

Canada's air force is rapidly being expanded to meet the war emergency and to give 100 per cent. cooperation to the British Commonwealth Air Training scheme, which is now getting under way. Designed for
photographic work, speedy Northrop Deltas are being built at the Vickers plant in Montreal for the R.C.A.F.
These planes are fast, all-metal low-wing monoplanes which can carry a crew of six and attain a speed of 205
plant. These huge boats carry five men and have a range of 2,000 miles and are the biggest planes built in
Canada.

## Sunday School Lesson . .

LESSON VII GOOD CITIZENS AND Matt. 22:15-23:39

Printed Text, Matt. 22:15-22, 34-40 Golden Text: "Thou shalt love thy neighbour as thyself." Matt. 22:39 THE LESSON IN ITS SETTING Time - April 4 of A.D. 30, the Tuesday of Passion Week. Place — Jerusalem, probably not far from the temple, possibly within the temple area.

THREE QUESTIONS it was customary for any one who desired to ask questions of rabbi in public, even interrupting him at pleasure. 15. Then went the Pharisees, and took counsel how they might ensnare him in his talk. (The Pharisees were essentially a religious party, fanatically opposed to whatever was non-Jewish. They sought to attain purity and holiness by the most rigorous and scrupulous observance of the written law and the unwritten traditions down to the tiniest detail. They were soul of the opposition to Jesus, opposing him on national and religious grounds. Their spirit

characterized by Jesus as hypocrisy, i.e., the spirit of untruth-fulness in religion and life). 16. And they send to him their disciples, with the Herodians, saying, Teacher, we know that thou art true, and teachest the way of God in truth, and carest not for anyone;

for thou regardest not the person of men. (The Herodians were not a religious sect, but a court or po!itical party, supporters of the dynasty of Herod. They early perceived that Christ's pure spiritual teaching of the kingdom of God was irreconcilable with their political aims, and that Christ's influence with the people was antagonistic to their interests). The Herodians' purpose here was to trap Jesus, not to gain information.

17. Tell us therefore, What think est thou? Is it lawful to give tribute unto Caesar, or not? "Tri-

bute" means poli-tax; But Jesus perceived their wickedness, and said, Why make ye trial of me, ye hypocrites? 19. Show me the tri-bute-money. And they brought unto him a denarius. 20. And he saith unto them, Whose is this image and superscription? (On one side of the coin were stamped the fea-tures of the Emperor Tiberius; on the obverse his title of Pontifex Maximus). 21. They say unto him, Caesar's. Then saith he unto them, Render therefore unto Caesar the things that are Caesar's; and unto God the things that are God's. The true basis for citizenship implied here is devotion to God, and no political theory or party allegiance can be taken for a substitute for

loyalty to him. 22. And when they heard it, they marvelled, and left

him, and went away. THE GREAT COMMANDMENT 34. But the Pharisees, when they heard that he had put the Sadducees to silence, gathered themselves together, 35. And done of them, a lawyer, asked him a question, trying him. (The great sphere of the activities of the lawyers was the law as it was contained in the Scripture or handed down traditionally; they gave instruction in the law, and trained disciples; they interpreted and developed the law). 36. Teacher, which is the great commandment in the law? 37. And he said unto him, Thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy mind. 38. This is the great and commandment. 39. And a second like unto it is this. Thou shalt love thy neighbor as thyself. 40. On these two commandments the whole law hangeth, and the prophets. The teaching of Jesus here rests upon two well-known passages in the Pentateuch, Deut. 6:5, and Lev. 19:18. If we really love the Lord with all our heart, we will do voluntarily and gladly all the things which are divinely commanded, and will naturally refrain from doing those things which the Lord prohibits. Love is the "royal

