If M. Duplessis is defeated a the polls October 25, it will mean that the people of Quebec believed his talk of "provincial rights," federal "tyranny", coming con-scription, to be just catch-words smoke-screen to cover the machinations of a regime said to be financially and politically bank-

Climbing on the Band-Wagon If M. Duplessis' government is returned to office, we will have evidence that he has made suc-cessful capital out of French-Canparticipate in war and its fear o osing power to the Dominion Gov ernment. As Jean-Charles Harvey's French-speaking weekly "Le Jour" expressed it: "There will rally to M. Duplessis' side a crowd of political adventurers of every shade — separatist, Anglophobe isolationtist, Laurentianist, sectar ian, all the ragtag and bobtail of last-ditch nationalism in Quebec.

In Bad Financial Shape M. Duplessis' calling of an elec-tion at this stressful time in Canadian life is branded by Federal Minister of Justice Lapointe a "an act of national sabotage"against Canadian unity. Mr. Lapointe does not hesitate to say that the true reason of this election is unfortunate financial situation in which the Quebec Government finds itself. "They have spent Pro-vincial funds like drunken sailors," he says. (The funded debt of the \$149.748.000 on June 30, 1936, to \$285,000,576 on March 31 last). Mr. Lapointe infers that there are many millions of dollars in unpaid warrants in the hands of contractors for Provincial works who have not vet been paid in cash.

Into Federal Arena This provincial struggle in Que-bec has been carried into the fedcrai arena by members of Prime Minister King's Cabinet who have been campaigning against M. Du-plessis. Mr. Lapointe has stated hat an election victory for the Union Nationale Government in Quebec would be his cue, and that of the other Quebec Ministers, to retire from the Federal Govern-

If M. Duplessis is to be defeated, there will have to be a big turnover of seats in Quebec's Legislative Assembly. The Opposition at the moment consists of only 17 men out of a total of 90 legislaseparate political parties First, the official Liberals, survivors of the Taschereau regime led M. Adelard Godbout; second, he Action Liberale Nationale, Liberals who are very much op posed to war participation, headed by M. Paul Gouin: thirdly, the very small National party.

The eyes of all Caraca are turned on Quebec. October 25 may mark a turning point not only in the history of Quebec, but in the affairs of the Dominion as well.

War Increases **Retail Prices**

Costs of Commodities in Great War Days Are Recalled

Immediate large increases in the Canadian cost of living as a result of the war are not likely, if the experience of the 1914-18 period is valid for present conditions, says the Woodstock Sentinel-Review. It is true that during the previous war years retail prices of all commodities moved steadily upward, reaching a peak in 1920, when a sharp decline set in. For the early years of the war, however, the rise was not much greater than that which would have taken place as a result of a general stimulation of business activity in peace-time.

Doubled Between 1913 and 1920 In 1913, the general index of retail prices was 65.4. It rose to 66.0 in 1914, 67.3 in 1915, 72.5 in 1916, 85 6 in 1917 and 97.4 in 1918. In 1920 it reached the high point of

The retail index of food prices rose from 66.2 in 1913 to 114.6 in 1918 and continued to rise to 141.1 in 1920. The c' thing index also rose steeply from 63.3 in 1913 to 109 5 in 1918 and 153.2 in 1920. In both these cases the rise was not abnormally large in the early war

The index of fuel prices declined slightly in the first two years of the war, from 65.8 in 1913 to 63.2 in 1915. It rose to 78.9 in 1918 and reached its peak of 109.2 in 1921.

Ontario Government Opens Aircraft Training School at Galt

In a converted foundry at Galt, Ont., two hundred youths ranging in age from 18 to 25 have commenced their training period to qualify as ground crews for the R.C.A.F., as the Ontario government's six-month aircraft training school was officially opened by Hon. N. O. Hipel and Hon. Dr. L. J. Simpson. An instructor is shown, LEFT, explaining the fine points of propeller construction to a group of eager sutdents, while another group, UFFER RIGHT, are being shown the intricacies of a modern airplane engine. Hon. Dr. L. J. Simpson, minister of education, is shown, LOWER RIGHT, examining a milling machine.

Farm Forum

WAR MEASURES ACT AND FARM FORUM

In Canada the War Measur Act is in force again, and under its authority there has been created in Ottawa an agricultural supplies committee the purpos whereof is "to keep agricultur functioning in a manner which will supply the food and fibre needs of the people of Carada and their Allies in the war during the period of the war and to leave the farmer, as far as possible, in a position to follow his natural peace-time pursuits at the end of

To Promote Higher Quality Special sub-committees, aide by advisory boards, have been appointed to deal with farm pro-ducts, the purchase and distribu-tion of feeds, seeds, fertilizers, in The chief aim on the part of the government, says B. Leslie Emslie, well-known Canadian chemist-agronomist, wi be the promotion of higher quality in farm produce, be it grain, canning crops, meat or milk, and advice will be d' minated freely

on fertilizers, insecticides, seed fungicides, feeds and mineral supplements for livestock, etc. Profiteering will be prevented and the

Tending Towards Treeless Canada?

