Framed in the doorway of the dominion Parliament Buildings at Ottawa, following the solemnly historic ritual within, the King and Queen make a magnificent picture, as the Queen, charmingly dignified, stands at His Majesty's side as he takes the salute during the martial cermeony which followed that in the Senate. Prime Minister Mackenzie King stands farther back in the arched doorway.

Modern Etiquette

BY ROBERTA LEE ************* 1.-What are the superstitions concerning the various days of the week for a wedding?

2.—Is it the proper gesture, in company, when eating or drinking, to keep the little finger prom-3.—What is the birth stone for May, and its significance?
4.—Is it permissible for a girl

to use perfume? 5 .- When dining in a public

place, is one permitted to call to waiter, when wanting anything? 6.—When a man is walking in the rain with a girl who is carrying an umbrella, should be offer Answers:

1.-Wed on Monday, always poor; Tuesday, wed once more; Wednesday, happy match; Thursday, splendid catch; Friday, poorly mated; Saturday, better waited; Sunday, Cupid's wooing; and wed in the morning, quick undo-ing. 2.—No; this is an affected mannerism that one should avoid. 3.-The emerald, which signifies success in love and immortality. 4 .- Yes, if the perfume is good and the scent is faint. Cheap per-fumes and strong scents are often obnoxious. 5.—No. One should e patient until the waiter is nearby, then ask in a low tone. 6.—

Tobacco Hits Record High

Dominion Statistics Put Crop Value at \$20,000,000 For 1938 Output

An all-time high in Canadian to

bacco production was registered in 1938 when a commercial crop of 98,427,900 pounds with a farm value of approximately \$20,000,000 was harvested, the Dominion Bureau of Statistics reports.

This represented an increase of

26.300,000 pounds or 36.5 per cen over the 1937 output estimated at 72.114.000 pounds with a farm value of \$17,000,000.

Increase of 36.5 P. C. As a result of the large crop and heavy stocks carried over from the previous season, prices of flue cured into the 1939-40 season estimated at 8,000,000 to 9,000,000

In the case of burley tobacco, somewhat lower supplies than in the previous year resulted in an average price of 13.8 cents a pound

still unsold and prices probably will average two to three cents lower than prices received for the previous year's crop, the report

All Varieties Increased production in 1938 was evident in all tobacco varieties excepting the small aromatic pipe rarieties, production of which is confined to Quebec.

CELLULOSE FILMS FOR SKIN Substitution of cellulose film for human tissues is described as a "safe" surgical technique by a Virginia surgeon, who reports success in sheathing a severed tendon with the filmy material in such a way that a deformed hand became cally normal again.

Ship Stewardesses Usually Versatile

Selected From Many Walks of Life, Some Are Trained Nurses, Others Linguists, Athletic Instructors or Traveling Companions

It usually requires considerable training in service and hospitality, s well as a good background, to become a stewardess aboard a modern liner. Many of the stewardesses chosen for the new Cunard White Star liner Mauretania have had many years of training in this calling.

In selecting the personnel for

the stewardesses' division in the new Mauretania, only the most skillful of the present generation were selected.

The women chosen come from many walks of life. Some have been trained nurses, linguists, hair dressers, athletic instructors, and traveling companions, but all have

served for years aboard ships of

Cunard White Star. Meet Interesting People It is the duty of stewardesse to make things pleasant for all wo-men passengers, as well as children, during a transatlantic voyage. Other duties include the arrangement of flowers, dusting. making beds, and serving meals in ladies' staterooms.

There is another important service which falls to the stewardesses. They often act as interpreters for passengers from continental Europe. They wear a small flag on their uniform which designates the foreign languages they

Olive Trees Are Very Long-Lived

Some Are Estimated to Be at Least 1,200 Years Old— Product Prized For Food Value and Also as Beautifier

There is romance in a bottle of olive oil, for the trees from which the product comes are among the most long-lived in the world. Some of them are estimated to be 1,200 years old, and what a history of the shaping of world events they could tell if they were able to

Symbol of Peace

Some plantations, such as thos of Terni, in Italy, are supposed to have existed in the time of Pliny, and rival giant California redwood trees in point of age. The olive has been cultivated in the East from most remote times, is associated with much mythical lore, and its branches have come to be sym-bolic of peace and plenty, and the highest award, paradoxically enough, that could be granted for bravery and honor. The tree is largely cultivated in Greece, An-atolia, Levant, Morocco, Tripoli, Spain, France and Italy. It grows

s well in Chile, Mexico and Cas. The oil of the tree is valued as great beautifier and is included a great number of tollet preparations. ations. It is even more highly pri-ed as a base for salad dressian

FISH AIRS The external oxygen supply determines the ability of fish to live in certain waters, which account for the reason why each species of fresh water fish tends to occupy only a particular region of the lakes and rivers and why their

haunts vary with the season.
"We find that the ability of the fish to utilize oxygen in the water is influenced by the amount of carbon dioxide in the water," three scientists from the Edward Martin Biological Laboratory of Swarthmore, Pennsylvania, told a recent meeting in Toronto of the Federation of American Societies for Ex-

perimental Biology.

The three biologists, Laurence Irving, Edgar C. Black and V. Saf-ford, reported that "each species of fish has its own characteristic tol erance and the species may be arranged in regular order beginning with the trout as the most sensitive, following with the sucker, perch, sunfish, chain pickerel, bass, shiner, carp, eel and catfish. This other valuable products are obtainsuggests that the external oxygen supply determines the ability of

Canada Trains R. A. F. Pilots

Mackenzie Tells House 15 Are Given Courses Each Year

Fifteen pilots are partially trained each year in Canada for the Royal Air Force, Defense Minister Mackenzie said in a statement last week at Ottawa amplifying his recent anouncement of an agreement with the United Kingdom Government for the full training in Canada of 50 pilots a

year.
Are Taking On Britishers The first course under the par-tial training plan was held from January to October, 1938. The graduating officers received their pilot's flying badge and proceed-ed to England to continue advanced training and to take their place in flying squadrons. The second course began last January and will

end this autumn.

In addition, many Canadians were medically examined and selected by the Royal Canadian Air sions in the Royal Air Force in 1937 and 1938, the latter year seeing 118 go overseas.

The 50 British pilots to be traincd yearly will receive the inter-mediate stage of their training at

Camp Borden, Ont., and the ad-

A great deal is being heard just now about the Rumanian oil wells. It is interesting to know something about the country and the product. Rumania, which was formed as an independent country from two Turkish provinces in 1861, became a kingdom 20 years later. Its people are very mixed, including Gipsies, Slavs and Germans, but the majority are Rumanians.

The oil wells, which are exceedingly valuable, produce about 7,-000,000 tons of oil a year. Ancient seas it is thought, ebbed and flowed across the lands where oil is found, leaving at each move-

ment deposits of animal and vegetable matter, with a great deal of This organic matter, being sealed up for ages, decomposed slowly, till at last it became the petroleum oil which is now so much sought after, and from which gasoline and

the fish to live in certain water. Men Folk Serve Tea At Church
