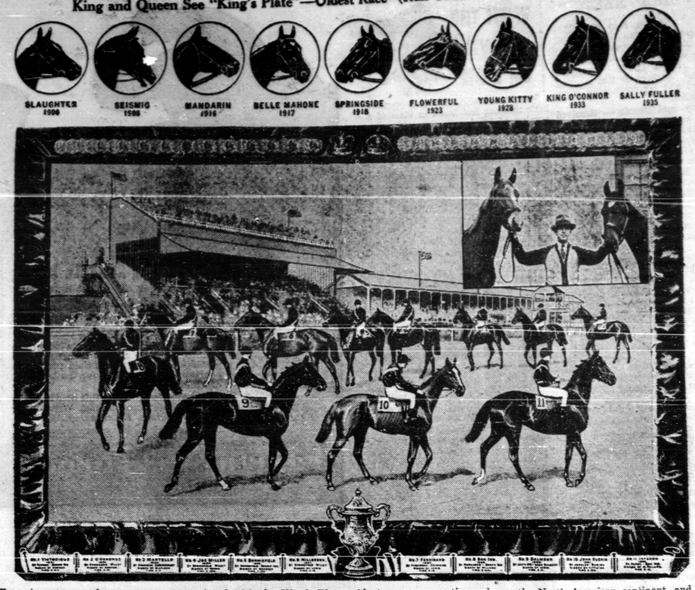
King and Queen See "King's Plate"—Oldest Race (Run Continuously) On This Continent



There is no more glamorous name associated with the King's Plate, oldest race run continuously on the North American continent, and which had its eightieth running at Woodbine, Toronto, on May 22, than that of Seagram. And this year, Their Majesties the King and Queen, watched the famous race. Tales of Seagram triumphs in this race reach back to the storied past and to the more leisurely age of Victorian times, an age of fair women, fast horses and the placid contentment of the countryside. Since 1891 when Victorious, the aptly named Seagram steed, set the family star in the ascendant, Seagrams have won the Plate 20 times. Twenty winners under the colors of one family is a truly remarkable record and one that is expected to endure for all time. In the above photograph are seen the 20 victors, and inset, Saragossa (left) and Gold Fawn (right) entries in the Plate this year. At the top, under the circled heads is a reproduction of 50 guineas annually donated by the King to the winning owner.

Modern Etiquette

BY ROBERTA LEE

1. How can a person overcome the habit of saying tactless things without thinking?

2. Is it considered good form for a bridegroom to kiss his bride, following the ceremony at a church?

3. When a girl of eighteen is introduced to a woman of forty, or older, is it necessary for the girl to rise?

4. When one has been invited to a party, or other affair, and after accepting he contracts a severe cold, what should he do?

5. Shouldn't a motorist be just as courteous on the road as he is at some social function?

6. What is the difference between the formal and informal tea?

ANSWERS

1. Think twice before you speak. "A word and a stone once let go cannot be recalled," and a person with this habit should train himself to hesitate before speaking, until this practice is broken.

2. No. But it is all right at a home wedding.

3. Yes, it is the courteous thing to do.

4. Phone the hostess and express how sorry you are that you cannot come, but do not go.

5. If there is any distinction, he should be more alert and courteous as safety is a factor.

6. The decorations of the informal tea are not so elaborate and the refreshments are more simple. The hostess at an informal affair also mingles with her guests and does not remain at the door to greet each newcomer.

Royalty Tastes Buffalo Steaks

Choice Dish Is Served At One of the Meals on the Royal Train.

The meat of the buffalo, once the principal fare of pioneer plainsmen, is a popular repast with many Canadians who like extra flavor and novelty in their meals. Tasty buffalo steaks were served at one of the meals on the Royal train according to the Department of Resources, Ottawa, which maintains great herds of these animals in two national parks in Western Canada.

Described as the noblest ruminant that ever trod the earth, the buffalo was at one time nearly extinct, but the establishment of herds in Buffalo and Elk Island National Parks saved them from this fate. To-day it is necessary to reduce the herds at regular intervals to keep them within the carrying capacity of the park pastures, and from time to time periodic slaughters are carried out by contract under government supervision.