We Cut and Burn and Make Practically No Effort to Replace Our Forests

An average of a million trees a week were planted in Great Britain last year, the Forestry Commission have more than a million acres under control with a staff lefinitely looking after it, says the Niagara Falls Review.

In the handling of our forest re-

sources Canadians will be classed as fools by future generations. We cut and burn, and make practically no effort to replace. Nature, given a half chance, does pretty well, but there is the rub. We don't give nature a break. We by carelessness or vicious intent send fire through young and old forests and burn more than we use

Profit By China's Example Canada will be compelled to take an advance step in forest protection and development. Otherwise we head for conditions in Chinaa land of floods, drouth and poverty. With China's example befor us, we have little excuse.

Books And You ELIZABETH EEDY

"BACK ROADS"

This is the story of a country doctor, Ezra Winters of the gallant heart. Every community has at one time known a man like him. He knows that his people need him and when they call, he goes regardless of the size of the fee expected.

When Caleb Densey's third wife -who was incurably ill-dies, Caleb hires a young physician to come to Hillsborough, and threatens the citizens of Hillsborough who are in debt to him if they consult Ezra and not his imported protege. He spreads gossip and even manages to destroy some of Dr. Winter's property. But Ezra gains the admiration and support of a wealthy and influential girl, who pledged herself to help the man who has been so generous and kind to her. Ezra, firm in the knowledge of his duty, loved by a few loyal supporters, defies Caleb, reating a poignant and dramatic

Katharine Haviland-Taylor portrays country people and customs with a tolerance and love that shows how deeply sympathetic is her knowledge of them. "Back Roads" . . . by Katharine Haviland-Taylor . . . Toronto: J. B. Lippincott, 215 Victoria Street, ... \$2.75.

IF YOU ARE GOING GUNNING

There will be thousands of gun-

ers in Ontario this fall who will

go into the hunting field in pur-

uit of their favourite game. Near

y all of them are safe gunners.

But in order to bring to the attention of everyone and in the

interest of making and keeping gunning a safe sport, a set of rules

has been drawn up known as "The Ten Commandments of Safety."

These have been devised after

studies by sporting arms experts,

game officials, outdoor editors and

others. They are believed to cov

er every essential safety observ-

ance which a gunner should obey.

Ten Commandment

First Commandment: Treat ev-ery gun with the respect due to a

loaded gun. This is the cardinal

Second Commandment: Carry

Third Commandment: Always be

only empty guns, taken down or

with the action open, into your

sure that the barrel and action are

clear of obstructions.
Fourth Commandment: Always

carry your gun so that you can

control the direction of the muzzle

Fifth Commandment: Be sure of

your target before you pull the

trigger. Sixth Commandment: Neve

point a gun at anything you do not want to shoot.

Seventh Commandment: Never

leave your gun unattended unless

Eighth Commandment: Never

Ninth Commandment: Never

shoot at a flat, hard surface or

Tenth Commandment: Do not

UTDOORS

While we keep our attention fixed on more spectacular things, one of the greatest public works projects ever devised by human peings is slowly coming nearer to completion. This is the great moor highway which will some day link Alaska with Argentina and provide a smooth and up-to-date roadway for tourists all the way up and down the two American continents. It will be 15,000 miles long when completed. Of this length, some 8,500 miles will be north of the Panama Canal; and it is noteworthy that all but a comparatively small portion of this North American section is now passable for automobiles.-Guelph

A plan for nation-wide identification of dogs by "noseprinting" to eliminate "dog-napping" was presented to the American Humane Association's 63rd annual

Richard Meaney, New York City delegate, submitted to the convention a system he has worked out with the aid of the Federal Bureau of Investigation. He said he hoped to end the stealing of valuable dogs for re ward money or for sale.

sullen looks bent on their tasks, heard applause and shouts from the cricket field.
"School! School! Well played School!" came the cry of their excited mates watching the game. Amid resounding applause from the onlookers came sudden cries

distinguishable in the classroom.
"What a swipe!" "Good old
Wiggs!" "Run, sir, run!"
Several of the pupils sprang to their feet, among them Colley. One went to the open window; others quickly followed. They stared out at the game, and gesticulated wildly.
"It's Wiggs!"

"Only six to win?" cried another upil. "Go on, run it out?" he yelled to the distant player.
"No! No! Get back, you ass!" shouted another boy at the win-

wickets, with the shouting of many distant voices: "How's that?" came to them clear and sharp like the crack of a whip. The boys at the window turned to face the "We've lost!" muttered one of

them. They returned slowly to their seats. One of them, Mor-gan, spoke over his shoulder to Colley.

"Tough luck, Colley."

demands character and courage. That caning of a whole class did not endear Chipping to the pupils, although they were aware that of Chipping. Morgan swung about to face the their own outrageous ragging of the new master had brought it upon themselves. It was but a few weeks later that another inci-

master.
Dr. Weatherby was addressing the boys in the big dining hall:
"Before we leave, I want to wish our cricket eleven the best of luck against Sedbury this afternoon. We have now won the match three years in succession. This year Sedbury claims to be sending us the finest team that ever came out of a very fine school. Well, we shall give them a hearty welcome. We shall give them a big tea, but I venture to predict we will not give them—
the Cup."

"Y-yes, sir," said Chipping. The Headmaster's words, utter
