toward men.

The Angel Appears Luke 2: 8. "And there were shepherds in the same country abiding in the field, and keeping watch by night over their flock, 9. And an and the glory of the Lord shone sore afraid." The word "shepherd" is used in a very rich and varied way, in both the Old and New Testaments, God himself is spoken of as a shepherd in Ps. 23: 1: 80 1; Ezek. 34 : 11-16. God's greatest news is revealed to humble men. There were many great men and vealthy in Palestine; scholars and intellectuals. But it was not to any of these that the angels came, and It was not in their ears the music sounded; the greatest news that the world ever heard was given to a group of humble shepherds. They were men of a devout and reverent spirit, touched with a sense of the mystery of things. Is it not to such simple people that God still reveals imself in amplest measure?

The Angel's Message "And the angel said unto them, Be not afraid; for behold, I bring you good tidings of great joy which shall be to all the people." The shepherds were afraid because they knew that there was a divine presence near them. Why the message which the angel was about to announce was one which could be characterized as of "great joy" the word "Saviour" indicates. Nothing else can bring joy to any person like redemption offered to us in Jesus Christ, deliv ring man from galling bondage of ain, from the fear of death, from the th of God. 11. "For there is born to you this day in the city of David Saviour, who is Christ the Lord." Not only had the angel come to speak to men, but he had come to speak to them of one who was born them, born for them. Heaven could never conceive of any other plan which could so profoundly set forth the love of God for man. and the desire of God to save man, as the sending of his Son to be born under the law and to die for us. "Saviour" is a complex word. It has in it all human nature, all divine nature, all the past of history. all the possibility of prophecy, the tenderness outvying the love of women, the majesty humbling the aughtiness of kings.

12. "And this is the sign unto you: Ye shall find a babe wrapped in swaddling clothes, and lying in The sign was that by means of which the shepherds would be able to determine the truth of the message. The Heavenly Choir

13. "And suddenly there was with angel a multitude of the heavenly host, praising God, and saying, 14. Glory to God in the highest, And on earth peace, good will to-

15. "And it came to pass, when the angels went away from them into heaven, the shepherds said one to another, let us now go even unte Bethlehem, and see this thing that is come to pass, which the Lord hath made known unto us. 15. And they came with haste, and found Mary and Joseph, and the babe lying in the manger, 17. And when they saw it, they made known concerning the saying which was spoken to them about this child. 18. And all that heard it wondered at the things which were spoken unto them by the shepherds."

The Silent Mother 19, "But Mary kept all these sayings, pondering them in her heart." The rest just wondered, not so Mary who had heard Gabriel's annunciation. The matter went far deeper with her, involving her whole personality. 20. "And the shepherds returned, glorifying and praising God for all the things that they had heard and seen, even as it was spoken unto them." These shepherds, seeing the Lord, returned with abounding joy in their hearts and a new love for God. They leave us the example of their heavenward look and their simple faith, as in the name of humanity they saluted the Christ that was to be.

Liners of 100,000 tons. to carry 3,000 passengers, are already being planned in the United States, for building after the war.

of taste, In Portugal, fishermen use melon to attract certain fish which have a sweet tooth.

Doesn't the World Champion Rate a Kiss?

King of the bovine world today is Donald Asay, 10-month-old Here-ford steer weighing 1,087 pounds and crowned grand champion steer of the 1940 international live stock exposition — world's greatest stock how — at Chicago. He was exhibited by Evelyn Asay, 18-year-old f Mount Carroll, Ill., who is shown being kissed by her father afte

### Farm Notes . . .

Feed to Increase Production of Milk

Booklet issued by Ont. Feed Board Contains Much Valuable Information for dairy farmers.

With Ontario being asked to step up the production of cheese for the food line of war time Great Britain, this increase in production in the final analysis depends on the milk flow of Ontario cows. Farmers may or may not be get-

ting the best results from their dairy herds these winter months. This will depend in large measure on feeding methods. The Ontario Feed Board, sponsored by the Ontario Dept. of Agriculture, has issued a handbook of twenty pages on the Feeding and Management of Dairy Cattle which may be obtained free of charge from your local Agricultural Representative. It contains much valuable inform-

Feed To Requirements In general, the Feed Board recommends feeding according to the requirements of each animal. Feed at regular hours each day and avoid sudden changes in feeding. Provide a sufficient supply of fresh water, salt and minerals. For dairy cows in milk the Board advises one pound hay, 2 pounds roots and 2 pounds of silage for each 100 pounds of live weight or one pound hay and 31/2 pounds silage, or 11/2 pounds of hay and 4 pounds of roots or 2 pounds to 21/2 pounds of hay.