SCOUTING

One of the outstanding events at the big annual Parents' Night of the 1st Merrilton, Ont., Scout Group held at the Merrilton Town Hall, was the investing of the Troop's two first King's Scouts. The impressive reaffirmation of the Scout Promise and the "knighting" of the two young candidates with a stroke of the Scout staff.

A Boy Scout Day at the New York World's Fair has been announced for Thursday, June 29. All Scouts and Scouters in uniform will throughout that day be admitted to the fair at the special admission of 25 cents. A great gathering of Scouts is expected similar to the record attendance of Scout Day at Chicago's Century of Progress Exposition in 1933.

The world's largest Boy Scout, Iread Lovendusky, of Force, Pa., is dead. He weighed 527 pounds.

Twelve years ago Scoutmaster Irving Hart organized a Scout Troop among the boys of the Leper Colony of San Lazaro, Philippine Islands. Today there are seven Troops, a Wolf Cub Pack and a Sea Scout "ship", and the Scoutmaster has become the District Field Commissioner. Not only has Scouting greatly improved the whole tone of the leper community, but has contributed to the complete recovery of a number of the young patients. This was achieved through the development of a new, cheerful attitude, in place of depression, and a Scout's readiness to follow the prescribed course of treatment.

Eloquence is the child of knowledge. When a mind is full, like a wholesome river, it is also clear. —Beaconsfield.

What Science is Doing

MIND'S CLOCK TURNED BACK

Brain specialists can now turn the mental clock back to childhood to treat mental disease.

The effect of the treatment, which is carried on under hypnosis, is to put the mind in reverse, re-orient it from the time it began going bad, and start it over again in normal channels.

SHORT WAVES POP CORN

Short radio waves can be used to pop corn, as well as to send messages and treat persons who are ill, Charles Milliken, graduate electrical engineer at the California Institute of Technology, proved in a demonstration.

Milliken popped the corn right in the bag, but used a transparent one of cellulose so the popping process would be visible.

RHEUMATIC ACHES

have been curbed by URICONES

Sufferers who have taken a few doses of "Uricones" have been gratified as the relief secured. Rheumatic Aches, Arthritis, Lumbago, Gout, Sciatica, Neuritis, Fibrositis and similar complaints—all have been helped by "Uricones", a reliable remedy for Rheumatic suffering in the pain zones indicated in the diagram. Excess acid in the system is very frequently the cause of suffering. "Uricones" help to free the blood-stream of these pain-causing excess acids, working to rectify a condition that is so frequently the cause of rheumatic aches and pains. The results secured with "Uricones" have won for them the confidence of many Rheumatic sufferers. Nor-you are invited to try "Uricones" without cost or obligation.

FREE TRIAL Whether your complaint be Rheumatism, Arthritis, Gout, Lumbago, Neuritis, Fibrositis or Sciatica, there is new hope for you in "Uricones". Put it to the test. Fill in and mail the coupon below and a free sample treatment will go to you together with a booklet of vital interest to all rheumatic sufferers.

To HAROLD A. SMALLMAN,
Manufacturer and Importer Dept. 127—1
4124 St. Catherine St. W., Montreal, P.Q.

Please send FREE and post paid a Trial Supply of "Uricones" with booklet on HOW and WHY they help overcome Rheumatic and allied ailments.

Have You Heard ?

Two boys were teaching a friend to ride a bicycle. After helping him on to the saddle they pushed him off downhill. As he did not return they went in search of him. Meeting an old lady, they asked her if she had seen a boy on a bicycle.

"No," was the reply. "I've not seen anyone except a boy sitting in a ditch mending umbrellas."

One rather admires the ingenuity of the Persian husband, who, when told by his wife to help with the spring-cleaning, got hold of the household magic carpet and beat it.

A young officer returning from leave abroad was about to take his place in an air-liner when a girl ran up and asked the passengers if any one of them would be kind enough to sell her his seat as her mother was dangerously ill and the liner was full up.

The young officer gave up his seat and wired his C.O.: "Given berth to girl. Returning by next 'plane."

