

This composite photograph, made up of an artist's drawing and an actual photograph of rescue vessels, graphically illustrates the desperate, but vain, attempts of salvage crews to rescue the 99 men entombed in the sunken British submarine, Thetis, which sank to the bottom of the Irish Sea while on a trial run. Four men aboard the ill-fated craft succeeded in escaping by using the Davis lung.

Hysteria Reigns As Refugees' Ship Driven From Cuba

Refused permission to land 915 Jewish refugees from Germany at Havana, Cuba, the Hamburg-America liner St. Louis sailed from Cuba to truise in the Carribbean until some other port was made available for the landing of the refugees. Failing this the liner sailed back to Germany with its cargo of human misery. Many of the women refugees became hysterical as the St. Louis sailed from Havana and had to be restrained from throwing themselves overboard. They would rather jump into the sea than return to Germany.

Q .- Would you please tell me if it would do any good to put hardwood ashes (sifted) on my lawn, as the grass is rather poor owing to sandy soil, also would it do to put around dahlia roots?— K.W.—York County.

A .- As to applying Hardwood Ashes to your lawn, this will mean an application of Potash and Lime. If you like a fair amount of Clo ver in your lawn, it will be quite good, however, if the soil is slight-ly acid which I surmise it might be from your description, an appli-cation of Hardwood Ashes would sweeten it up and make it a more desirable location for valuable

grasses and clover.
As to putting hardwood ashes around dahlia bulbs, records show that dahlias thrive in a slightly acid to neutral soil. If your soil is sugntly acid, then the addition of hardwood ashes will correct the condition since they carry 30% lime. The potash in wood ashes will help the formation of starch in dahlia roots wheih is also de Q .- Could you please tell me i

IN ITS SETTING The First Epistle to Tibetween Paul's first sonments in Rome 14-66. The Second Ep rimothy was written just ore Paul's martyrdom We are not quite sure of me he wrote the Epistle to obably about A.D. 62. these epistles were Rome. The Epistles to were probably sent to us; the Epistle to Titus was o Crete; the Epistle to Philewas seat to Colossae.

Young Soldier of Christ considering some of the Paul's two letters to Tiill be profitable for us utstanding facts re he life and work of this ung soldier of Christ. It seems that Timothy was born Derbe or Lystra, his father beeek, his mother Eunice a ion Jewess. It would appear urney found in Lystra, some his surprise, this highly ned believer, and, discerning him and apt pupil and a promg helper, he had him set apart the presbytery for the labour an evangelist.

The three most powerful incents to holy living which can exere a Christian are those which ues to emphasize to Tithy as he writes him this urglofty letter, namely he fact that Christ has come and ved us from our sins, the fact hat we are appointed by him to be omen of God, and the t that Christ is coming back ag-; the power of a finished rethe power of a holy caland the power of a glorious rist Jesus through the will of

What Paul urges Timothy to do is to hold fast nd never swerve from the great. eep, unchangeable, undeniable ths concerning Christ and his lvation. We may allow differencin secondary matters, but we must never move from the founda-

on truths of our faith. Titus and Timothy were clos ssociated as companions and helpers of Paul. Timothy was sensitive and affectionate, also sympathetic and dependent. Titus reveals more of energy, vigor, of discretion, and of decision. Titus appears first in al, 2:1, where Paul remarks that when he went up to Jerusalem with Barnabas from Antioch, togethe with his adopted son, Timothy, and at Titus remained with him dur ing his three years of ministry in Ephesus. It was he whom Paul sen to Corinth with the First Epistle

to the Corinthians.
All that we know of Philemo we know from the short letter. We may fairly assume that he was a native and inhabitant of Colossae, where his son lived and labored; that he was brought to Christ by St. Paul (v. 19). The object of the letter to Philemon is explained by its contents. Onesimus, a slave of Philemon, had run away from his master and found his way to the city of Rome.

During their visit with President and Mrs. Franklin D. Roosevelt at Hyde Park, the King and Queen attended divine service at St. James Episcopal church, RIGHT. Rev. Frank R. Wilson, paster of the church, is shown, LEFT, pointing to the pew that was occupied by Their Majesties.

CULTIVATION Cultivation not only kills weeds, which disfigure beds of flowers and vegetables and rob these respect-able things of moisture and food, but it also keeps soil open so that it will remain sweet and absorb ecessary chemicals from the air Bacterial action beneath is also as-

While a small hoe is almost an essential implement there are to-day other things which will relieve much of the drudgery which the hoe still represents in the eye of the growing country boy. A little three fingered wire cultivator will work wonders around and under growing flowers and vegetables. A Dutch hoe which is shoved along about an inch under the soil will cultivate a hundred feet or so of perennial bed in thirty minutes.

For vegetable rows, there are small cultivators pushed by hand which will cultivate a plot 100 by 50 in well under an hour and these can be procured in larger size for horse or tractor.

CAN START YET

Even in the warmer sections of Canada it is still possible to have a splendid garden. There are plenty of things to plant which will come on quickly. Experienced gardeners in recent years have been purposely holding back a portion of lettuce, spinach, carrot and other vegetable seeds so that the narvesting season may be extended just that much longer.

Early June is the ideal time in

most of Canada to plant seed of those hot weather things like melon, cucumber, medium or late corn and beans. It is not safe in many districts to set out celery, tomato, cabbage and pepper plants

5. Hearing of thy love, and of the faith which thou hast toward the Lord Jesus, and toward all the saints. The love was displayed towards the Chris the faith towards the Lord Jesus Christ; but they are so knit together where they truff exist that St. Paul speaks of them both as exhibited alike towards Christ and towards his church. 6. That the fellowship of thy own

faith may become effectual, in the knowledge of every good thing that is in you, unto Christ. 7. For I had much joy and comfort in thy love, because the very hearts of the saints have been refreshed through thee, brother.

The apostle now proceeds to ask his friend to take back into his household the slave Onesimus. He asks Philemon to do this for a number of reasons.
21. Having confidence in thine obedience I write unto thee, knowing that thou wilt do even beyond

what I say, 22. But withal prepare me also a lodging; for I hope that through your prayers I shall be granted unto you. These words indicate Paul's hope that he would

HowYou May Reduce

The world progresses. Today many minor ailments that took weeks to overcome can be helped much more quickly. If you have varicose veins or bunches, start today to bring them back to normal size and if you are wise you will do so.

Just get an original bottle of Moone's Emerald Oil at any dispussing pharmacist and apply it night and morning to the enlarged veins. In a short time the veins should begin to grow smaller and by regular use soon approach normal.

People who want to reduce varicose veins or swellings, should not hesitate to try a bottle at once. It is so penetrating and economical that a small bottle lasts a long time.
