Such a figure adds foreground intertunities — but it's more fun to

along wait. But if you take a few steps to create a situation, you'll find it easier to get just the picture you want—when you want it.

For example, look at the picture above. Is there any point in waiting for such a situation to occur naturally? Not a bit. It's much simpler to spill the milk right where you want it—place the kitten where you wish and shoot. A kitten knows what to do when he's face to face with milk. There are many such occasions where a little arrangement is a big help. Use a bait to tempt a pet to the best spot for a picture. Give the subject completely before shooting it. That's why "table-topping" is so much fur—it allows plenty of room for imagination and originality. Still-life pictures are also a matter of arrangement . . . and your skill

## I look well enough but I need your help...

"BELIEVE IT OR NOT-I've spent a quarter of my life in The Hospital for Sick Children. But then, I'm only six months old. My little feet were being straightened so that I'd be able to romp and play when I'm older.

"The Government and the city I live in, together, paid \$2.35 each day I was here. Unfortunately, that isn't enough because it costs the Hospital an average of \$3.45 every day to treat me and each other little patient.

"It isn't our fault that we get siek or become crippled, but the least we can do is appeal to you for help—particularly when we know that this Hospital does not share in the Toronto Federation for Community Service funds because Public Ward patients are admitted from any part of the Province.

"Won't you send a donation to the Hospital to help meet this deficit? Even a small gift would be greatly appreciated.

"PLEASE ... send it TODAY!"