The reply he received ran: "Congratulations. Your next confinement will be in barracks."

Hubby (arriving at 3.00 a.m.): "Bet you don't know where I've been?"

Wife: "I do, but go ahead with your story."

College Student (writing home): "Say, how do you spell 'financially'?"

Room-mate: "F i n a n c i a l l y' and there are two r's in 'embarrassed'."

"Our civilization, with its democratic ideal, is based on ideologies of the eighteenth century."—Alexis Carrel.

Higher Mines Tax To Benefit North

Municipal Revenues Increased By $175,000 or More

The Town of Timmins this year should receive $25,000 in [illegible] added tax revenues because of measure to amend the Assessment Act, which came before the Ontario Legislature, Mines Minister Paul Leduc estimated.

Mr. Leduc predicted Timmins, Teok Township and Tisdale Township, in which are located many Ontario's profit-making gold mines, would together receive $175,000 more this year from the tax on mine profits.

"The bill is an effort to help municipalities, and it will affect only mines with profits, determined by the mine assessors and the Mining Tax Act, of $1,000 or more," said the Minister.

ARMS USELESS ON A WET DAY

Here is a noteworthy [illegible] of the manner in which the weather can affect the [illegible] one who is subject to rheumatic pains.

"I had been suffering from rheumatism very badly," a reader writes, "and had such pains in my joints that I could hardly walk, and I was hardly able to move. I tried two different remedies, but I was still as bad after the treatment.

"Then I was told to try Kruschen Salts, which quickly brought relief. So of course I have stuck on with it, and I am now much better and have never felt so well for years. I used to feel so miserable and sluggish, but now I take pleasure to be able to work. S.B.

The pains and stiffness of rheumatism are often caused by uric acid crystals in the muscles and joints. The tiny doses of Kruschen assist in stimulating the internal organs to healthy, regular activity, and help them to eliminate excess uric acid.

Made and sold England for 50 years.

Sunday School Lesson

LESSON IX

PAUL THINKS IN WORLD TERMS

Romans 1: 1-17; 3:21-30; 5:1-11; 10:11-15.

Printed Text, Romans 1:1-17

Golden Text: "I am not ashamed of the gospel: for it is the power of God unto salvation to every one that believeth." Rom. 1:16.

The Lesson In Its Setting

Time — Early in A.D. 58.

Place — Paul wrote this letter to the capital of the world from the city of Corinth where he was staying in the home of a wealthy Christian named Gaius (Rom. 16:23).

1. Paul, a servant of Jesus Christ called to be an apostle, separated unto the gospel of God. Paul was a freed-man as far as his political relation to the Roman Empire was concerned, but Paul proudly boasted that he would ask for nothing more than to be a slave of the Lord Jesus.

2. Which he promised afore and through his prophets in the holy scriptures.

3. Concerning his Son. No cult or religion on the earth to-day has any message from God for man unless it honours and exalts and recognizes as supreme in every way the Son of God. Who was born of the seed of David according to the flesh. Christ existed from eternity, but he came in a body of our flesh, in the line of David, that is, in a family that could trace its ancestry back to David (Matt. 1:1; 2 Tim. 2:8; Rev. 22:16). Coming in our flesh, Christ became one man.

True Son of God

4. Who was declared to be the Son of God with power, according to the spirit of holiness, by the resurrection from the dead; even Jesus Christ our Lord. Christ always was the Son of God, but in the days of flesh which he took to himself the Jewish people for the most part refused to recognize him as the Son of God. His rising from the dead set him forth indisputably without any possibility of contradiction, as God's Son and none other.

5. Through whom we received grace and apostleship, unto obedience of faith among all the nations, for his name's sake. The delight of the apostleship was to bring all nations so to believe in Christ, the Son of God, that they should be entirely devoted to his service.

6. Among whom are ye also, called to be Jesus Christ's: 7. to all that are in Rome, beloved of God, called to be saints; Grace to you and peace from God our Father and Lord Jesus Christ.

The apostle Paul now assumes a more personal tone, and addresses himself in an intimate way to the Christians who made up the holy church at Rome.