When it comes to meal mixtures, the Board advises the daily feed of one pound of meal mixture for every 3 or 4 pounds of milk pro. duced daily. Recommended mixtures are to be found in the handbook. Every farmer who wants to aid Great Britain to the utmost of his ability, should have a copy of this

#### RADIO REPORTER By DAVE ROBBINS

ON CHRISTMAS DAY For St. George and England! The British colony in Hollywood will honour the homeland and those defending, not only the shores of Britain, but the way of life cherished by all free men.
On Christmas Day, as on a date

earlier this fall, a company of disinguished British and Canadian stage and screen stars will combine their talents to aid the Island Fortress. The programme, under the chairmanship of Allan Mowbray, will take the form of a Christmas ting to the people of Reitain and it will be a token of love and loyalty from the sons and daughters overseas.

The program will be heard over the whole Canadian chain, and also on the NBC

AROUND THE DIAL A program of classics that has unusual merit is Musical Americana -heard over WBEN on Thursday nights at 11.30 (daylight). This week instead of the usual 100-man musical group that is a feature of this show, Raymond Paige will direct the Pittsburgh Symphony from that city. In addition, Charlie Thomas and Helen Jepson, whose voices are known to every lover of fine music, will be featured guests on

A new and interesting quizz program-"What Do You Know About The War?"-is an interesting feature from CKOC every Wednesday night at eight. Today's radio and-

iences seem to be definitely quizz-conscious-and war quizzes are particularly timely. The questions are interesting and educational to the layman-and keep him informed on current topics.

Dial in next Wednesday night and hear M. V. Chestnut ask questions in the new war game.

For you folks who like to tune in late dance music on your radio, you can't do better than to dial 550 and listen to WGR-on the air each night till 1.30 (or 2.30 daylight time). Every midnight brings the Mutual chain's best bands to WGR -with such headliners as Sammy Kaye, Phil Harris, Marvin Dale, Charley Murray, Guy Lombardo, Ray Noble, Henry Jerome, Grif Williams and Art Kassel among the band leaders. It's really a dance treat after midnight at the Buffalo . . .

The CBC Music Hall show that features English variety is now heard, on Monday nights at eight. This program has plenty of zip and many laughs.

Trivia: Ten million smackers have been set aside by radio manufacturers across the line for tele vision research . . . Hollywood is making a picture about the R. A. F., starring Don Ameche and Henry Fonda. . . Only man in Guy Lombardo's bard still a bachelor is the guitarist, Francis Henry.

#### SIROIS REPORT: TWO PLANS

The Royal Commission on Do-minion - Provincial Relations Has Made Two Sets of Recom-mendations Which Will Be Discussed at January Conference

(No. 2) January 14th, 1941 may be a date all the grandchildren may be learning in their school books. For it is on that date that the Dominion and the different provinces meet in Otawa to discuss putting into effect ommission. And on the success or failure of that conference depend many things-(1) Canada's help in stopping the Nazi invader. (2) its unity itself, (3) the progress of the country.

The Report consists of 32 vol-

umes. Three of the volumes contain the report itself. The others are on subjects in connection with It took almost three years from

the date of appointment of the Commission to the time the Report was placed before the Prime Miinster. Its Real Purpose Its real purpose it just one-to unite Canada by bringing certain

parts of its constitution relating to taxation up to date and by placing the taxes where they can best be Despite the 32 volumes, the heart of the Report is very simple. It deals with the relations between the Dominion and the provinces and

etween the provinces themselves. and gives answers to the problems facing the country. And the main points are easy to inderstand. There are two plans. Plan 1 is the commission recomnendation which will do a real job

f accepted. Plan 2 is a stop gap. The heart of the Report is as folows. The Dominion will take over ellet of all unemployed who are fit to work. The Dominion will be responsible for making direct operating cost advances to those in primary industry, that is farming and such like, when a large section of the community suffers a heavy crop failure. The Dominion will take over all the provincial debts and those guaranteed by the provinces, that is, all Ontario's debts as well as the relief of those out of work who are still employable will

Ontario's Part
And what does Ontario have to turn over in return for that help? Personal income taxes, corporation taxes and succession duties That in broad outline is the basis of the recommendations of Plan 1 which Ontario along with the other provinces will have to consider in

#### Saving Ontario's Natural Resources

By G. C. TONER, Federation of Ontario Anglers

(No. 21) ONTARIO LAKE TROUT Over much of Ontario the lake trout varies slightly in each lake but not enough in any one lake for specimens from it to be recognizable as different from all others. This variation seems to be a matter of varying conditions; lakes with dark water will have almost black fish, clear waters will have lighter coloured trout. The food also seems to influence the colour of the body and the colour of the flesh. In lakes where the main food is in sects and crayfish the trout will have red flesh and brilliant spotting; in other lakes, where they feed on herring or perch, their flesh will be white. The angler notices these differences and believes the trouts are of different kinds; actually they are the same

The Ontario Department of Game and Fisheries has planted great numbers of lake trout in our inland waters. Most of the eggs, from which the planted fry were raised, were taken in the Great Lakes, from trout that are light coloured and have a slight reddish tint to their flesh. So we find in many lakes, stocked by

#### kinds of trout, the original na-tives and the introduced stock. So far as is known at present these slight differences do not

persist from one generation to another, they are not inherit able. The planted fish will gradually become like the natives and the natives would change to look like the planted fish if they were transferred to the Great Lakes.

