper Aseciation was told at its conver in Montreal last week.

Since it was first discovered in 1930 the insect has damaged thousands of square miles of spruce for Parasites to Combat It

"The only hope of a permanent check to the outbreak still seems to lie in the establishment of ef-fective parasites," said R. E. Blach of the Dominion Entomologica Laboratory at Fredericton. Severa parasites have shown ability to combat the sawfly but study must be made for several years before reliable information is gained of their ability, he said.

"The situation is much more engo," said A. B. Baird of the Dominion parasite laboratory at Belleville, Ont., who told of parasitic work done in Canada, Britain, United States and Europe "With the continued co-operation of all interested parties there appears to be reasonable hope of saving the spruce forests from destruc-

# Get First Sight Of Civilization In Fifty Years

Next Summer For the First Time In Half a Century Quebec Nuns Will See the Outside World.

Cloistered, some of them, for half-a-century, nuns of the Roman Catholic Church's Ursuline and Augustinian orders in Quebec City will see a new and altered world next August when they participate in tercentenary celebrations of North America's oldest hospital —

Hotel Dieu, Quebec.

Kept within convent confines by their own vows, the nuns will re-ceive a special dispensation for the ancient institution's anniversary, to be observed from Aug. 27 to Sept.

In their first public appearance since they forsook the world, the sober-garbed sisters will form a procession and walk through Que-
