"I know shouldn't be showing you how crazy I am about you by calling up and coming here. But that's the way I am. Honest, Which is more than I can say for some people we both know." Before Marlie could catch his

STRAWBERRY TIME "Strawberry Time" again-what elcome news! And the moment we hear this announcement our palate longs for the first taste of trawberries and cream-and by that I mean "Cream," real oldfashioned cream. Having appeased this appetite for the moment with that ambrosial, sun-sweet ened and luscious fruit, we next iong for strawberry shortcake. If real shortcake is your desire, must be none other than the rich biscuit dough—none of the layer cakes and sponges please. Two other things must be remembered, if you are to have this a genuine product. It must be "short." Plenty of shortening must be used the foky biscuit, and then cream and plenty of it. If you wish the shortcake as your grandther used to make it, the cream will be a generous supply of pouring cream, but much favor is given the sweetened whipping cream, which has a very elegan bearing. Eggs are not necessary to your dough, but do add rich-

FOR MEN OF GOOD WILL We do not pretend to be an eco-nomist, but we have a foolish idea that no one country can solve the woes of today. It is a world condition. Until the world settles down to peace, cuts down the mad armament race, and nations trade again with one another and forget ultra-nationalism, there cannot be a solution of all our difficulties. This does not mean that we should not try to place our own house in order as far as possible. We should. But we should at the same time be prepared to co-operate to the uttermost with other democratic nations in restoring world sanity.—London Free Press