SEND YOURS TO US So when you are fishing in the or brook trout unlike those that food and other factors that have made them different. Our scientists engaged in the studies of the fisheries are interested in these varieties and if you want to do work, donate one or two of your eum of Zoology. Bring them in as you catch them, not cleaned, and with exact date and the name caught. Later you will receive a report on your donation and will know exactly what you have

#### **Deficiency Of** Razor Blades

Just as the female of the British species is having to give up silk stockings so the male may be compelled to grow a beard for lack of razor blades before this war has gone on many more

months.

This is just one of the many little sacrifices which keep accumulating day by day as the British democracy in the fight for its life, is obliged to adopt totali-tarian methods to save its war sinews and regulate the daily habits of the taxpayer. Each day the screw turns a little tighter. In many communi-ties, shortages of certain popu-lar brands of cigarettes and to-bacco have recently occurred. The tobacco controller announced that there was no shortage of that commodity in the country and that the stocks were sufficient

to last a long time to come. He

appealed to smokers not to make the situation worse by trying to he blamed "temporary trans port and other interruptions, re-sulting in some disturbance to the normal channels of distribu-tion" for the temporary shortage in certain areas.

#### Canada's Parks Well Patronized

were visited this year by a greatwere visited this year by a greater number of tourists than ever before, according to figures released by the Department of Mines and Resources at Ottawa.

The department's figures, covering all of Canada's national parks about that 1041,360 per parks, show that 1,041,360 persons visited the parks in the seven-month period ended Oct 31 compared with 875,774 in the corsponding period last year.

BANFF MOST POPULAR Only other year in which tour-ist travel to Canada's national parks exceeded the 1,000,000

mark, the department announced, was in 1937-88, when the attendance totalled 1,008,690.

Banff National Park in Alberta was the most popular resort.

A total of 224,807 people visited the park in the seven-month period ended Oct. 31, an increase of 47,834 over the same period. the previous year.

## How Can I?

Q. How can I prevent but-tonholes from becoming frayed and unsightly?

A. Overcast the buttonhole around the edges before work-ing; then work closely in the usual manner. The neat result will repay one for the extra

work.
Q. How can I tie a parcel
package securely?
A. Tie the package that is to be sent by parcel post two or three times, and with separate pieces of cord. Then tie knots where the cord crosses. If this

Q. How can I polish a stained

floor?
A. Make a preparation of shaving 4-pound of beeswax into a pan containing 4-pint turpen-Rub vigorously into the floor and polish with a dry wool-len pad. It is an excellent liquid floor wax.

Q. What can I use for pillow stuffing?

A. Old silk garments, cut into

very fine pieces, make an excel-lent stuffing for pillows. They are soft and cool, and as easily shaken out as feathers.
Q. How can I repair the lid Q. How can I repair the lid of a cooking vessel when the knob has come off?

A. Slip a screw through the hole in the lid, with the head on the inside of the lid, and screw a cork on the protruding end. This knob will not get hot and can be renewed when worn or soiled.

### Salt on Coal Piles

Several large piles of loco-motive coal in storage for use of the Canadian National Railways have been treated to a surface coating of crushed rock sait. The coating of crushed rock salt. The purpose is to prevent coal caking into large lumps during heavy frost, such lumps proving troublesome in handling. All main line fast passenger and freight locomotives of the National System are equipped by automatic stokers which on such engines, render the old-time man-handled scoop are ornamental relic. an ornamental relic.

In Germany's colonies previous to the War, out of a total population of 16,000,000, only one in 600 was white and not all of these were Germans.

Whooping Cough Very Dangerous

The Toronto Star has perform ed a public duty in calling atten-tion to the fatality of whooping cough and the means whereby this affection, like that of diphtheria, may be conquered, writes Dr. John W. S. McCullough of the Health League of Canada. The great danger in whooping cough is in the years under five, and in the years 1933-39, according to Dr. Gordon P. Jackson, the Medical Officer of Health of Toronto, the city has 5529 cases under this age. In the same period there were 4500 cases in the 5

to 14 year group.

It is not in Toronto alone that whooping cough is a menace to small children. In Canada generally the death rate is (1938) than diphtheria; 4.4 as compared with 3.9. Vaccine Prevents It