Early Christian Faith

8. First, I thank my God through Jesus Christ for you all, that your faith is proclaimed throughout the whole world. 9. For God is my witness, whom I serve in my spirit in the gospel of his Son, how unceasingly I make mention of you, always in my prayers 10. making request, if by any means now at length I may be prospered by the will of God to come unto you. 11. For I long to see you, that I may impart unto you some spiritual gift to the end ye may be established. 12. that is, that I with you may be comforted in you, each of us by the other's faith, both yours and mine. 13. And I would not have you ignorant, brethren, that oftentimes I purposed to come unto you (and was hindered hitherto), that I may have some fruit in you also, even as in the rest of the Gentiles. The Christian faith in the early days of its propagation was carried by the apostles and their disciples first to the great cities of the Roman Empire. From Rome lines of communication radiated to every place of importance in the entire known world. If a strong church could be established in this great city, the apostle knew that the very heart of the empire would be sooner or later pumping the life-blood of the gospel into the veins of the whole body of Roman civilization.

14. I am debtor both to Greeks and to Barbarians, both to the wise and to the foolish.

15. So, as much as in me is, I am ready to preach the gospel to you also that are in Rome.

A Message For Rome

16. For I am not ashamed of the gospel; for it is the power of God unto salvation to every one that believeth; to the Jew first, and also to the Greek. 17. For therein is revealed a righteousness of God from faith unto faith; as it is written, But the righteous shall live by the faith. Rome knew the power of pleasure to enslave men, but until the gospel came she never knew what a power that would set men free from sin. Rome knew the power of death which brought even the very greatest men down to a grave and to dust: but until the gospel came Rome never knew of a power that would deliver men from death into the glory of the resurrection. This is what Paul longed to bring to this great metropolis, a gospel which was the very power of God to save men from sin.

Queen Mary Looks After Her Grandchildren

Taking charge of Princess Elizabeth, CENTRE, and Princess Margaret Rose during the absence of their royal parents in Canada, Queen Mary is shown here with her grandchildren at the miniature airport of the miniature village at Beaconsfield, Bucks, England.

RADIO NOTES AND NEWS

500TH BROADCAST

An event happened last week which deserves to be recorded as a milestone in radio history. Rudy Vallee did the 500th broadcast of his Varieties and made a reunion of it. In this he was aided by Lionel Barrymore and two of his distinguished graduates, Edgar Bergen and Charlie McCarthy.

Vallee instituted his Varieties on October 24, 1929. The following week he introduced his first guest, the Grand Duchess Marie of Russia whom he questioned in an improvised studio located in the basement of the Paramount Theatre in Brooklyn.

Vallee also discovered Frances Langford, one of the more successful popular singers on the air. And then there was Bob Burns who first trundled his bazooka and his homely philosophy to Vallee's Hour.

Group Theatre on Kate Smith's Hour ..... 9 p.m., NBC & CBC—Good News of 1939 ..... 10 p.m., NBC & CBC—Bing Crosby and Bob Burns .....

How Can I?

BY ANNE ASHLEY

Q.—How can I induce sleep?

A.—Try eating a thin slice of bread and butter with a little cayenne pepper sprinkled on it. Have plenty of fresh air in the room, and make a genuine effort to relax every muscle of the body.

Q.—How can I clean linen shades?

A.—They should be laid flat over a table and washed with warm suds and a sponge. Wipe off with clean, clean water then hang unrolled until dry.

Q.—How can I prevent meringue from falling?

A.—Meringue will fall if the oven is too hot. To be successful when making it, have a very moderate oven.

Q.—How can I remove scratches from wood that have been made by striking matches?

A.—First rub the marks with a cut lemon, and then with a damp cloth and a little whiting. Rinse and polish with a soft cloth.

Q.—How can I make a good padding for the ironing board?

A.—An old discarded blanket tacked securely to the ironing board, then covered with a piece of unbleached muslin, makes an excellent ironing surface.

"Character-building must be made to fit the day of the automobile and the radio."—Alfred M. Landon.