Don't Sacrifice Quality

The objective is not entirely un-

selfish, however, but has a found-

ation in the mistakes of the first

world war when quantity produc-

tion was pushed at the expense of quality. Dr. E. S. Archibald, Dir-

ector of the Dominion Experiment

al Farms, illustrated this point

very forcibly at the Ontario Ex-

perimental Union Meeting, when

he drew attention to the fact that

it had taken Canada the whole of

20 years since 1918 to regain the confidence of the British consum-

er for Canadian bacon. Disregard

of soil fertility and the growing

of grain on sub-marginal lands are

some of the other mistakes that

should be guarded against. New

scientific knowledge of matters

pertaining to the growing of field

crops and the feeding of livestock

are potent assets in the present

programme. Higher yielding var-

ieties of rust resistant wheat, such

as Renown, and of oats - Erban

or Vanguard; better type bacon

hogs, with a greater supply of good breeding stock available, are

foundation factors for the neces-

sary expansion.

#### HEALTH **TOPICS**

ACID STOMACH A MYTH Acid stomach is largely a myth and calls for rearrangement of living habits rather than the use of alkaline preparations, according to Prof. Chester M. Jones of Harvard Medical school.

'Hyperacidity," he said in a lecture, "usually is only a supposed chemical disorder of the stomach" and taking medicine is not the way to attack the fundamenta cause, which is "usually one of mproper dietary or living habits."

A NATIONAL OBJECTIVE "Education is the most poter weapon in the campaign of pre-vention of ill health arising from faulty or defective diet and nutrition." Pointing this out to a Ian Mackenzie, Dominion Minis-ter of Health, endorsed and launched a project undertaken by the Health League of Canada to advise women on the right foods to use. Practical demonstrations in cooking are to be given in a number of city schools. The syllabus for the course of instru-tion has been scientifically deve oped and when the success of the project is known, it is intended to outline the technique adopted, for

On the contrary, if we are to be worthy of our fighting men we must strive to go forward in our war against ill-health."

During the last fifty years n

#### Finns Known As Magicians

MAGNIFIES 33,000 TIMES Scientists have succeeded in takfled as many as 33,000 times their normal size, it is revealed in the Canadian Medical Association Jeur-The instrument used to achieve this magnification is the electron microscope, constructed in the Department of Physics by J. Hillier and A. Presbus, research assist-"A Finn com ower fra Norroway

Fir ta pit tothache away."

ment at the University of Toron-The magnification is 28,000 times greater than that of the or-dinary microscope. University re-searchers express hope they will be able to photograph viruses nev-

ants, under the direction of Dr. E. F. Burton, head of the depart-

er seen by the eye.

The new microscope is being used also to photograph blood, in the hope that changes denoting the presence of cancer may be detected much earlier than by present diagnosis. It also is hoped that effect of drugs upon pneumonia may be gauged, particulary on the fatty, protective covering of this germ and of tubercul-

Nordic Sagas Include Many References to Wizardry of Northern Race, Says the Moncton Transcript

Nordic sagas are full of refer ences to those sorcerers, the Finns, says the Moncton Transcript. In the days before James III, of Scotland, received the Orkney islands as a dowry with Margaret of Norway, when the great anchorage of Scapa Flow, which could hold all the navies in the world, knew only Viking ships, it is possible that the tradition was carried to Scotland. for an old Scotch ballad tells us

We have no explanation to offer as to why Norse sailors attributed magic to the Finns, except the obvious. If anyone is to be presented popularly with uncarny powers it is commonly one of unusual appearance, and so perhaps a first Finn was chosen because of his non-Nordic aspect. In those ancient

days ships did not have polyglot crews and lascars if not landlub-bers were not seen in European waters. Indeed a "lascar" seems to have meant originally one attached to the "lashkar" or army and presumably he was not even a marine.

British sailors were long unwill-

ing to risk their hides in a ship which included Finns among the crew. They do not seem to have anything against the Finns individually but they did object to the un-avoidable intimacy in a ship with wizards who play poker with the devil and use human lives as the chips in the game.
