Bagpipe Music Is Different

A Lot More Spacing and Fewer Notes - People Who Do Not Like It Should Not Be Condemned

There are lots of people who are t Scots who say they enjoy hearing the bagpipes, although some qualify their appreciation by saying the pipes sound best when the operator is a long distance away. Others, real Scots perhaps, says the Stratford Beacon-Herald, think that there is no grander or more inspiring music than a hundred pipers an' a' an' a' at close quarters.

We learn, however, that there is reason why one likes or dislikes the pipes. A blind Scottish piper old a service club recently that although the note scale is similar to the ordinary scale, the spacing is sometimes different, so that to those who have not been brought up with the sound of the pipes in heir ears the music sounds atrocious.