GARDENING

(By SADIE B. CHAMBERS)

For a real glamour of health and color scheme, planning your garden with care will pay the biggest dividends in the Autumn. First see to it, that your rhubarb bed is in good condition. Spring spells more than spring bonnets, new clothes and budding trees. Whisper in the gardener's ear, that you wish to have just oodles of mint, parsley and other lovely greens. Tell him to get ready his hoe, sharpen his spade and to be most liberal in the planting of spinach, lettuce and all leafy vegetables. Do not forget, that beets and carrots are just running over with iron, calcium and phosphorous and many other things we humans are supposed to have. These roots are meant for more than just to put away in the Fall. Of course have enough to store away too, but ever keep in mind they have an important value for immediate use. If your space is limited, cut down on the potato patch a bit; potatoes will be easier to purchase. Never miss an opportunity to buy watercress on the market, or best of all, try and make at least one picnic a day searching for it. You will be amply repaid for your effort. This sprightly little product has more than a decorative quality, its vitamin content is invaluable.

SPREAD OUT SOWINGS

Experts not only caution against too early sowing of vegetables, but they also advise not to stop too soon. There is no reason why the plantings cannot be continued in most parts of Canada right through until July. This will spread the harvesting season over an equally long period with vegetables always fresh just coming to maturity.

Beginners are advised to divide their seed into at least three parts, sowing a third as soon as weather permits, a third a little later, and the balance at the very tail-end of the planting season, In this way if frost does cut down the first batch there will be more seedlings coming on.

A GREEN OR BROWN WINDOW BOX

Such a box overflowing with the gaily blooming flowers is within the range of almost every person. Lack of ground space does not matter. Even the lofty apartment dweller is able to satisfy a gardening ambition. Success is easily obtained provided two or three points are kept in mind. This sort of gardening is highly intensive with many more plants to the square foot than would be grown under ordinary conditions. This means that very rich soil should be used and, in addition, a fairly frequent application of chemical fertilizer during the season. Being exposed on all sides to drying winds, a thorough watering once a day of the window box is advised.

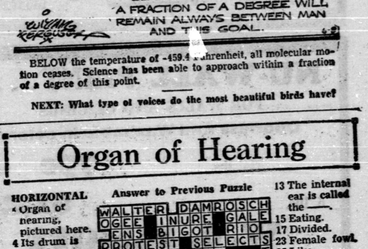
IN USING FERTILIZER

Care should be taken in the use of any commercial fertilizer that it does not actually touch roots or foliage. In the dry state it is liable to burn. Authorities usually play safe and dissolve the fertilizer in water before applying.

Scholar Gangsters

A big Philadelphia school in which boy gangsters rob pupils and terrorize teachers has been placed under police protection. Whimpering pupils told how a gang of older boys demanded money as protection from torture, thefts of lunches, and branding. They told of "torture sessions" when boy gangsters punished squealers and those who failed to pay tribute to the racket. Teachers are said to have been "too frightened to do anything about it."

THIS CURIOUS WORLD By William Ferguson



BELOW the temperature of -459.4° Fahrenheit, all molecular motion ceases. Science has been able to approach within a fraction of a degree of this point.

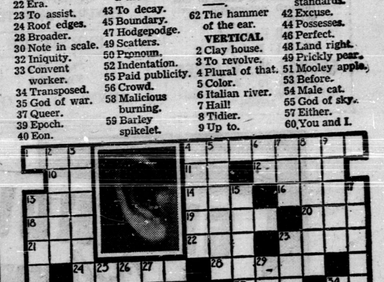
Answer to Previous Puzzle



Ma!

I got my name in the paper!

Only Newspapers bring the news of vital interest to you

Headlines may scream of death and disaster without causing you to raise an eyebrow. But if your son gets his name in the paper—that's real news!

It isn't by accident that this paper prints so many stories which vitally interest you and your neighbors. News of remote places is stated briefly and interpreted. Local news is covered fully, because all good editors know that the news which interests the readers most is news about themselves.

Now is a good time to learn more about this newspaper which is made especially for you. Just for fun ask yourself this question: How could we get along without newspapers?
